Introducing The Master's College

Purpose & Philosophy

The Master's College, a Christian liberal arts college, exists to advance the Kingdom of the Lord Jesus Christ by equipping men and women for excellence in service to Him in strategic fields of ministry and vocation worldwide. This is accomplished through unreserved commitment to worshipping God, submitting to the authority of the Scriptures, nurturing personal holiness, serving the local church and penetrating the world with the Truth.

The Master's College offers to Christian college students an opportunity for higher education in accord with biblical truth. Such an education is intended to stimulate students to think about the great issues of life such as purpose, morality and values as revealed to man through the inspired Scriptures, through the natural creation, through human history and ultimately in the Son of God, our Lord Jesus Christ.

The Master's College purposes to cultivate in the student an intellectual curiosity and a habit of careful analysis of such truth, including as many differing views of truth as are possible within the context of the student's major.

The Master's College provides a campus community where dedicated faculty and staff members exemplify a mature Christian pattern of life and where students have access to their friendly and capable counsel.

The Master's College desires to have a major part in directing students toward the service of Christ. In doing this, the college encourages students toward high ideals and achievement spiritually, intellectually, socially and emotionally. Likewise, the college is concerned that its graduates are equipped with the necessary skills for their chosen vocation.

The Master's College was founded as Los Angeles Baptist Theological Seminary in 1927 to meet the need for a fundamental Baptist school on the West Coast. The intention of its founders was to provide a biblical and Christ-centered education consistent with those doctrines of the historic Christian faith. It held as its cardinal doctrine that the living

sovereign God had revealed Himself in creation, in human history, and particularly in His Son, Jesus Christ, and that the Scriptures were the inspired record of such revealed truth. These convictions remain unchanged.

Today the college serves Bible-believing churches, providing their youth with a liberal arts education integrating their Christian faith. The college conceives of its liberal arts program as a life preparation education rather than a realm of specialization. Those subjects which contribute to Christian development spiritually, intellectually, emotionally and socially are included in the curriculum.

All undergraduate academic majors culminate with a baccalaureate degree, except for the one-year Master's Institute program. The design of the bachelor's degree curricula subsequently permit the graduates to specialize in selected fields of study.

The Master's College is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges, an institutional accrediting body recognized by the Council on Postsecondary Accreditation and the U.S. Department of Education. Accreditation means that the Commission has determined that the institution has clearly defined educational objectives appropriate to higher education and is implementing them in a manner consistent with Commission standards.

The Master's College operates under a charter granted by the State of California in 1927 and is qualified under the California Education Code Section 94310(a) to grant degrees.

Membership is maintained in the Association of Independent California Colleges and Universities, the California Council for Teacher Education, the National Association of College Admissions Counselors, the Pacific Coast Association of Collegiate Registrars, the Association of Christian Schools International, the Western College Association, the Association on Higher Education and Disability and many more.

The Master's College is one of approximately 110

members of the Council for Christian Colleges and Universities, which was founded in 1976 to serve and strengthen the deeply-committed Christian colleges of this country. Being a Council member allows students of The Master's College to participate in study abroad programs described later in this catalog.

The school is approved by the California Department of Education for the training of veterans, orphans and dependents of veterans and is listed in Educational Institutions Approved by the Attorney General for the training of non-quota students from foreign countries.

Doctrinal Statement

The Holy Scriptures

We teach that the Bible is God's written revelation to man, and thus the 66 books of the Bible given to us by the Holy Spirit constitute the plenary (inspired equally in all parts) Word of God (1 Corinthians 2:7-14; 2 Peter 1:20-21).

We teach that the Word of God is an objective, propositional revelation (1 Corinthians 2:13; 1 Thessalonians 2:13), verbally inspired in every word (2 Timothy 3:16), absolutely inerrant in the original documents, infallible, and God-breathed. We teach the literal, grammatical-historical interpretation of Scripture which affirms the belief that the opening chapters of Genesis present creation in six literal days (Genesis 1:31; Exodus 31:17).

We teach that the Bible constitutes the only infallible rule of faith and practice (Matthew 5:18; 24:35; John 10:35; 16:12-13; 17:17; 1 Corinthians 2:13; 2 Timothy 3:15-17; Hebrews 4:12; 2 Peter 1:20-21).

We teach that God spoke in His written Word by a process of dual authorship. The Holy Spirit so superintended the human authors that, through their individual personalities and different styles of writing, they composed and recorded God's Word to man (2 Peter 1:20-21) without error in the whole or in the part (Matthew 5:18; 2 Timothy 3:16).

We teach that, whereas there may be several applications of any given passage of Scripture, there is but one true interpretation. The meaning of Scripture is to be found as one diligently applies

the literal, grammatical-historical method of interpretation under the enlightenment of the Holy Spirit (John 7:17; 16:12-15; 1 Corinthians 2:7-15; 1 John 2:20). It is the responsibility of believers to ascertain carefully the true intent and meaning of Scripture, recognizing that proper application is binding on all generations. Yet the truth of Scripture stands in judgment of men; never do men stand in judgment of it.

God

We teach that there is but one living and true God (Deuteronomy 6:4; Isaiah 45:5-7; 1 Corinthians 8:4), an infinite, all-knowing Spirit (John 4:24), perfect in all His attributes, one in essence, eternally existing in three Persons—Father, Son, and Holy Spirit (Matthew 28:19; 2 Corinthians 13:14)—each equally deserving worship and obedience.

God the Father. We teach that God the Father, the first person of the Trinity, orders and disposes all things according to His own purpose and grace (Psalm 145:8-9; 1 Corinthians 8:6). He is the Creator of all things (Genesis 1:1-31; Ephesians 3:9). As the only absolute and omnipotent ruler in the universe, He is sovereign in creation, providence, and redemption (Psalm 103:19; Romans 11:36). His fatherhood involves both His designation within the Trinity and His relationship with mankind. As Creator He is Father to all men (Ephesians 4:6), but He is spiritual Father only to believers (Romans 8:14; 2 Corinthians 6:18). He has decreed for His own glory all things that come to pass (Ephesians 1:11). He continually upholds, directs, and governs all creatures and events (1 Chronicles 29:11). In His sovereignty He is neither author nor approver of sin (Habakkuk 1:13), nor does He abridge the accountability of moral, intelligent creatures (1 Peter 1:17). He has graciously chosen from eternity past those whom He would have as His own (Ephesians 1:4-6); He saves from sin all those who come to Him; and He becomes, upon adoption, Father to His own (John 1:12; Romans 8:15; Galatians 4:5; Hebrews 12:5-9).

God the Son. We teach that Jesus Christ, the second person of the Trinity, possesses all the divine excellencies, and in these He is coequal, consubstantial, and coeternal with the Father (John 10:30; 14:9).

We teach that God the Father created “the heavens and the earth and all that is in them” according to His own will, through His Son, Jesus Christ, by whom all things continue in existence and in operation (John 1:3; Colossians 1:15-17; Hebrews 1:2).

We teach that in the incarnation (God becoming man) Christ surrendered only the prerogatives of deity but nothing of the divine essence, either in degree or kind. In His incarnation, the eternally existing second person of the Trinity accepted all the essential characteristics of humanity and so became the God-man (Philippians 2:5-8; Colossians 2:9).

We teach that Jesus Christ represents humanity and deity in indivisible oneness (Micah 5:2; John 5:23; 14:9-10; Colossians 2:9).

We teach that our Lord Jesus Christ was virgin-born (Isaiah 7:14; Matthew 1:23, 25; Luke 1:26-35); that He was God incarnate (John 1:1, 14); and that the purpose of the incarnation was to reveal God, redeem men, and rule over God’s kingdom (Psalm 2:7-9; Isaiah 9:6; John 1:29; Philippians 2:9-11; Hebrews 7:25-26; 1 Peter 1:18-19).

We teach that, in the incarnation, the second person of the Trinity laid aside His right to the full prerogatives of coexistence with God, assumed the place of a Son, and took on an existence appropriate to a servant while never divesting Himself of His divine attributes (Philippians 2:5-8).

We teach that our Lord Jesus Christ accomplished our redemption through the shedding of His blood and sacrificial death on the cross and that His death was voluntary, vicarious, substitutionary, propitiatory, and redemptive (John 10:15; Romans 3:24-25; 5:8; 1 Peter 2:24).

We teach that on the basis of the efficacy of the death of our Lord Jesus Christ, the believing sinner is freed from the punishment, the penalty, the power, and one day the very presence of sin; and that he is declared righteous, given eternal life, and adopted into the family of God (Romans 3:25; 5:8-9; 2 Corinthians 5:14-15; 1 Peter 2:24; 3:18).

We teach that our justification is made sure by His literal, physical resurrection from the dead and that He is now ascended to the right hand of the Father, where He now mediates as our Advocate and High Priest (Matthew 28:6; Luke 24:38-39; Acts 2:30-31; Romans 4:25; 8:34; Hebrews 7:25; 9:24; 1 John 2:1).

We teach that in the resurrection of Jesus Christ from the grave, God confirmed the deity of His Son and gave proof that God has accepted the atoning work of Christ on the cross. Jesus’ bodily resurrection is also the guarantee of a future resurrection life for all believers (John 5:26-29; 14:19; Romans 4:25; 6:5-10; 1 Corinthians 15:20, 23).

We teach that Jesus Christ will return to receive the church, which is His body, unto Himself at the Rapture and, returning with His church in glory, will establish His millennial kingdom on earth (Acts 1:9-11; 1 Thessalonians 4:13-18; Revelation 20).

We teach that the Lord Jesus Christ is the One through whom God will judge all mankind (John 5:22-23):

- a. Believers (1 Corinthians 3:10-15; 2 Corinthians 5:10);
- b. Living inhabitants of the earth at His glorious return (Matthew 25:31-46); and
- c. Unbelieving dead at the Great White Throne (Revelation 20:11-15).

As the mediator between God and man (1 Timothy 2:5), the head of His body the church (Ephesians 1:22; 5:23; Colossians 1:18), and the coming universal King who will reign on the throne of David (Isaiah 9:6; Ezekiel 37:24-28; Luke 1:31-33), He is the final Judge of all who fail to place their trust in Him as Lord and Savior (Matthew 25:14-46; Acts 17:30-31).

God the Holy Spirit. We teach that the Holy Spirit is a divine person, eternal, underived, possessing all the attributes of personality and deity including intellect (1 Corinthians 2:10-13), emotions (Ephesians 4:30), will (1 Corinthians 12:11), eternity (Hebrews 9:14), omnipresence (Psalm 139:7-10), omniscience (Isaiah 40:13-14), omnipotence (Romans 15:13), and truthfulness

(John 16:13). In all the divine attributes He is coequal and consubstantial with the Father and the Son (Matthew 28:19; Acts 5:3-4; 28:25-26; 1 Corinthians 12:4-6; 2 Corinthians 13:14; Jeremiah 31:31-34; and Hebrews 10:15-17).

We teach that it is the work of the Holy Spirit to execute the divine will with relation to all mankind. We recognize His sovereign activity in the creation (Genesis 1:2), the incarnation (Matthew 1:18), the written revelation (2 Peter 1:20-21), and the work of salvation (John 3:5-7).

We teach that a unique work of the Holy Spirit in this age began at Pentecost when He came from the Father as promised by Christ (John 14:16-17; 15:26) to initiate and complete the building of the body of Christ. His activity includes convicting the world of sin, of righteousness, and of judgment; glorifying the Lord Jesus Christ and transforming believers into the image of Christ (John 16:7-9; Acts 1:5; 2:4; Romans 8:29; 2 Corinthians 3:18; Ephesians 2:22).

We teach that the Holy Spirit is the supernatural and sovereign agent in regeneration, baptizing all believers into the body of Christ (1 Corinthians 12:13). The Holy Spirit also indwells, sanctifies, instructs, empowers them for service, and seals them unto the day of redemption (Romans 8:9-11; 2 Corinthians 3:6; Ephesians 1:13).

We teach that the Holy Spirit is the divine teacher who guided the apostles and prophets into all truth as they committed to writing God's revelation, the Bible (2 Peter 1:19-21). Every believer possesses the indwelling presence of the Holy Spirit from the moment of salvation, and it is the duty of all those born of the Spirit to be filled with (controlled by) the Spirit (Romans 8:9; Ephesians 5:18; 1 John 2:20, 27).

We teach that the Holy Spirit administers spiritual gifts to the church. The Holy Spirit glorifies neither Himself nor His gifts by ostentatious displays, but He does glorify Christ by implementing His work of redeeming the lost and building up believers in the most holy faith (John 16:13-14; Acts 1:8; 1 Corinthians 12:4-11; 2 Corinthians 3:18).

We teach, in this respect, that God the Holy Spirit is sovereign in the bestowing of all His gifts for the

perfecting of the saints. Speaking in tongues and the working of sign miracles in the beginning days of the church were for the purpose of pointing to and authenticating the apostles as revealers of divine truth, and were never intended to be characteristic of the lives of believers (1 Corinthians 12:4-11; 13:8-10; 2 Corinthians 12:12; Ephesians 4:7-12; Hebrews 2:1-4).

Man

We teach that man was directly and immediately created by God in His image and likeness. Man was created free of sin with a rational nature, intelligence, volition, self-determination, and moral responsibility to God (Genesis 2:7, 15-25; James 3:9).

We teach that God's intention in the creation of man was that man should glorify God, enjoy God's fellowship, live his life in the will of God, and by this accomplish God's purpose for man in the world (Isaiah 43:7; Colossians 1:16; Revelation 4:11).

We teach that in Adam's sin of disobedience to the revealed will and Word of God, man lost his innocence; incurred the penalty of spiritual and physical death; became subject to the wrath of God; and became inherently corrupt and utterly incapable of choosing or doing that which is acceptable to God apart from divine grace. With no recuperative powers to enable him to recover himself, man is hopelessly lost. Man's salvation is thereby wholly of God's grace through the redemptive work of our Lord Jesus Christ (Genesis 2:16-17; 3:1-19; John 3:36; Romans 3:23; 6:23; 1 Corinthians 2:14; Ephesians 2:1-3; 1 Timothy 2:13-14; 1 John 1:8).

We teach that because all men were in Adam, a nature corrupted by Adam's sin has been transmitted to all men of all ages, Jesus Christ being the only exception. All men are thus sinners by nature, by choice, and by divine declaration (Psalm 14:1-3; Jeremiah 17:9; Romans 3:9-18, 23; 5:10-12).

Salvation

We teach that salvation is wholly of God by grace on the basis of the redemption of Jesus Christ, the merit of His shed blood, and not on the basis of human merit or works (John 1:12; Ephesians 1:4-7;

2:8-10; 1 Peter 1:18-19).

Regeneration. We teach that regeneration is a supernatural work of the Holy Spirit by which the divine nature and divine life are given (John 3:3-8; Titus 3:5). It is instantaneous and is accomplished solely by the power of the Holy Spirit through the instrumentality of the Word of God (John 5:24), when the repentant sinner, as enabled by the Holy Spirit, responds in faith to the divine provision of salvation. Genuine regeneration is manifested by fruits worthy of repentance as demonstrated in righteous attitudes and conduct. Good works will be its proper evidence and fruit (1 Corinthians 6:19-20; Ephesians 5:17-21; Philippians 2:12b; Colossians 3:12-17; 2 Peter 1:4-11). This obedience causes the believer to be increasingly conformed to the image of our Lord Jesus Christ (2 Corinthians 3:18). Such a conformity is climaxed in the believer's glorification at Christ's coming (Romans 8:16-17; 2 Peter 1:4; 1 John 3:2-3).

Election. We teach that election is the act of God by which, before the foundation of the world, He chose in Christ those whom He graciously regenerates, saves, and sanctifies (Romans 8:28-30; Ephesians 1:4-11; 2 Thessalonians 2:13; 2 Timothy 2:10; 1 Peter 1:1-2).

We teach that sovereign election does not contradict or negate the responsibility of man to repent and trust Christ as Savior and Lord (Ezekiel 18:23, 32; 33:11; John 3:18-19, 36; 5:40; 2 Thessalonians 2:10-12; Revelation 22:17). Nevertheless, since sovereign grace includes the means of receiving the gift of salvation as well as the gift itself, sovereign election will result in what God determines. All whom the Father calls to Himself will come in faith and all who come in faith the Father will receive (John 6:37-40, 44; Acts 13:48; James 4:8).

We teach that the unmerited favor that God grants to totally depraved sinners is not related to any initiative of their own part nor to God's anticipation of what they might do by their own will, but is solely of His sovereign grace and mercy (Ephesians 1:4-7; Titus 3:4-7; 1 Peter 1:2).

We teach that election should not be looked upon as based merely on abstract sovereignty. God is

truly sovereign but He exercises this sovereignty in harmony with His other attributes, especially His omniscience, justice, holiness, wisdom, grace, and love (Romans 9:11-16). This sovereignty will always exalt the will of God in a manner totally consistent with His character as revealed in the life of our Lord Jesus Christ (Matthew 11:25-28; 2 Timothy 1:9).

Justification. We teach that justification before God is an act of God (Romans 8:30-33) by which He declares righteous those who, through faith in Christ, repent of their sins (Isaiah 55:6-7; Luke 13:3; Acts 2:38; 3:19; 11:18; Romans 2:4; 2 Corinthians 7:10) and confess Him as sovereign Lord (Romans 10:9-10; 1 Corinthians 12:3; 2 Corinthians 4:5; Philippians 2:11). This righteousness is apart from any virtue or work of man (Romans 3:20; 4:6) and involves the placing of our sins on Christ (Colossians 2:14; 1 Peter 2:24) and the imputation of Christ's righteousness to us (1 Corinthians 1:2, 30; 6:11; 2 Corinthians 5:21). By this means God is enabled to "be just, and the justifier of the one who has faith in Jesus" (Romans 3:26).

Sanctification. We teach that every believer is sanctified (set apart) unto God by justification and is therefore declared to be holy and is identified as a saint. This sanctification is positional and instantaneous and should not be confused with progressive sanctification. This sanctification has to do with the believer's standing, not his present walk or condition (Acts 20:32; 1 Corinthians 1:2, 30; 6:11; 2 Thessalonians 2:13; Hebrews 2:11; 3:1; 10:10, 14; 13:12; 1 Peter 1:2).

We teach that there is also by the work of the Holy Spirit a progressive sanctification by which the state of the believer is brought closer to the likeness of Christ through obedience to the Word of God and the empowering of the Holy Spirit. The believer is able to live a life of increasing holiness in conformity to the will of God, becoming more and more like our Lord Jesus Christ (John 17:17, 19; Romans 6:1-22; 2 Corinthians 3:18; 1 Thessalonians 4:3-4; 5:23).

In this respect, we teach that every saved person is involved in a daily conflict—the new creation in Christ doing battle against the flesh—but adequate provision is made for victory through the power of the indwelling Holy Spirit. The struggle

nevertheless stays with the believer all through this earthly life and is never completely ended. All claims to the eradication of sin in this life are unscriptural. Eradication of sin is not possible, but the Holy Spirit does provide for victory over sin (Galatians 5:16-25; Ephesians 4:22-24; Philippians 3:12; Colossians 3:9-10; 1 Peter 1:14-16; 1 John 3:5-9).

Security. We teach that all the redeemed once saved are kept by God's power and are thus secure in Christ forever (John 5:24; 6:37-40; 10:27-30; Romans 5:9-10; 8:1, 31-39; 1 Corinthians 1:4-9; Ephesians 4:30; Hebrews 7:25; 13:5; 1 Peter 1:4-5; Jude 24).

We teach that it is the privilege of believers to rejoice in the assurance of their salvation through the testimony of God's Word, which, however, clearly forbids the use of Christian liberty as an occasion for sinful living and carnality (Romans 6:15-22; 13:13-14; Galatians 5:13, 16-17, 25-26; Titus 2:11-14).

Separation. We teach that separation from sin is clearly called for throughout the Old and New Testaments, and that the Scriptures clearly indicate that in the last days apostasy and worldliness shall increase (2 Corinthians 6:14-7:1; 2 Timothy 3:1-5).

We teach that out of deep gratitude for the undeserved grace of God granted to us and because our glorious God is so worthy of our total consecration, all the saved should live in such a manner as to demonstrate our adoring love to God and so as not to bring reproach upon our Lord and Savior. We also teach that separation from any association with religious apostasy, and worldly and sinful practices is commanded of us by God (Romans 12:1-2; 1 Corinthians 5:9-13; 2 Corinthians 6:14-7:1; 1 John 2:15-17; 2 John 9-11).

We teach that believers should be separated unto our Lord Jesus Christ (2 Thessalonians 1:11-12; Hebrews 12:1-2) and affirm that the Christian life is a life of obedient righteousness demonstrated by a beatitude attitude (Matthew 5:2-12) and a continual pursuit of holiness (Romans 12:1-2; 2 Corinthians 7:1; Hebrews 12:14; Titus 2:11-14; 1 John 3:1-10).

The Church

We teach that all who place their faith in Jesus Christ are immediately placed by the Holy Spirit into one united spiritual body, the church (1 Corinthians 12:12-13), the bride of Christ (2 Corinthians 11:2; Ephesians 5:23-32; Revelation 19:7-8), of which Christ is the Head (Ephesians 1:22; 4:15; Colossians 1:18).

We teach that the formation of the church, the body of Christ, began on the day of Pentecost (Acts 2:1-21, 38-47) and will be completed at the coming of Christ for His own at the Rapture (1 Corinthians 15:51-52; 1 Thessalonians 4:13-18).

We teach that the church is thus a unique spiritual organism designed by Christ, made up of all born-again believers in this present age (Ephesians 2:11-3:6). The church is distinct from Israel (1 Corinthians 10:32), a mystery not revealed until this age (Ephesians 3:1-6; 5:32).

We teach that the establishment and continuity of local churches is clearly taught and defined in the New Testament Scriptures (Acts 14:23, 27; 20:17, 28; Galatians 1:2; Philippians 1:1; 1 Thessalonians 1:1; 2 Thessalonians 1:1) and that the members of the one spiritual body are directed to associate themselves together in local assemblies (1 Corinthians 11:18-20; Hebrews 10:25).

We teach that the one supreme authority for the church is Christ (Ephesians 1:22; Colossians 1:18) and that leadership, gifts, order, discipline, and worship in the church are all appointed through His sovereignty as found in the Scriptures. The biblically-designated officers serving under Christ and over the assembly are elders (males, who are also called bishops, pastors, and pastor-teachers; (Acts 20:28; Ephesians 4:11)) and deacons, both of whom must meet biblical qualifications (1 Timothy 3:1-13; Titus 1:5-9; 1 Peter 5:1-5).

We teach that these leaders lead or rule as servants of Christ (1 Timothy 5:17-22) and have His authority in directing the church. The congregation is to submit to their leadership (Hebrews 13:7, 17).

We teach the importance of discipleship (Matthew 28:19-20; 2 Timothy 2:2), mutual accountability of

all believers to each other (Matthew 18:15-17), as well as the need for discipline for sinning members of the congregation in accord with the standards of Scripture (Matthew 18:15-22; Acts 5:1-11; 1 Corinthians 5:1-13; 2 Thessalonians 3:6-15; 1 Timothy 1:19-20; Titus 1:10-16).

We teach the autonomy of the local church, free from any external authority or control, with the right of self-government and freedom from the interference of any hierarchy of individuals or organizations (Titus 1:5). We teach that it is scriptural for true churches to cooperate with each other for the presentation and propagation of the faith. Local churches, however, through their pastors and their interpretation and application of Scripture, should be the sole judges of the measure and method of their cooperation (Acts 15:19-31; 20:28; 1 Corinthians 5:4-7, 13; 1 Peter 5:1-4).

We teach that the purpose of the church is to glorify God (Ephesians 3:21) by building itself up in the faith (Ephesians 4:13-16), by instruction of the Word (2 Timothy 2:2, 15; 3:16-17), by fellowship (Acts 2:47; 1 John 1:3), by keeping the ordinances (Luke 22:19; Acts 2:38-42) and by advancing and communicating the gospel to the entire world (Matthew 28:19; Acts 1:8).

We teach the calling of all saints to the work of service (1 Corinthians 15:58; Ephesians 4:12; Revelation 22:12).

We teach the need of the church to cooperate with God as He accomplishes His purpose in the world. To that end, He gives the church spiritual gifts. He gives men chosen for the purpose of equipping the saints for the work of the ministry (Ephesians 4:7-12) and He also gives unique and special spiritual abilities to each member of the body of Christ (Romans 12:5-8; 1 Corinthians 12:4-31; 1 Peter 4:10-11).

We teach that there were two kinds of gifts given the early church: miraculous gifts of divine revelation and healing, given temporarily in the apostolic era for the purpose of confirming the authenticity of the apostles' message (Hebrews 2:3-4; 2 Corinthians 12:12); and ministering gifts, given to equip believers for edifying one another. With the New

Testament revelation now complete, Scripture becomes the sole test of the authenticity of a man's message. Confirming gifts of a miraculous nature are no longer necessary to validate a man or his message (1 Corinthians 13:8-12). Miraculous gifts can even be counterfeited by Satan so as to deceive even believers (Matthew 24:24). The only gifts in operation today are those non-revelatory equipping gifts given for edification (Romans 12:6-8).

We teach that no one possesses the gift of healing today but that God does hear and answer the prayer of faith and will answer in accordance with His own perfect will for the sick, suffering, and afflicted (Luke 18:1-8; John 5:7-9; 2 Corinthians 12:6-10; James 5:13-16; 1 John 5:14-15).

We teach that two ordinances have been committed to the local church: baptism and the Lord's Supper (Acts 2:38-42). Christian baptism by immersion (Acts 8:36-39) is the solemn and beautiful testimony of a believer showing forth his faith in the crucified, buried, and risen Savior, and his union with Him in death to sin and resurrection to a new life (Romans 6: 1-11). It is also a sign of fellowship and identification with the visible body of Christ (Acts 2:41-42).

We teach that the Lord's Supper is the commemoration and proclamation of His death until He comes, and should always be preceded by solemn self-examination (1 Corinthians 11:23-32). We also teach that whereas the elements of communion are only representative of the flesh and blood of Christ, the Lord's Supper is nevertheless an actual Communion with the risen Christ who is present in a unique way, fellowshiping with His people (1 Corinthians 10:16).

Angels

Holy Angels. We teach that angels are created beings and are therefore not to be worshiped. Although they are a higher order of creation than man, they are created to serve God and to worship Him (Luke 2:9-14; Hebrews 1:6-7, 14; 2:6-7; Revelation 5:11-14).

Fallen Angels. We teach that Satan is a created angel and the author of sin. He incurred the judgment of God by rebelling against his Creator

(Isaiah 14:12-17; Ezekiel 28:11-19), by taking numerous angels with him in his fall (Matthew 25:41; Revelation 12:1-14), and by introducing sin into the human race by his temptation of Eve (Genesis 3:1-15).

We teach that Satan is the open and declared enemy of God and man (Isaiah 14:13-14; Matthew 4:1-11; Revelation 12:9-10), the prince of this world who has been defeated through the death and resurrection of Jesus Christ (Romans 16:20) and that he shall be eternally punished in the lake of fire (Isaiah 14:12-17; Ezekiel 28:11-19; Matthew 25:41; Revelation 20:10).

Last Things (End Times)

Death. We teach that physical death involves no loss of our immaterial consciousness (Revelation 6:9-11), that there is a separation of soul and body (James 2:26), that the soul of the redeemed passes immediately into the presence of Christ (Luke 23:43; 2 Corinthians 5:8; Philippians 1:23), and that, for the redeemed, such separation will continue until the rapture (1 Thessalonians 4:13-17) which initiates the first resurrection (Revelation 20:4-6), when our soul and body will be reunited to be glorified forever with our Lord (1 Corinthians 15:35-44, 50-54; Philippians 3:21). Until that time, the souls of the redeemed in Christ remain in joyful fellowship with our Lord Jesus Christ (2 Corinthians 5:8).

We teach the bodily resurrection of all men, the saved to eternal life (John 6:39; Romans 8:10-11, 19-23; 2 Corinthians 4:14), and the unsaved to judgment and everlasting punishment (Daniel 12:2; John 5:29; Revelation 20:13-15).

We teach that the souls of the unsaved at death are kept under punishment until the second resurrection (Luke 16:19-26; Revelation 20:13-15), when the soul and the resurrection body will be united (John 5:28-29). They shall then appear at the Great White Throne judgment (Revelation 20:11-15) and shall be cast into hell, the lake of fire (Matthew 25:41-46), cut off from the life of God forever (Daniel 12:2; Matthew 25:41-46; 2 Thessalonians 1:7-9).

The Rapture of the Church. We teach the

personal, bodily return of our Lord Jesus Christ before the seven-year tribulation (1 Thessalonians 4:16; Titus 2:13) to translate His church from this earth (John 14:1-3; 1 Corinthians 15:51-53; 1 Thessalonians 4:15-5:11) and, between this event and His glorious return with His saints, to reward believers according to their works (1 Corinthians 3:11-15; 2 Corinthians 5:10).

The Tribulation Period. We teach that immediately following the removal of the church from the earth (John 14:1-3; 1 Thessalonians 4:13-18) the righteous judgments of God will be poured out upon an unbelieving world (Jeremiah 30:7; Daniel 9:27; 12:1; 2 Thessalonians 2:7-12; Revelation 16), and that these judgments will be climaxed by the return of Christ in glory to the earth (Matthew 24:27-31; 25:31-46; 2 Thessalonians 2:7-12). At that time the Old Testament and tribulation saints will be raised and the living will be judged (Daniel 12:2-3; Revelation 20:4-6). This period includes the seventieth week of Daniel's prophecy (Daniel 9:24-27; Matthew 24:15-31; 25:31-46).

The Second Coming and the Millennial Reign. We teach that after the tribulation period, Christ will come to earth to occupy the throne of David (Matthew 25:31; Luke 1:32-33; Acts 1:10-11; 2:29-30) and establish His messianic kingdom for a thousand years on the earth (Revelation 20:1-7). During this time the resurrected saints will reign with Him over Israel and all the nations of the earth (Ezekiel 37:21-28; Daniel 7:17-22; Revelation 19:11-16). This reign will be preceded by the overthrow of the Antichrist and the False Prophet, and by the removal of Satan from the world (Daniel 7:17-27; Revelation 20:1-6).

We teach that the kingdom itself will be the fulfillment of God's promise to Israel (Isaiah 65:17-25; Ezekiel 37:21-28; Zechariah 8:1-17) to restore them to the land which they forfeited through their disobedience (Deuteronomy 28:15-68). The result of their disobedience was that Israel was temporarily set aside (Matthew 21:43; Romans 11:1-26) but will again be awakened through repentance to enter into the land of blessing (Jeremiah 31:31-34; Ezekiel 36:22-32; Romans 11:25-29).

We teach that this time of our Lord's reign will be characterized by harmony, justice, peace,

righteousness, and long life (Isaiah 11; 65:17-25; Ezekiel 36:33-38), and will be brought to an end with the release of Satan (Revelation 20:7).

The Judgment of the Lost. We teach that following the release of Satan after the thousand year reign of Christ (Revelation 20:7), Satan will deceive the nations of the earth and gather them to battle against the saints and the beloved city, at which time Satan and his army will be devoured by fire from heaven (Revelation 20:9). Following this, Satan will be thrown into the lake of fire and brimstone (Matthew 25:41; Revelation 20:10) whereupon Christ, who is the Judge of all men (John 5:22), will resurrect and judge the great and small at the Great White Throne judgment.

We teach that this resurrection of the unsaved dead to judgment will be a physical resurrection, whereupon receiving their judgment (John 5:28-29), they will be committed to an eternal, conscious punishment in the lake of fire (Matthew 25:41; Revelation 20:11-15).

Eternity. We teach that after the closing of the millennium, the temporary release of Satan, and the judgment of unbelievers (2 Thessalonians 1:9; Revelation 20:7-15), the saved will enter the eternal state of glory with God, after which the elements of this earth are to be dissolved (2 Peter 3:10) and replaced with a new earth wherein only righteousness dwells (Ephesians 5:5; Revelation 20:15, 21-22). Following this, the heavenly city will come down out of heaven (Revelation 21:2) and will be the dwelling place of the saints, where they will enjoy forever fellowship with God and one another (John 17:3; Revelation 21, 22). Our Lord Jesus Christ, having fulfilled His redemptive mission, will then deliver up the kingdom to God the Father (1 Corinthians 15:23-28) that in all spheres the triune God may reign forever and ever (1 Corinthians 15:28).

History of The Master's College

From a commitment that began more than eighty years ago to educate tomorrow's Christian leaders, The Master's College continues to train those who desire to serve in the pulpit or on the mission field

as well as those who desire to make a difference for Christ's sake in commerce, industry, sciences and the arts.

The school began on May 25, 1927, as Los Angeles Baptist Theological Seminary. In 1946, the Seminary became a graduate-level school and initiated a separate undergraduate liberal arts program. In May 1961, the school moved from its original location in downtown Los Angeles to the Placerita Canyon area of Newhall, California. The Seminary program separated from the undergraduate program in 1974 and relocated to Tacoma, Washington. Los Angeles Baptist College (LABC) received its initial regional accreditation from the Western Association of Schools and Colleges (WASC) in the spring of 1975. Early in 1985, Dr. John R. Dunkin stepped down as president after 25 years of leadership at the College.

In May of that year, Dr. John F. MacArthur was appointed as his successor. At that time the name of the school was changed from Los Angeles Baptist College to The Master's College (TMC). With Dr. MacArthur's international reputation in the evangelical Christian community, and because of increased publicity for the College through his daily radio ministry, TMC quickly grew from a student enrollment of 305 in fall 1984 to 863 students in fall 1989. Fall 2010 was another landmark for TMC, presenting the largest incoming class in the history of college

The College currently offers a wide range of traditional undergraduate degree programs in 13 fields of study encompassing 50 distinct emphasis areas, and four degree-completion programs that are specifically geared toward the needs of adult learners. Also at the undergraduate level, The Master's Institute (TMI) program is available for students desiring one year of intensive study in the Bible. At the graduate level, the College offers a fifth-year California Single Subject and Multiple Subject credential program, and Master of Arts programs in Biblical Counseling (MABC), Biblical Studies (MABS), and Education (MAE).

Under the continued leadership of Dr. MacArthur, the goal of the college is to bring students to spiritual maturity and academic excellence through the

collegiate learning process.

“At The Master’s College and Seminary, we focus on the Word of God. In the gospels, we see the Master educating His disciples before He sent them out. His methods have become our model for today.”

Admission

The following admission policies and procedures apply to candidates seeking admission to any of the college's residential undergraduate programs. Requirements for all graduate programs and the Center for Professional Studies are referred to later in this catalog.

The Master's College welcomes applications from students who are on a curriculum plan to complete their secondary (high school) education within the next twelve months. High school graduates and college students intending to transfer are also encouraged to apply. In selecting students, the college is drawn to those who present a strong academic record, show evidence for graduation, articulate a clear testimony of faith in Jesus Christ, share a common theological perspective, and offer potential to contribute positively to the college community.

To assist in the admission and financial aid process (commonly referred to as Enrollment), each student is assigned to an Admissions Counselor. Counselors are geographically assigned to prospective students and an interactive territory map along with biographical information is available online at www.masters.edu/admissions.

ADMISSION POLICIES & PROCEDURES

To be considered for admission to The Master's College, applicants must complete the steps listed below.

1. Submit a complete "Application for Undergraduate Admission" along with the appropriate processing fee. Electronic options are available at www.masters.edu/downloads.
2. Arrange to have official transcripts of all high school and college work sent to the Admissions Office. In cases where an academic record has yet to be established, a mid-semester grade report is acceptable.
3. Provide a spiritual recommendations. This recommendation should be given to the applicant's pastor, youth pastor or fellowship leader. While letters of recommendation are helpful, they may not substitute for the required recommendation forms.

4. As an objective measure of academic preparedness and potential for college success, standardized college admission scores are required.

Scholastic Aptitude Test (SAT) scores will be based on Critical Reading and Math sub-tests. For those who prefer the American College Test (ACT), the writing exam is optional.

Applicants must arrange to have their results from either exam sent to The Master's College. To register, applicants should use the code 4411 for the SAT and 0303 for the ACT.

Applicants are invited to arrange a campus visit and/or counseling appointment by going to www.masters.edu/visit. It is not necessary to have an application on file to participate and a meeting is not required for admission. Members of the Admissions Team are available throughout the calendar year with the exception of Winter Break. Please check the TMC website for school holidays, closures, or conflicts.

Grade Point Average

To determine admission and financial aid eligibility, The Master's College uses both Grade Point Averages (GPA) and College Test scores (SAT I or ACT). The Master's College maintains a policy of utilizing an applicant's GPA as it is reported on their official high school transcript. The college encourages applicants to pursue the most challenging courses possible. When multiple Grade Point Averages are presented, the college selects the academic (non-elective) GPA that best favors the student. By request, The Master's College will calculate a student's weighted GPA using the UC/CSU GPA guidelines.

Application Deadlines

The Master's College holds three application deadlines: two for Fall applicants (Early Action and Priority) and one for Spring applicants.

	Postmark Deadline	Notification Mailed
Fall	November 15 (<i>Early Action</i>)	Rolling beginning November 1
Fall	March 2 (<i>Priority Decision</i>)	Rolling beginning February 1

Spring December 8 Rolling

Application Fees

Applications within their respective deadlines should be accompanied by a non-refundable processing fee of \$40.00. Those who encounter a financial hardship may submit a Fee Waiver Request available on our website at www.masters.edu/downloads.

ADMISSION REQUIREMENTS

Early Action Applicants

Early Action is intended for students with strong academic records who have selected The Master's College as their first choice. Students interested in Early Action should submit their application and supporting credentials no later than November 15. All forms must be postmarked by November 15. Applicants not admitted for Early Action will have their file reviewed once additional information is received.

Freshman Applicants

1. The applicant should be a high school senior or graduate with a minimum of eleven courses from grades 9 through 12 as follows: English - 4 years; Mathematics - 3 years; Science - 2 years; History - 2 years.
2. The applicant must take the SAT I or ACT. These scores help assess preparedness for a collegiate workload.
3. The college may admit students who have not graduated from traditional high school. These students must present a satisfactory G.E.D. certificate or pass the California High School Proficiency Examination and meet all other admission requirements.

Freshman Home-schooled Applicants

The Master's College welcomes applications from anyone who has been home-schooled for all or part of their high school education. The requirements for admission are as follows:

1. The applicant should have completed a high school curriculum as follows: English - 4 units; Mathematics - 3 units; History - 2 units; Science

- 2 units. One unit represents two semesters or one school year.

2. The applicant must take the SAT I or ACT. These scores help assess preparedness for a collegiate workload.
3. The Master's College accepts transcripts produced by home-schooling parents as well as transcripts provided by charter, cluster, or publishing organizations. A sample transcript form is available online at www.masters.edu.

The following format should be used when submitting a home-school transcript. Beginning with Grade 9, the transcript should include the following information:

- Course title (i.e., Algebra I, English 10, etc.)
- Grade earned- when providing grade information, be sure to provide a scale that shows the relationship between percentages and earned letter grades, even if percentages are recorded.
- Credit earned- the standard measure for awarding credit is the Carnegie Unit, which awards one (1) credit for completion of a full-year course that meets daily.

Curricula vary from one home-schooling program to another. Applicants should provide a written explanation of the curriculum used and the educator's teaching methods. The following information should be included with the applicant's transcript:

- Who is ultimately responsible for setting up curriculum and selecting materials?
 - What type of curriculum and materials did the educator(s) use?
 - Who was responsible for providing instruction? Were tutors used in some areas and not in others?
 - Who recorded grades and how?
 - What type of independent, standardized testing was used to measure the student's progress against a larger population?
4. Some home-schooled applicants may finish their high school education at an accelerated pace and be ready to attend The Master's College at an earlier age than their public or private high school counterparts. The college retains the right

to defer an applicant's entrance until such a time as it deems appropriate.

Transfer Applicants

An individual will be classified as a transfer student if he/she has completed 24 or more semester units (36 or more quarter units) of transferable college level coursework at the time of application to TMC. Students desiring to transfer must file an application for admission and submit official copies of all college transcripts regardless of their intent to receive credit.

Students who wish to transfer to TMC from another college or university, but will not have completed 24 semester units (36 quarter units) at the time of application, will be considered **freshman with prior college credit**. This will not affect their ability to be admitted; however, it will require them to submit their official high school transcript containing their high school GPA, along with ACT or SAT scores.

Applicants who have attended another Christian college/university, Bible college, or any other faith-based institution, are required to submit a **Christian College Transfer Recommendation Form** for each of these schools. This form is available from the Admissions Office or online at www.masters.edu/downloads.

College transcripts from other institutions are evaluated and credit is awarded prior to the student's first semester at The Master's College. For financial aid and degree planning purposes, this evaluation is made available to both the student and the academic advisor. Any additional transcripts received after the semester has begun will be evaluated immediately and credit awarded within four weeks of their receipt by the Registrar's Office.

Requirements for International Students in Undergraduate and Graduate Level Programs

Since 1949 The Master's College has been authorized under federal law to enroll non-immigrant alien students. Students from abroad are welcome, provided they meet the admission requirements of the college. International students are urged to contact the International Admissions Counselor or view the college's website to obtain the appropriate application forms. The following are requirements

for both The Master's College and U.S. Immigration:

1. Foreign students must submit transcripts reflecting the completion of high school education or the equivalent of it for the undergraduate programs. Graduate level programs require completion of a bachelor's degree or the equivalent. All transcripts must be translated into English and must be official copies.
2. All applicants to The Master's College must submit an acceptable standardized test score. If the student's first language is English, he or she may submit the SAT I (school code 4411) or ACT (school code 0303). Non-native speakers of English should submit a score from either the TOEFL (school code 4411) or the IELTS. IELTS is jointly managed by the British Council, IDP: IELTS Australia, and the University of Cambridge ESOL Examinations.

Minimum scores required for entry into the college programs are as follows:

PROGRAM	TOEFL PAPER BASED	TOEFL COMPUTER BASED	TOEFL iBT	IELTS
Undergraduate	550	210	80	6.5
Graduate	600	250	100	7.0

3. Certification of finances is required for all foreign students to reflect that they have necessary funds to pay for all tuition and related costs of living for at least their first year of schooling. Limited financial assistance is available from The Master's College and a Financial Aid Application may be requested through the International Admissions Counselor.
4. International students may transfer from another U.S. college or university if they are a full-time student at the school currently attended, have maintained non-immigration student status, and intend to be a full-time student at The Master's College. According to the F-1 student visa transfer regulations, the institution from which the student is transferring must also confirm that the student has maintained his / her F-1 status throughout the student's enrollment with them.

5. Upon admission to The Master's College, United States Federal law requires that an international student must be registered as a full-time student. Minimum requirements for full-time status for the following programs are:
 - Undergraduate - 12 units
 - Teacher Credential (5th year) program - 15 units
 - MABC/MABS resident program - 8 units
 - Center for Professional Studies - 12 units
 - MAE SIP program - 8 units
 - MABC SIP/MABS SIP - 8 units

6. Upon receipt of all documentation, an international student will be notified of the Admission Committee's decision. Once a student is accepted and the finances are verified, Form I-20 will be forwarded to them. Form I-20 is an official document of the United States government which grants a foreign student permission to apply for a student visa at a U.S. consulate or embassy.

7. The Master's College requires that undergraduate F-1 visa international students begin their studies in the Fall semester (August). F-1 visa international students are not permitted to begin as new TMC students in the Spring (January).

Auditing

There are restrictions for international students auditing classes. They may audit courses; however, these units are not included in their full-time unit load calculation. International visitors on B-1 or B-2 visas may not audit or enroll in classes.

Thesis Work Pending for International Students in Graduate Level Programs

A graduate student actively working on a thesis, who continues to reside in the United States, and who has at one time enrolled in the 2 unit Thesis Prep course, can take less than a full load of classes and still maintain full time status. The thesis itself is considered a full time endeavor. Normal progress to complete the thesis for the MABC resident program is 1 year after completion of class work and the Thesis Prep course. The one year of thesis work has been included in the length of program on the I-20 issued to the student. Therefore no extension of the I-20 end date will be granted.

Online Course Work

Only one class (3 units) of online study may be applied toward the full-time enrollment requirement for international students during any given semester.

Visa Waiver Program

Students from countries that are participating in the Visa Waiver program will not be allowed to attend classes for auditing or for credit. It is The Master's College understanding that the use of the visa waiver is for citizens of certain countries to travel to the United States for tourism or business for stays of 90 days or less without obtaining a visa. Any form of study on this type of visa would be a violation of status.

Financial Aid

FINANCIAL AID POLICIES & PROCEDURES

Eligibility

To be eligible to receive financial aid, a student must:

1. Be a U.S. citizen or permanent resident (except for international scholarships).
2. Be enrolled as a full-time student.
3. Have a high school diploma or equivalent.
4. Maintain satisfactory academic progress towards graduation and maintain a minimum cumulative GPA as required.
5. Be registered for the draft with the Selective Service if the student is male, at least 18 years old, was born after December 31, 1960 and is not a current member of the active armed service.
6. Not be in default on any Title IV loans or owe repayment on any Title IV grant (Pell or SEOG).

Priority in awarding is based upon the timely filing of all required applications, supporting documents and notification of admission to the college.

Most awards (scholarships, grants, loans) are disbursed in two equal installments, which are credited directly to the student's account. Most financial awards are eligible for renewal based on program guidelines and an annual application (modified for continuing students) must be submitted.

Determination of Need

Financial need is calculated by information the student provides on the Free Application for Federal Student Aid (FAFSA). *International students will need to complete the International Student Financial Aid Application, which is available upon request from the International Student Office.* This standard form, used nationwide in higher education, gathers information on the family's financial situation—their income and assets. Other requested information includes the number of family members and the number of family members in

college. The results of this calculated assessment is what is commonly referred to as the Expected Family Contribution or (EFC).

The EFC is subtracted from the cost of attendance and the result is a calculation of the student's "financial need". Aid eligibility at The Master's College is a function of both our cost of attendance and your expected family contribution.

Application Process

For Federal, State and Institutional aid you will need to:

1. Complete and submit the Free Application for Federal Student Aid (FAFSA).
2. Complete The Master's College Financial Aid Application (FAA) and return it to the Office of Financial Aid.
3. Submit the appropriate Federal Verification Worksheet (Dependent or Independent) along with parent and student 1040's and W-2 forms from the previous tax year to the Office of Financial Aid.

Applicants for all Cal Grant programs must also:

4. File a verified grade point average (GPA) with the California Student Aid Commission no later than March 2nd and have the FAFSA completed by March 2nd.

OPTION 1: Obtain a GPA Verification Form, have it certified by a school official at the current school attended and send it to the California Student Aid Commission. Photocopy the form prior to mailing and obtain a proof of mailing for verification purposes.

OPTION 2: Many high schools and colleges will file (with a signed release) a student's verified GPA with the Commission in roster form. This option should be verified with each institution.

FINANCIAL AID AWARDS

Once all applications and supporting documents are received (which includes the results of the FAFSA), a financial aid award will be offered to the student.

New Students

January applicants can expect to receive a notice instructing them where to retrieve their award by mid March. Be aware, the “wait period” between application and award lengthens the longer one waits to complete financial aid paperwork. The statement of principles of good practice, established by the National Association for College Admission Counseling, permits first year candidates for fall admission to choose, without penalty, among offers of admission and financial aid until May 1. After May 1 students have 15 business days to respond to their financial aid offer or their financial aid is subject to cancellation.

Continuing Students

Continuing students will be notified of their financial aid offer through a postcard instructing them how to retrieve their financial aid award. January applicants can expect to receive a letter by mid March although the “wait period” between application and award lengthens the longer one waits to complete financial aid paperwork. Students have 15 business days to respond to the financial aid offer (either in part or in whole). Aid is subject to cancellation after 15 days if no response is received.

Verification

Verification is the process of confirming the accuracy of information reported on the FAFSA. All students selected for verification by the Federal Government are required for verification at The Master’s College. A student required for verification will need to submit a Federal Verification Worksheet along with, but not limited to, parent and student 1040 and W-2 forms. This process is required of The Master’s College by the Federal Government in order to help maintain the integrity of the Federal Student Aid program.

Online Awards

Award letters contain confidential information and are located on the TMC secure site. In order to keep the site secure, students are not to share their password with anyone, including their parents.

SATISFACTORY ACADEMIC PROGRESS

Each student must maintain a cumulative grade point average (GPA) of 2.00 or higher for each semester of attendance. Cumulative GPA is based on institutional credit hours only.

A student must also complete 80 percent of the institutional units he/she has attempted. For example, a student who attempts 30 credit hours for the first year must complete 24 of those credit hours. A student who has attempted 60 credit hours by the end of the second year must have completed 48 of these credit hours. A student must also demonstrate progress toward graduation. The time-frame in which a student finishes his degree cannot exceed 150% of the published length of the program. For example, for an academic program with a program length of 122 units, the time-frame of completion cannot exceed 183 units. Part-time students must also complete 80 of their attempted units. “F” grades, incompletes, withdrawals, and “no credit” marks affect your GPA as outlined in the school catalog.

Evaluation of Student’s Progress

GPA and unit evaluation is done at the beginning of each semester. If either of the criteria are not met at their times of evaluation, the student will be notified of his/her failure to meet the qualifications and the student will be placed on Financial Aid Warning.

Financial Aid Warning for Failure to Meet the GPA Requirement

If a student is put on Financial Aid Warning for failure to meet the cumulative GPA requirement, the student has one semester to receive a cumulative GPA of 2.00. The student must maintain a 2.00 cumulative GPA for one semester before he/she will be removed from Financial Aid Warning.

If, within the semester of the beginning of Financial Aid Warning, the student does not receive a cumulative GPA of 2.00, the student will have all financial aid suspended until he/she has met the 2.00 cumulative GPA requirement. After maintaining a 2.00 cumulative GPA for one semester, the student will again be eligible for financial aid.

If a student is academically suspended, the student must complete the readmission procedures for an academically disqualified student as outlined in the

student catalog. The student must then meet the 2.00 cumulative GPA requirement for one semester before that student will be eligible for financial aid. After such a time as the requirements have been met, the student may again apply for financial aid.

Financial Aid Warning for Failure to Meet the Unit Requirement

If, at the time of the unit evaluation, a student has failed to complete 80 percent of his/her attempted units, he/she will be placed on Financial Aid Warning and will be notified of his/her failure to meet the requirements. That student will have one semester in which to improve his/her percentage. If, by the end of that semester, the student has not completed 80 percent of his/her cumulative attempted units, that student will have all financial aid suspended until such a time as he/she has met the requirement. The student may again apply for financial aid after requirements have been met.

Appeal

A student may appeal this suspension by presenting a letter of appeal to the Office of Financial Aid. The appeal must include why you have failed to meet satisfactory progress. It must also include what has and will change in order for you to achieve Satisfactory Progress by the next semester. Cases of extreme illness or death in the family will be taken into consideration. The Office of Financial Aid will notify the student as to the final decision.

An approved appeal will grant the student one semester of probation in which he/she will still be eligible to receive Financial Aid. If, at the end of this probation period, Satisfactory Progress is not met, the student will be placed on Financial Aid suspension until such time as he/she has met the requirements.

FORMS OF FINANCIAL AID

Financial aid is money provided from federal and local governments, independent and private organizations and from funds set aside by the college to assist families in meeting the costs of higher education. Most opportunities for financial assistance fall into either of two categories: “merit-based aid” and “need-based aid.”

“Merit-based” scholarships are granted based on a student’s achievements or promise of achievement in several areas including, but not limited to, academics,

music and athletics. “Need-based” aid, as the name implies, requires that the student and their family demonstrate a financial need in meeting college costs. Simply stated, financial need is the difference between the amount a family is expected to contribute and the actual amount to attend college. In most cases the amount of financial aid offered will be based on a combination of factors involving both types of aid. Once application materials are received, students are assigned counselors to assist them through the financial aid process. New students continue to work with their Admissions counselors while continuing students are assigned a counselor from the Office of Financial Aid.

Information on financial aid for the Degree Completion program and the Master of Arts in Biblical Counseling is located within their respective sections of the catalog.

Financial Aid Refund Policy

Dropping Classes

A student’s final eligibility for aid will be based on the number of hours for which he/she is enrolled on the Official Day of Record, as listed in the class schedule. If a student registers for, and then drops a class (or classes) prior to the Official Day of Record, the student’s eligibility for aid will be recalculated based on the hour remaining as of the Official Day of Record. Since financial aid is released prior to the Official Day of Record, students who receive a financial aid payment based on more hours than those remaining as of the Official Day of Record may be responsible for repaying a portion of any financial aid received.

Dropping classes may affect a student’s eligibility for future aid. Students should consult the Satisfactory Academic Progress Policy, or the Office of Financial Aid to determine if dropping classes will affect their eligibility for future aid.

Total Withdrawal from School

If a student registers and then completely withdraws from all classes, their eligibility for aid will be recalculated based on the number of days he/she attended class. If a student totally withdraws from all classes prior to the first class day, all financial aid will be canceled and no funds will be disbursed. If a student withdraws on or after the first class day, the student may have to repay a portion of any cash

financial aid received. See Return of Title IV Funds (Continued from page 17) on page 20.

Withdrawal from classes may affect a student's eligibility for future aid. Students should consult the Satisfactory Academic Progress Policy, or the Office of Financial Aid to determine if dropping classes will affect their eligibility for future aid.

Return of Title IV Funds

The Higher Education Reconciliation Act of 2008 changed the formula for calculating the amount of aid a student and school can retain when the student totally withdraws from all classes. Students who withdraw from all classes prior to completing 60% of the semester will have their eligibility for aid recalculated based on the percentage of the semester completed. The Office of Financial Aid encourages students to read a complete copy of this policy carefully. Students considering withdrawal from all classes PRIOR to completing 60% of the semester, should contact the Office of Financial Aid to see how that withdrawal may affect their financial aid.

FINANCIAL AID PROGRAMS

On the previous two pages are descriptions of Scholarships, Work Study Program, Grants and Loans that are available to those students who qualify.

Student Account Policies

Through the financial assistance of faithful Christian friends and churches, The Master's College strives to offer students a Christ-centered education within the financial reach of all. The cost of education is considerably in excess of what a student pays. However, the College is able to keep students' costs at a minimum as Christian friends support us through their generous gifts and prayers. With the establishment of scholarships and direct gifts, hundreds of students have been prepared for specific fields of work and service.

PAYMENT TERMS

Tuition, fees, room and board expenses for traditional programs are **due** July 10 for the Fall and December 10 for the Spring semester. A \$25 late fee for payments not received within a 5-day grace period may apply. All Post Session and Winterim charges are due at the time of registration for the courses. For the regular semesters, the following option is available at a fee of \$75.00 per semester:

5-Month Plan. The semester cost of tuition, room, board, and fees will be divided into five (5) monthly payments. Payments begin July 10 prior to the Fall semester and December 10 prior to the Spring semester. A \$75 per semester fee will apply, although no interest will be charged. A \$25 late fee for payments not received within a 5-day grace period may also apply.

PAYMENTS FROM GOVERNMENT AGENCIES OR PRIVATE FOUNDATIONS

Students who anticipate receiving financial assistance from Government Agencies or Private Foundations and will not be able to meet the payment deadlines need to submit a Request for Payment Deferment to the Student Finance Center. If approved, the anticipated amount will be deferred until October 10th (Fall semester) or March 10th (Spring semester). Students will be responsible for paying any charges that exceed this assistance by the published due dates.

REFUNDS

Refunds are based upon the week that the official withdrawal form, signed by the registrar and the appropriate dean, is presented to the Student Finance Office, and not on the time a student

ceases to attend classes. A student withdrawing from school with neither consultation nor consent of an appropriate administrator shall not be entitled to any refund. **The percentage of tuition refunded is based on actual tuition cost charged to the student's account.**

General Education Requirements

The general education courses taken by all students are designed to be the foundation for a liberal arts education. A liberal arts education aims to expose students to a wide variety of values, ideas and assumptions that will help them better appreciate the responsibilities and benefits of a free society. It is also designed to give them a common core of knowledge which will aid in understanding their society and culture.

The college has developed a general education program designed to form the minimum core of each student's liberal arts education. Each candidate for a bachelor's degree must complete a minimum of 71 semester units of general education requirements.

Some courses could satisfy a general education requirement in several possible areas. In these cases, the student must declare which general education requirement a course is intended to satisfy. One course can be used to satisfy **ONLY ONE** requirement.

These requirements may be completed through courses accepted by the Office of the Registrar upon transfer or through specifically designated courses distributed in the following areas:

Biblical Studies (25)

- B211 Biblical Fundamentals (1)
- B101,102 Old Testament Survey I, II (3,3)
- B201, 202 New Testament Survey I, II (3,3)
- BTH321, 322 Christian Theology I, II (3,3)
- Upper Division Bible Electives (6)

All new students are required to take B211 during the first fall semester that they attend the college.

A student entering the college as a freshman is required to take all of the Biblical Studies courses listed above. Any student entering TMC having attended an accredited college or university for at least two semesters after high school graduation and earning at least 24 units of accepted transfer work is required to take one of the above courses (beyond B211) for each semester of full-time attendance. Transfer students must begin with courses from the Old Testament, New Testament, and Christian Theology sequences prior to taking the upper-division Bible electives. No other courses will satisfy

these requirements.

Business Administration (3)

- ECN200 Economics & Society (3)

Communication (3)

- C100 Spoken Communication (3)
Note: All students majoring in Bible may substitute BMN370 (for men) or BMN310 (for women).

Computer Use (0 or 3)

- Pass computer proficiency examination
OR take CS100.

Cross Cultural Studies (3 or 6)

- Option A: Complete any one of the following courses and its accompanying foreign mission or IBEX semester program:
 - BMS311 Introduction to Urban Ministry (3)
 - BMS312 Preparation for Global Outreach (3)
 - IBEX320 Jewish Thought & Culture (3)
 - Option B: Any 6 units of coursework from the following:
 - Any Bible Missions (BMS) course (3)
 - C391 Intercultural Communication (3)
 - ESL344 Cultural Anthropology (3)
 - H327 Latin American History (3)
 - H332 California: Past & Present (3)
 - H346 East Asian History to 1945 (3)
 - H376 Ethnic America (3)
 - HE483B Culture & Lifestyle of Women in Israel (1-3)
 - IBN311 Global Business Strategies (3)
 - IBN361 International Economics and Trade (3)
 - IBN372 International Business Marketing(3)
 - IBN488 International Business Experience(3)
 - ITA123, 124 Beginning Italian I & II (3,3)
 - MU396 World Music (3)
 - MU448 Overseas Music Missions Trip (3)
 - SP221,222 Introductory Spanish I & II (4,4)
 - SS381 Cultural Geography (3)
- Note: Additional courses may be approved in the future that will also satisfy this requirement.*

Exemptions. Requests for exemption of the cross-cultural studies requirements will be accepted according to the following guidelines:

1. All foreign-born students who have lived outside of the United States for five of the last ten years

may be exempted.

2. All children of U.S. citizens who have lived outside of the United States in a foreign culture for at least five years during school grades 7 - 12 may be exempted.
3. No semester units will be awarded. Any student who received an exemption is still held accountable for the minimum number of required units to meet graduation requirements.
4. Appeals for special cases should be made to the Office of the Registrar. The Registrar reserves the right to make the final decision.

English (6)

- *One of the following:* E211, E212, E221, E222, E231 or E232 (3)
- *Any other English except:* E322, E332, E353, E364, E489, and E491

Fine Arts (3)

- MU190 Introduction to Music & Art (3)
- MU295 Music & Art for Musicians (3) for music majors and students with a music background only.
- MU333 Worship and Songs of the church (3) for Biblical Studies majors only.

History (9 + competency exam) or (12)

- *One of the following:* H241, H242 or H228 (3)
- POL220 U.S. Government (3)
- H211 World History I & H212 World History II (3,3)

OR

Pass the World History competency exam and take one upper division history course (3). *See History section for details.*

Mathematics (3)

- MA240 Critical Thinking & Problem Solving (3) *Notes:*
 - *MA240 is waived for Business Administration and CIS Majors.*
 - *LSt majors may substitute MA201 AND MA202 for MA240.*
 - *Students may use MA121 or MA262 (or above) to meet the MA240 requirement.*
 - *KPE majors may substitute KPE 405.*

Philosophic Studies (3)

- *One of the following:*
 - BCW363 Apologetics (3)

- P311 Introduction to Philosophy (3)
- P321 Philosophies of Education (3)
- P364 Ethics (3)

Science (7)

- LS200 Foundations of Science (3)
- One science lecture course (3)
- One science laboratory course (1)

Writing and Research (6 to 9)

- E110 English Composition (3)
- OR
- Pass one of the following writing proficiency examinations:
- Minimum score of 700 on the Verbal section of the *SAT I*.
 - Minimum score of 710 on the *SAT II: Writing Subject Test*.
 - Minimum score of 31 on the English section of the *ACT*.
 - Minimum score of 10 on the *WritePlacer* examination administered by The College Board.
 - Minimum score of 5 on the *Criterion Examination* administered by ETS Technologies.
 - Minimum score of 6 on the *Compass e-Write* examination administered by ACT.
 - Complete two courses (6 units) that are formally designated as writing enhanced.
 - One of the two "W" courses must be completed within the major while the second "W" course may be taken either as a major or a General Education course. A list of approved "W" courses is available at the Office of the Registrar.
 - Students may petition to use a transfer course to meet this requirement by submitting a written petition along with a course syllabus and class schedule to the chairperson of the W-Course Committee.

Graduation Requirements

The Bachelor of Arts, Bachelor of Music and the Bachelor of Science degrees are granted subject to the following:

1. Minimum of 122 semester units of credit. Cannot exceed 150% of the minimum credits for the enrolled program (i.e. Min 122 credits x 150% = 183 credits)
2. Minimum of 40 semester units in upper division courses.
3. Minimum grade point average of 2.00 in all work attempted at TMC and in the major.
4. Minimum of 32 semester units of fall/spring semester traditional program (non-DS) coursework, or 32 semester units of TMC CPS major program courses.
5. Complete at least 12 of the final 24 semester units at The Master's College.
6. Maximum of 60 semester units of Online Learning coursework.
7. Maximum of 60 semester units of TMC intensive format courses (e.g., post-session, Winterim, Saturday school, etc.)
8. Completion of the curriculum as given for the chosen major field of study.
9. Four-year students must complete at least 25 semester units of general education requirements in Bible. Transfer students must take a minimum of one general education Bible survey course (B101, B102, B201, B202, BTH321, BTH322) each semester of full-time attendance. Part-time students (taking fewer than 12 semester units) are not required to take a Bible course. However, a student taking several semesters of part-time coursework must complete one general education Bible course for every 15 semester units taken at The Master's College.
10. A student will be allowed to participate in commencement exercises only if he/she has completed, or is in progress to complete, all academic requirements by the time of commencement ceremonies. A student may have no more than one directed studies course still in process during the third week of March to be eligible to participate in the May commencement ceremonies.

General Policies and Procedures

Student Academic Classification

Freshman. An accepted high school graduate who has enrolled in the college.

Sophomore. A student with at least 30 semester units and a 2.00 GPA. All conditions of entrance removed.

Junior. A student with at least 60 semester units and a 2.00 GPA.

Senior. A student with at least 90 semester units and a 2.00 GPA. There must be reasonable assurance of the fulfillment of all requirements for graduation within the academic year. A student must file an application for graduation in the Office of the Registrar prior to the beginning of the second semester of the senior year.

Full-Time Student. One who is carrying a minimum load of 12 semester units. Only full-time students not on academic probation may be elected to student association offices, serve on student publications, or compete on intercollegiate athletic teams.

Non-Matriculating Student. One who has not formally declared a degree objective and is carrying six or fewer semester units.

Transfer Student. A student who enters TMC with at least 24 semester units of accepted college level coursework from another college or university. Credit by examination does NOT count toward determining whether a student has reached transfer status.

Course Numbering System

The first digit in the course number indicates the year during which a student will typically take that course. Thus:

- 100-199 are freshman level courses
- 200-299 are sophomore level courses
- 300-399 are junior level courses
- 400-499 are senior level courses
- 500-599 are graduate level courses
- 600-699 are graduate level courses

The third digit in the course number usually indicates the frequency at which the course is offered. Thus:

if the third digit is: the course is usually offered:

0	Every Semester
1	Every Year, Fall
2	Every Year, Spring
3	Odd Years, Fall
4	Even Years, Spring
5	Even Years, Fall

Consistent with general academic practice, not all courses listed in this catalog are offered every semester. Students should consult the schedule of classes prepared prior to registration in planning their programs. The college reserves the right to withdraw any course for which there is not sufficient demand. Usually five students are required as a minimum.

Grading System

Symbol	Grade Points	Explanation
A	4.0	Thorough mastery of subject material & demonstrates effective use of creative resourcefulness.
A-	3.7	
B+	3.3	Good mastery of subject material, and evidences ability to effectively use acquired knowledge.
B	3.0	
B-	2.7	
C+	2.3	Average grasp of subject material.
C	2.0	
C-	1.7	
D+	1.3	Minimal grasp of subject material.
D	1.0	
D-	.7	
F	0.0	Failure to attain minimal grasp of subject material.

Academic Terms and Definitions

The following definitions apply to symbols utilized in lieu of grades:

Audit (AUD). Audit students are those who receive no credit, but wish to attend lectures in a course, or participate in musical ensembles or private lessons, without any responsibility to take examinations, complete homework or papers, practice hours or to be evaluated. Audit registration will appear on the student's record, but will not be included in computing a full-time academic load.

Credit (CR). Credit is measured in semester units.

A semester unit represents one recitation period (55 minutes) per week for one semester of 15 weeks and assumes about two hours of outside preparation for each recitation period. Credit units of particular classes are given with each course description.

Failure (F). No credit or grade points given. This policy means that all units attempted which are shown on the permanent record card as F will be charged against the student with a value of 0.00 grade points. The effect of this will be to lower the overall GPA.

Incomplete (I)

1. An Incomplete will be granted only upon submission of a completed *Incomplete Contract* to the Office of the Registrar.
2. Any Incomplete not finished within the terms of the *Incomplete Contract* will lapse into the grade designated on the *Incomplete Contract*.

No-Credit (NC). No credit.

Pass (P). Indicates that the student passed a course, but credits do not count toward GPA or credits do not count toward graduation, such as MA072, 082, 090.

Quality Points (QP). Quality points are assigned in order to determine the student's scholastic average. Quality points of a given grade are multiplied by the number of semester units of credit given in each course.

Withdraw (W). Withdrawal from course from third week of classes through twelfth week. After the twelfth week a student may not withdraw and is awarded the grade earned.

Transfer Credit Policies

TMC grants credit for college level course work from other colleges and universities based on the following criteria:

1. The student must have good standing at the institutions previously attended. Students who have been dismissed or suspended from another college for disciplinary reasons must request that a letter be sent by the dean of the college involved, detailing the reasons for such dismissal.
2. No courses will be transferred in which the grade earned was less than C (2.0). Credit will be given for accepted courses which will apply toward the student's course of study at The Master's College.
3. No more than 70 units of credit will be accepted

from a community college. Courses for which credit is allowed toward the bachelor's degree must be university transfer level.

4. No more than 94 units from other accredited institutions may apply toward fulfillment of degree requirements at The Master's College. Transfer students must take at least 12 semester units of upper division work in their major at TMC.
5. Students who are transferring from an accredited institution and who have completed a lower division course which had content comparable to an upper division course at The Master's College may: (a) choose to retake the course at TMC to earn upper division credit for the course; or (b) choose to pass a competency exam to verify that the lower division course was comparable in rigor to the upper division course at TMC. Passing the competency exam entitles the student to enroll in another upper division course to earn sufficient upper division credits.
6. Transfer credit may be granted to students from unaccredited schools of collegiate rank upon approval of the Vice President for Academic Affairs or the Registrar.
7. The Master's College will grant credit for transferable college coursework taken before high school graduation if taken from an accredited college. Official transcripts must be submitted and all other transfer requirements met.
8. The maximum number of transfer credits which will be awarded for various types of "non traditional" college course work from accredited institutions are as follows:
 - **32 units** of Advanced Placement (maximum of 32 units), College Level Examination Program (maximum of 18 units), and credit by TMC assessment (maximum of 12 units).
 - **45 units** of transfer credit from military transcript with maximum of 30 units applicable toward meeting TMC general education requirements.
 - **36 units** of non-traditional course work including: directed studies courses, correspondence courses, computer and WWW-based distributed education courses or Video/ITV based courses

Credit Limits for Non-Traditional TMC Coursework

The maximum number of semester units from non-traditional format TMC courses that a student may count toward a degree program is as follows:

- 13 units of TMC directed studies courses.
- 24 units of intensive format TMC courses (post-session, winterim, or Saturday school).
- 60 units of TMC Distance Education Extension Program (DEEP) courses.
- 24 units of credit for live experience assessment.

Credit by Examination

The Master's College, as a member of the College Entrance Examination Board, recognizes the merits of the Advanced Placement (AP), College Level Examination Program (CLEP) and the International Baccalaureate (IB), and will grant credit for passing scores in certain tests offered through these programs. A student may earn a maximum of 32 semester units of transfer credit across the combination of AP exams (32 units max.), IB exams (32 units max.), and CLEP exams (18 units max.). If a student takes a college course for which he/she has already received AP credit, then he/she forfeits that transfer credit.

The Master's College reserves the right to determine the amount of credit that will be awarded for all AP/CLEP transfer credit examinations. Credit for all AP courses other than science, is awarded based on a score of "3", "4" or "5". Credit for science AP courses is awarded based on a score of "4" or "5". CLEP examination credit may be granted for all courses based on a score of 55 or higher. The College will grant credit for IB examinations with scores of "5", "6" or "7".

For students entering TMC as freshmen or sophomores, CLEP credit will only be awarded up to the end of the student's first semester of his/her senior year. For transfer juniors or seniors, CLEP credit will be awarded up to the fourth week of the final semester of the senior year.

Note: The Master's College has been designated as a national testing facility for the CLEP examination. If CLEP examinations have already been taken, contact the Office of the Registrar for information regarding acceptance of CLEP scores. For testing information, contact the Office of Career Services.

Registration Procedures

The college sets aside a period at the beginning of the fall semester for reception, registration and orientation. During these days the new students become acquainted with programs and facilities provided for their instruction.

1. Several entrance tests and surveys are given to all new students at this time.
2. All students will be notified by mail regarding the fall orientation and check-in information. A schedule of classes is published and is available before registration.
3. All continuing students are required to have an interview with their academic advisor at least once per semester prior to registration.
4. An evaluation of credits is made of all transfer college work, and new transfer students, in addition to their advisor, will receive a copy of this evaluation. A student may contact the Office of the Registrar for the name of his/her advisor.
5. Late check-in continues one week following the priority check-in day.
6. Check-in is completed only after financial arrangements have been made with the Director of Student Accounts.

Class Changes

1. **Adding Courses.** Courses may be added electronically only during the first two weeks of a semester.
2. **Dropping Courses.** Courses may be dropped electronically during the first two weeks of a semester and will not appear on the student's permanent transcript. Courses dropped from the third to the twelfth week of a semester will appear on the transcript with a grade of "W." Courses may not be dropped after the twelfth week of class except in the case of serious illness.
3. **Repeating of Courses.** Students may repeat courses in which grades of 'D' or 'F' are earned. Repeats of 'D' courses earn no units. When a course is repeated where a 'D' or 'F' grade was earned, only the higher of the two grades will count in the computation of the GPA. The course and grade of 'D' or 'F' will, however, remain on the

student's academic record. Some departments may demand the repeat of a course within the major that was credited with a 'C-'.

4. **Changes in Course Schedule.** If a student desires to drop a course following the first two weeks of a semester, he/she must have the permission of his/her instructor, academic advisor, and the Office of the Registrar to make changes. Forms are available in the Office of the Registrar.
5. **Course and Lab Fees.** These fees will be refunded if a student drops a course during the first two weeks of the semester. After that time, course and lab fees are not refundable.
6. **Withdrawing from School.** Withdrawal is processed on a form available from the Office of the Registrar. Any refund due the student is determined according to the refund policy found in the financial information section of this catalog.

Scholastic Honors

It is recognized that the ability to concentrate and persevere in scholastic work is an important part of the preparation for effective Christian ministry. The following scholastic honors are recognized:

Semester Honors: Granted to undergraduate students completing 15 or more semester units who attain the following grade point average:

President's List	3.80
Dean's List	3.60

Graduation Honors: Granted at graduation to students who have completed at least 60 semester units at The Master's College and have attained the following cumulative grade point average:

Summa Cum Laude	3.85
Magna Cum Laude	3.65
Cum Laude	3.50

TMC Class Absence Policy

No faculty member is required to take class attendance in his/her course or to use class attendance as a factor in student grading. If a faculty member uses attendance as a factor of his/her class grading policy, he/she must allow at least the following number of excused absences with no negative grade effect:

- 5 absences in a 3-session/week class
- 4 absences in a 2-session/week class
- 2 absences in a 1-session/week class

Excused absences include unavoidable circumstances beyond the control of the student, significant illness, and college-sponsored travel to represent TMC (e.g., intercollegiate athletic events, musical group performances). Faculty members may, but are not required to, make any allowances for unexcused absences. Faculty members are required to allow students to complete grade-related in-class work (e.g., assignments, quizzes, tests) for excused class absences. Faculty members may but are NOT required to allow students to complete grade-related in-class work for unexcused absences. For scheduled excused absences (e.g., college sponsored travel), the faculty member may require grade-related in-class work to be submitted prior to the absence. For unexpected excused absences, the faculty member must allow the student a reasonable time to complete and submit the missed work. Faculty members may institute a grade effect for excused absences beyond the minimum.

Academic Advising

When students are admitted to the college, an academic advisor is assigned to assist them in planning their program of courses. Student orientation is provided at the beginning of the year for general information and academic advisors assist students prior to each registration. Students are encouraged to maintain close contact with their advisor in order to plan their college program properly. Students on academic probation receive special advising and must enroll in courses designed to help them meet the academic demands of college life.

Although the college seeks to provide students the assistance that they need in their academic career through academic advisement, final responsibility for meeting all program, residence and graduation requirements rests with the students. One of the most important tools is this catalog. Students should become thoroughly familiar with the catalog in order to keep up with their own records and to make certain that they are meeting graduation requirements, including general education courses and grade point average. The academic requirements of the catalog under which a student enters becomes the student's academic contract. Academic requirements

may be lowered but never raised under a particular catalog. Students are strongly encouraged to maintain possession of this catalog for future reference.

Academic Probation

Students entering on academic probation are limited to 15 units per semester. They must receive a minimum GPA of 2.00 at the end of the semester to be removed from probation. Any student whose cumulative GPA falls below 2.00 will be placed on academic probation for one semester. If their cumulative GPA remains below 2.00 at the end of that semester, they will be subject to academic disqualification. A student subject to academic disqualification may appeal by submitting a letter to the Vice President for Academic Affairs stating why he/she should not be disqualified. The student's request will then be reviewed by the Academic Affairs Council for final decision.

The procedure for readmission of an academically disqualified student includes: (1) a minimum of one semester of academic suspension, (2) attendance at another accredited institution and achievement of a 2.50 cumulative GPA on a minimum of twelve semester units of transferable coursework with no course grade lower than a "C", and (3) review of the student's application for readmission by the admissions committee. If the student's readmission is approved, the student will be placed on academic monitoring/probation and will be required to meet regularly with the academic counselor during the semester. The student will have that semester to achieve a 2.00 cumulative GPA to be removed from academic monitoring/probation and continue their enrollment at the college.

Any student whose cumulative GPA falls below 2.0 may not participate in extracurricular activities such as student government, athletics, music and missions teams.

Academic Dishonesty

It is the responsibility of the faculty member to pursue suspected incidents of academic dishonesty occurring within his/her courses. If a student is found to be guilty of cheating, plagiarism or another form of academic dishonesty, the faculty member is required to document the incident in writing and submit the report to the Vice President for Academic Affairs. The first documented incident of academic dishonesty will result in the student

failing the assignment or the course at the instructor's discretion depending on the severity of the incident. Any subsequent documented offense of academic dishonesty by that student (regardless of whether it occurs in the same or any other course taken by the student at the College) will result in automatic failure of the course and expulsion of the student from the College for a minimum of one academic year.

Student Appeal Process

Grade Appeals

Any student who believes that a grade received for a course, assignment, or examination has been awarded improperly or unfairly should address his or her concerns directly to the faculty instructor involved, and then, as necessary, with the department chair. If satisfactory resolution is not reached through this informal process, a student may submit a written appeal to the vice president for academic affairs. Appeals must be submitted within one month of the occurrence of the incident and should provide a clear description of the incident along with an explanation of why the student believes the action was unfair. The faculty member will be invited to submit a written response to the student's appeal. The vice president for academic affairs will constitute an appeals committee within a week following the submission of the appeal. The committee will consist of:

- The vice president for academic affairs.
- One full-time faculty member chosen by the faculty member whose decision has been appealed.
- One full-time faculty member chosen by the student.
- One full-time faculty member chosen by the vice president for academic affairs.

The appeals committee will read the student's written appeal and the faculty member's response. They may request the student and/or faculty member be available to respond to questions relating to the issue. The committee will consider all of the information and come to a decision relating to the appeal. The vice president for academic affairs will be responsible for communicating the decision in writing to the student and faculty member.

Appeals of Academic Dismissal

A student subject to academic dismissal because

of a low cumulative GPA or because of academic dishonesty may appeal by submitting a letter to the vice president for academic affairs within two weeks of being notified of dismissal, along with an explanation of why the student believes the dismissal was unfair. The student's request will be reviewed by the academic affairs council with input from the student's advisor, faculty who have had the student in recent classes, and the academic counselor. The council will make a decision on the appeal which will be communicated in writing to the student by the vice president for academic affairs.

Appeals of Student Development Department Disciplinary Decisions

Should a student's conduct put his/her standing with the school in jeopardy because of violations of student policy, the issue shall be brought before the Student Life Deans. If, after their careful consideration of the issue, they conclude it is in the best interests of the individual and the College for the student to be dismissed, it is in their power to take such action. Should the student wish to appeal that decision, he/she may do so through the Dean for Student Life within forty-eight hours. The appeal must be made by the student; appeals from outside parties will not be processed. An Appeals Committee will convene consisting of the Dean for Student Life acting as the presiding officer (with no vote), one faculty member, the student's RD, one member of the Student Life Staff, the Student Body Chaplain, and, if the appealing student desires, two character references of his/her choice (with no vote). The Dean for Student Life may also invite any student with relevant information to provide testimony to the committee. Once the committee has convened, the presiding officer will invite the appropriate Dean and RA into the meeting, along with the appealing student, and as many as two character references chosen by the student. The Dean will be asked to state the issues, after which the appealing student will be given every opportunity to state his appeal. When all parties are satisfied that the issues have been clearly communicated and understood, the Dean, appealing student, and character references will be asked to leave although the committee may request the return of the Dean or the student for further clarification. After any needed deliberation, the committee will come to a decision. Both the Dean and the student in question will then be asked to return. If the committee was not in agreement with the dismissal

decision, they give their reasoning and recommend a change in the decision. If the committee upholds the Dean's decision, no further provision for appeal is available.

Directed Studies

A Directed Studies (DS) course is defined as a course that is being taken in a non-regularly scheduled class format. The policy for taking DS courses at The Master's College is outlined below:

1. A student is allowed to take a maximum of 13 semester units of TMC DS coursework during his/her undergraduate program.
2. A student may be enrolled in no more than two DS courses at any one time.
3. A student may have no more than one DS course still in process during the third week in March to be eligible to participate in the May commencement ceremonies.
4. A student may enroll for a DS course at any time during the school year.
 - If the student enrolls at any time during a semester, the course will be added to the student's schedule for that semester, and the cost for that semester will be adjusted as necessary.
 - If the student registers between the fall and spring semesters, the course will be added to and posted as a part of the student's spring schedule.
 - If the student registers for the course at any time between the spring and fall semesters, the course will be added to the student's summer term.
5. A grade for a DS course can be posted no sooner than one week per semester unit following the student's official enrollment date in the course.
6. A student may withdraw from a course (and receive a "W" grade) only during the first 12 weeks of the contract. If the work is not completed by the deadline (a maximum of 4 months), the Registrar's Office will assign a grade of "F" to the student for this course.
7. The percentage of tuition refunded to a student dropping a DS course will be based on the number of weeks the student has been enrolled in the DS course, and will be parallel to the tuition refund schedule for regular fall and spring semester courses.
8. A per-unit fee will be charged to the

student to cover faculty and institutional expenses. The per-unit fee is non-refundable after the first two weeks of enrollment in the course.

Institutional Eligibility Regulations for Athletics

Institutional Semester GPA Regulation of 1.75 Any student-athlete having a semester GPA lower than 1.75 is subject to the following guidelines:

1. First semester freshman student-athletes are allowed a one semester grace period to improve their GPA before being denied the privilege of representing the institution in athletics.
2. Student-athletes who do not have first-time freshman status or are transfer students will be denied playing status during the next semester of attendance.
3. Once student-athletes raise their GPA to 1.75 or above, they can begin athletic participation and continue as long as their semester GPA is maintained at 1.75 or above.

Institutional Cumulative Grade Point Average Regulation of 2.00

Student-athletes whose cumulative GPA falls below 2.00 are placed on academic probation. If they do not attain a cumulative GPA of 2.00 or above for a second or any subsequent semester of enrollment, they will be denied participation in intercollegiate programs and are subject to academic disqualification. **NOTE:** Institutional grade point averages can be raised *only by taking institutional credit hours*.

Veteran's Benefits

The Master's College is approved as a degree-granting institution for the attendance of veterans under Title 38, United States Code. This includes the programs covered in chapters 30, 31, 32, 33 (Post 9/11 and Yellow Ribbon) and 35 of Title 38, relating also to the education of disabled veterans and war orphans, and 1606 of Title 10. The Bureau for Private Postsecondary and Vocational Education under the State of California Department of Consumer Affairs has also authorized the College for the attendance of veterans and veterans' dependents. Veterans, or their dependents, who plan to enroll in the College are urged to contact the veteran's certifying official in the Office of the Registrar well in advance of registration so that the necessary arrangements may be made with the Veterans Administration or the

California Department of Veteran's Affairs. You may also contact the Veteran's Administration directly at 1-800-827-1000 to request Form DD-214. To access downloadable forms, please go to www.va.gov.

Reserve Officer Training Corps (ROTC) Program

Both the Air Force and the Army offer the ROTC program to TMC students under special arrangements which allow TMC students to attend academic classes and earn their degree at TMC while participating in the ROTC program at nearby universities. Air Force ROTC is offered at Loyola Marymount University (LMU), University of Southern California (USC), and University of California, Los Angeles (UCLA). The Army offers ROTC at UCLA, which also runs a satellite program at California State University, Northridge (CSUN).

Family Education Rights and Privacy Act of 1974

The Master's College complies with the provisions of the Family Education Rights and Privacy Act of 1974. The college does not permit access to, or the release of, personally identifiable information or educational records, to any individual without the written consent of the student, with the following exceptions:

- To administrators, faculty or staff of the college, having legitimate educational concerns.
- To medical personnel when the health of the student or others would be endangered by the withholding of information.
- To financial aid personnel in connection with an application for such aid.
- To the parents of dependent children.
- To the governmental officials designated by law, or in compliance with a judicial order.

The college may release directory information unless the student withholds permission. Directory information is defined as: student's name, address, telephone number, date and place of birth, major field of study, participation in sports and officially recognized college activities, height and weight of members of athletic teams, dates of attendance at the college, degrees and honors received, email address, full or part-time status, year in school, other educational institutions attended and honors received.

In addition, under the provisions of the above-named act every student has the right to:

-
- Inspect and review his/her educational records.
 - Request changes to items in his/her records that are not accurate.
 - Obtain a copy of the college's policy related to FERPA.

Questions about the application of these policies may be directed to the Office of the Registrar.

Disability Services

The Master's College has an institutional commitment to provide equal educational opportunities for qualified students with disabilities in accordance with applicable state and federal laws and regulations, including the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973. To ensure equality of access for students with disabilities, academic and/or non-academic accommodations and auxiliary aids shall be provided to the extent required to comply with the state and federal laws and regulations. For each student, academic and/or non-academic accommodation and auxiliary aids shall specifically address those functional limitations of the disability which adversely affects equal educational opportunity. The Master's College and Seminary has established the Office of Disability Services (ODS) to coordinate compliance with the various regulations and sovereign scriptural issues and to assist qualified students with disabilities. Students requiring services should contact the Students with Disabilities Services (SDS) at (661) 362-2269, or alternatively by FAX (661) -362-2717.

DEGREE COMPLETION PROGRAM

TMC offers, through the Center for Professional Studies, the following Bachelor of Arts degrees:

- Biblical Counseling
- Christian Ministries
- Liberal Studies
- Organizational Management

For complete program information see the Degree Completion Program section of this

catalog. Prospective applicants may request further information from the Center for Professional Studies by calling 1-661-362-2677.

THE MASTER'S COLLEGE ONLINE

The Master's College Online provides an opportunity for students to complete a variety of survey-level biblical studies and general education courses in a distance education course delivery format. Each online course makes use of a combination of lectures given by full-time TMC faculty (available in either a streaming video or DVD based format) along with assignments, projects, threaded-discussions, and examinations that are accessed via the Internet through the College's website. All courses are taught from a thoroughly biblical worldview. Credit gained from completion of online courses can be used toward completing degree work at TMC, and may be transferable for use in degree programs at other colleges or universities. Students enrolling in an online course are required to have a staff member from their home church agree to proctor course examinations. Students may obtain more information and/or demonstration about TMC Online by contacting the administrative offices at 1-877-302-3337 or by accessing tmconline@masters.edu on the web.

MASTER OF ARTS DEGREE

TMC offers Master of Arts degrees in:

- Biblical Counseling (MABC)
- Biblical Studies (MABS)
- Education (MAE)

See the Graduate Programs section of this catalog. Prospective applicants may request further information from the Graduate Programs Enrollment Counselor by calling 1-800-568-6248, extension 3034 for MABC, extension 3039 for MABS, or extension 3205 for MAE.

THE MASTER'S SEMINARY

The Master's Seminary exists to advance the kingdom of the Lord Jesus Christ by equipping godly men to be pastors and/or trainers of pastors for excellence in service to Christ in strategic fields of Christian ministry. This is to be accomplished through an educational program and an environment of spiritual fellowship and relationships that emphasize unreserved commitment to the worship of God, submission to the authority of the Scriptures, a life of personal holiness, the priority of the local church and the mission of penetrating the world with the Truth.

The Master's Seminary offers six degree programs:

- Master of Divinity (M.Div.)
- Bachelor of Theology (Th.B.)
- Diploma of Theology (Dip.Th.)
- Master of Theology (Th.M.)
- Doctor of Theology (Th.D.)
- Doctor of Ministry (D.Min.)

American Studies Program (ASP)

Founded in 1976, the American Studies Program has served hundreds of students as a "Washington, D.C. campus." ASP uses Washington as a stimulating educational laboratory where collegians gain hands-on experience with an internship in their chosen field. Participants explore pressing national and international issues in public policy seminars led by ASP faculty and Washington professionals. Students select enrollment in the Public Affairs or Marketplace track. Both tracks examine the same public issues and culminate in field projects assessing those issues in light of biblical principles and Christian responsibility. Students in the Public Affairs Track use policy concepts to evaluate contending approaches, while students in the Marketplace Track analyze the issues by assessing how business and commercial environments shape different perspectives. The aim of the program is to help Council schools prepare their students to live faithfully in contemporary society as followers of Christ. Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Au Sable Institute of Environmental Studies

Students at The Master's College are eligible to take courses in environmental field studies through the Au Sable Institute. This Christian organization offers college-level courses at campuses in Michigan (Great Lakes); Whidbey Island in Puget Sound, Washington; Tangier Island, Virginia; Tamil Nadu, South Africa; and Kenya, Africa during January and in the summer. The four-unit course offerings include Marine Stewardships, Plant Ecology and Aquatic Biology among others. The students register at The Master's College for LS348 Biological Field Studies and take the course at the respective campus. The Institute also offers a Stewardship Ecologist Certificate, Naturalist Certificate and Land Resources Analyst Certificate. Several fellowships and scholarships are available through the Institute. Contact Dr. Dennis Englin, the Au Sable campus representative, about current offerings and registration procedures. Students earn 4 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Australia Studies Centre (ASC)

Since Spring 2004, the CCCU has partnered with the Wesley Institute in Sydney, Australia to offer the Australia Studies Centre. Throughout the semester, students study theology, global justice issues affecting Australia, Indigenous cultures and the arts. Every student is required to take the courses "The View from Australia: Issues in Religion, Politics, Economics & Cultural Values" and "Indigenous History, Cultures & Identity."

Additionally, students choose electives in theology/ministry, music, drawing/ graphic design, dance and/or drama. Home stays, service learning and travel around Australia are important components of the ASC. Students observe Australia's beautiful landscape, live in the cosmopolitan melting pot of Sydney, connect with the poor of Sydney's multi-cultural ghettos, and engage the political capital Canberra and its power players. Students also come to know the traditions of Aboriginal people during an Outback excursion and spend the last week of each semester traveling to New Zealand to meet with Maori people. ASC students earn 16 semester hours of credit.

This program is sponsored by The Master's College & Seminary.

China Studies Program (CSP)

The China Studies Program enables students to engage China's ancient history and intrigue from an insider's perspective. While immersed in Chinese culture, students participate in seminar courses on the historical, cultural, religious, geographic and economic realities of this strategic and populous nation. Students

choose between completing a broad Chinese Studies Concentration or a Business Concentration, which includes an internship at an international business in China. Students also study standard Chinese language and apply their skills by serving in an orphanage or tutoring Chinese students in English. The program begins and finishes the semester in Hong Kong and introduces students to the diversity of China, including Beijing, Shanghai, Xi'an and Xiamen. This interdisciplinary, cross-cultural program enables students to communicate and understand the unique culture and people of China with an informed, Christ-centered perspective. Students earn 16-17 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Contemporary Music Center (CMC)

The Contemporary Music Center provides students with the opportunity to live and work in the refining context of community while seeking to understand how God will have them integrate music, faith and business. The CMC offers three tracks: Artist, Executive and Technical. The Artist Track is tailored to students considering careers as vocalists, musicians, songwriters, recording artists, performers and producers. The Executive Track is designed for business, arts management, marketing, communications and related majors interested in possible careers as artist managers, agents, record company executives, music publishers, concert promoters and entertainment industry entrepreneurs. The Technical Track prepares students for careers in live sound, concert lighting and studio recording. Students within each of the tracks receive instruction, experience and a uniquely Christ-centered perspective on creativity and the marketplace, while working together to create and market a recording of original music. Each track includes coursework, labs, directed study and a practicum. Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Israel Bible EXtension (IBEX)

This 15-week semester abroad program is a high quality educational opportunity in Israel for students who wish to enhance their knowledge of the Bible's historical, archaeological and geographic background. Classroom lectures are integrated with extensive field trips. Together, these expose the student to every corner of the land and to every period of the history of the people of that land. The student's educational experience, as well as his/her personal maturation, will be significantly enhanced by the cross-cultural experience which the semester provides. Students must apply for this program, be in reasonable physical condition and free of medical limitations, and must

have completed Old Testament Survey I prior to participation. For information on IBEX, see the IBEX pages within the Biblical Studies section of this catalog and/or contact the IBEX Office at 1-800-568-6248. *This program is sponsored by The Master's College & Seminary.*

Latin American Studies Program (LASP)

Based in San José, Costa Rica, the Latin American Studies Program introduces students to a wide range of experiences through the study of the language, literature, culture, politics, history, economics, ecology and religion of the region. Through living with local families, students become a part of the day-to-day lives of Latin Americans. Students also take part in a practicum/internship and travel to nearby Central American nations. Students participate in one of four concentrations: Latin American studies (offered both fall and spring terms); advanced language and literature (designed for Spanish majors and offered both fall and spring terms); international business (offered only in fall terms); and environmental science (offered only during spring terms). Depending on their concentration, students travel to nearby Central American nations including Nicaragua, Guatemala, Cuba and Panama. Students in all concentrations earn 16-18 semester credits. *This program is sponsored by The Master's College & Seminary.*

Los Angeles Film Studies Center (LAFSC)

Founded in 1991, the Los Angeles Film Studies Center trains students to serve in various aspects of the film industry with professional skill and Christian integrity. Each semester, students live, learn and work in L.A. The curriculum consists of two required seminars, Hollywood Production Workshop and Theology in Hollywood, focusing on the role of film in culture and the relationship of faith to work in this very influential industry. In addition, students choose one elective course from a variety of offerings in film studies. Internships in various segments of the film industry provide students with hands-on experience. The combination of the internship and seminars allows students to explore the film industry within a Christian context and from a liberal arts perspective. Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Middle East Studies Program (MESP)

Based in Cairo, Egypt, this program offers students a unique opportunity to explore and interact with the complex and strategically important world of the modern Middle East. Students explore diverse religious, social, cultural and political traditions of Middle Eastern peoples through interdisciplinary seminars. They also study the Arabic language and may work as

volunteers with various organizations in Cairo. Through travel in the region (typically Israel, Palestine, Lebanon, Jordan, Syria and Turkey), students are exposed to the diversity and dynamism of the local culture. At a time of tension and change in the Middle East, MESP encourages and equips students to relate to the Muslim, Eastern Christian and Jewish worlds in an informed, constructive and Christ-centered manner. Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Russian Studies Program (RSP)

RSP strives to give students a broad learning experience in the largest nation in the world. RSP students are exposed to the depth and diversity of Russian culture through encounters with the Federation's three largest cities: Moscow, St. Petersburg and Nizhni Novgorod. Students are offered three seminar courses (entitled History and Sociology of Religion in Russia; Russian Peoples, Culture and Literature; and Russia in Transition), and receive instruction in the Russian language, choosing either four or six semester hours of language coursework. For those choosing four hours of Russian, a seminar course, International Relations and Business in Russia, is available. The majority of the semester is spent in Nizhni Novgorod, where students complete intensive language instruction, participate in service learning and live with a Russian family. Additionally, students study in Moscow, the heart of both medieval and modern Russia, and the intriguing city of St. Petersburg, the Russian "window to the West." Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

The Scholars' Semester in Oxford (SSO)

The Scholars' Semester in Oxford is designed for students who want to study intensively and to a high standard. Students develop their academic writing and research skills and explore the disciplines and interests of their choice. As Visiting Students of Oxford University and members of Wycliffe Hall, students study in the oldest university in the English speaking world. SSO students enroll in a primary and secondary tutorial, an integrative seminar (or thesis in the case of second term students), and the British landscape course. Students group their work in a concentration so that all elements of their programme work together. SSO is designed for students interested in classics, English language and literature, theology and the study of religion, philosophy, and history, though all majors may apply. Applicants are generally honors and other very high-achieving students and must have a 3.5 GPA to be considered for the programme. Students earn 17 semester hours of credit for a semester and may complete two semesters of the programme. *This program*

is sponsored by The Master's College & Seminary.

Uganda Studies Program (USP)

The Uganda Studies Program provides students with both immersion in a local community and broad exposure to a variety of people and places in Uganda and Rwanda. Students in the Uganda Studies Emphasis (USE) live on campus at Uganda Christian University (an international affiliate of the CCCU), sharing their lives with university students from Uganda and other parts of Africa. Students in the Intercultural Ministry & Missions Emphasis (IMME) live with host families within walking distance of the university. All USP students take classes from UCU professors and share meals with UCU students. These relationships give students a first hand perspective as they explore issues such as poverty, aid and missions, and as they seek to reconcile the realities of East Africa with their Christian faith. Students also spend time in Rwanda and rural Uganda. In addition to the core experiential course, students will choose from an approved selection of courses from the UCU Honours College to earn up to 16 hours of credit. *This program is sponsored by The Master's College & Seminary.*

Washington Journalism Center (WJC)

The Washington Journalism Center (WJC) is a semester-long study program in Washington, D.C., created for students interested in the field of journalism. While in Washington students take classes focusing on their personal writing skills and on the history and future of the media. These classes—Foundations for Media Involvement; Reporting in Washington; and Washington, News and Public Discourse—combined with an internship at a top news publication help students learn to integrate their faith in a journalism career. Students also participate in service learning opportunities as part of the WJC experience. Students earn 16 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

SUMMER PROGRAMS

Oxford Summer Programme (OSP)

The Oxford Summer Programme (OSP) allows students, as affiliate members of Wycliffe Hall, University of Oxford, to do intensive scholarship in the oldest university in the English speaking world. During the five-week programme, students hone their research and writing skills and delve into the areas that interest them most while exploring the relationship between Christianity and the development of the British Isles. Seminars and tutorials are given on specialized topics under expert Oxford academics in the areas of English language and literature, history, including the

history of art and history of science, philosophy, and theology and the study of religion. The programme is structured for rising college sophomores, juniors, and seniors, graduate and seminary students, non-traditional students, teachers, and those enrolled in continuing education programs. Students earn 6 semester hours of credit. *This program is sponsored by The Master's College & Seminary.*

Reserve Officer Training Corps (ROTC) Program

Air Force ROTC (AFROTC)

AFROTC offers a variety of two-, three- and four-year scholarships, some of which pay the full cost of tuition, books, and fees. Successful completion of as little as four semesters of AFROTC academic classes and leadership laboratories can lead to a commission as a second lieutenant in the United States Air Force. Classes consist of one hour of academics and two hours of laboratory for freshman and sophomores; three hours of academics and two hours of laboratory for juniors and seniors. AFROTC cadets under scholarship and all juniors and seniors receive a monthly tax-free stipend and a textbook allowance. No military commitment is incurred until entering the last two years of the program (Professional Officer Course) or accepting an AFROTC scholarship.

Aerospace Studies classes and Leadership Laboratories are conducted at various times during the week on the campuses of LMU, USC, and UCLA. For more information, contact the Department of Aerospace Studies (AFROTC) at one of the following universities: LMU at (310) 338-2770, USC at (213) 740-2670, or UCLA at (310) 825-1742.

Army ROTC (AROTC)

AROTC is a program that enables students to become officers in the U.S. Army, Army Reserves, or Army National Guard while earning a college degree. The curriculum supplements students' academic majors by offering elective courses ranging from leadership and management to military law. Courses are augmented with leadership laboratories that stress practical skills such as first aid, land navigation, survival techniques, rappelling, military tactics, and scenario-driven leadership reaction courses.

Scholarships are available for two, three, and four years of academic study and are awarded on a competitive basis.

Students may select a branch of the Army in which to be commissioned from 16 specialty fields, including military intelligence, aviation, signal communications, finance, logistics, nursing, and engineering. Prior to completion of the ROTC program, students may

request to go on active duty or serve part-time in the Army Reserves or National Guard. For more information, contact AROTC at (818) 677-7855 or (310) 825-7381.

Dr. Thomas A. Halstead, Chairperson

The Master's College has developed one of the strongest Biblical Studies programs anywhere in the United States. The Department of Biblical Studies stresses the understanding, interpretation, and application of biblical literature. The biblical material is studied in light of its original historical environment so that an authentically biblical understanding can be applied to the theological and cultural issues of the modern age. The department attempts to assist all students in developing a biblical worldview in which the principles and norms derived from the Word of God are applied to the whole of life. Spiritual values are emphasized so that practical spiritual growth is experienced along with academic achievement.

The Department of Biblical Studies provides guidance for the effective preparation for ministries of teachers, missionaries, church leaders, and other ministering personnel. In addition to the intensive, one-year Institute program and the certificate in TESOL described below, there are seven baccalaureate emphases offered. Each of these emphases is designed to prepare students for graduate and professional study of the Word, as well as for support ministries in churches and in other Christian organizations.

CERTIFICATE PROGRAMS:

The Master's Institute Certificate

The Master's Institute is a one-year, intensive Bible training program designed to aid the church in "equipping the saints" by providing students with a solid foundation in the Word of God. The program consists of 30 units of Bible courses and upon completion a certificate in Biblical Studies will be awarded. The required courses for The Master's Institute Certificate are listed below:

B101, 102	Old Testament Survey I,II.....	3,3
B201, 202	New Testament Survey I,II.....	3,3
BTH321, 322	Christian Theology I,II.....	3,3
Bible Electives		12
<i>Total units required for certificate.....</i>		<i>30</i>

See page 135 for additional details about The Master's Institute Certificate program.

TESOL Certificate

The purpose of the TESOL (Teaching English to Speakers of Other Languages) Certificate program is to provide students with the theory, skills, and experience needed to competently instruct adult students in the skills of the English language. This program is designed for students who wish to participate in cross-cultural ministry in the United States or abroad using the recognized profession of teaching English. The required courses for the Certificate in TESOL are listed below:

ESL311	Intro to TESOL.....	3
ESL322	Methodology	3
ESL331, 332	Community Lab	1
ESL351	Language Acquisition	3
ESL492	Practicum.....	3

Women's Ministries Certificate

The Women's Ministries Certificate program is designed to train women for ministry to other women in accordance with the Titus 2 model of older women training younger women. The Christian character of women is foundational to any kind of training and equipping for ministry in the local church, in parachurch ministries or in crosscultural missions. The desire is to train women to serve under the leadership of their pastor and elders in their local church or under the appropriate leadership in other ministries so that they are trusted and valued by those God-ordained leaders in the church or other Christian ministries. Through the Women's Ministries Certificate we seek to train women in the knowledge and understanding of God's Word so that they think biblically and serve out of a strong biblical foundation.

This women's Ministries Certificate is available to all TMC undergraduate women students, whatever major equipping, or for preparation for a specific ministry. This certificate program is also open to women from local churches who will also be taking these classes so there will be new opportunities for TMC college women to interact with older women who love Christ and want to be better equipped for ministry.

The Certificate program consists of 15 units of academic work related to personal Bible study, discipleship, counseling, public speaking, event planning, evangelism/outreach and more. There are plans to add more classes over the next few years. Most or all of these courses can be completed through elective courses. Upon completion of the 15 units, you will receive an official Women's Ministries Certificate presented to you by the TMC Biblical Studies Department.

BACCALAUREATE PROGRAMS:

Each major and/or emphasis is overseen by one or more of the Bible faculty, as listed in parentheses below:

Bible General (*Tom Halstead*)

The Bible General emphasis is specifically designed for those students who want to major in Biblical Studies but are not certain about a specific emphasis, or they would like to take several courses in a number of emphases in order to be more well-rounded generally. While not specifically designed for graduate school, taking certain courses within this emphasis will certainly be helpful in graduate school or seminary.

Bible Exposition (*Steven Boyd, Abner Chou, Dennis Hutchison, Will Varner, & Daniel Wong*)

The Bible Exposition emphasis is a study of the Word of God more specifically, and is designed for those who desire to serve in Christian ministry or for those who plan to go on for graduate work or seminary.

Biblical Counseling (*Ernest Baker, Robert Somerville & John Street*)

This emphasis consists of a study of the principles and aspects of biblical counseling, and is designed to prepare God's people to meet counseling-related needs wherever they exist with the sufficient and superior resources God provides. The course of study trains students to counsel people in the local church. It emphasizes the proper interpretation and specific application of Scripture in ministering to people.

Biblical Languages (*Steven Boyd, Abner Chou & Will Varner*)

The Biblical Languages emphasis consists of three years of Biblical Greek and one year of Hebrew, and is designed primarily for those desiring graduate work, either in seminary or in languages and Bible translation.

Christian Education (*Greg Behle*)

The Christian Education emphasis examines the concepts of Christian education, including youth. It is designed for those students who desire to enter the educational program of the local church, primary junior high, high school, or college. It is also valuable for that student who desires the mission field, Christian school, or the teaching ministry.

Intercultural Studies (*Alexander Granados & Lisa La George*)

This emphasis focuses on understanding cross-cultural ministry, and is specifically designed for those who desire to serve in a full-time cross-cultural capacity. Students will be required to study language, church planting, cultural anthropology, and missionary life while living on the mission field for one summer. Upon their return the student will serve in an ethnic church similar to the culture they desire to minister in.

Theology (*Brian Morley & Paul Thorsell*)

The Theology emphasis is a comprehensive study of theology in which students will not only focus their attention on systematic theology, but also be able to better understand Christianity in relation to other worldviews, religions, and philosophies. It is designed for those students who desire to further their education in seminary, and eventually serve in a pastoral or teaching capacity.

REQUIREMENT FOR BIBLICAL STUDIES MAJORS:

All Biblical Studies majors are required to earn a 2.0 GPA or better in every course in the Biblical Studies major. A student who earns below a 2.0 must repeat the course until a grade of 2.0 or above is earned.

Course Offerings in Biblical Studies

APOLOGETICS

BCW354 The Christian & Politics (3)

A biblical approach to Christian citizenship and activity. Emphasis on general and specific scriptural principles and their application to contemporary issues including an introduction to various viewpoints. *Same as POL354*

BCW363 Apologetics (3)

A survey of the main approaches to apologetics, and examination of evidences for the Christian faith from such fields as science, history, archaeology and philosophy.

BCW364 Ethics (3)

A survey of the main approaches to ethics, issues in personal ethics, such as moral responsibility, decision-making, honesty and conscience; and topics in special ethics such as war, abortion, euthanasia, genetic engineering and church-state relations. *Same as P364.*

BCW400 Christian World View (3)

A study of the application of biblical data to contemporary culture, science and the arts so as to define a Christian world view, integrating liberal arts learning with biblical truth. Beginning with issues of epistemology, the student will be exposed to the relationship between the Bible and natural science, social science and the humanities, concluding with an emphasis upon the apologetic value of the world view to modern life. *Prerequisite: Sophomore status or higher.*

BCW408 Apologetic Systems (3)

A study of major approaches to apologetics, especially presuppositionalism and evidentialism. Comparison of apologists such as Aquinas, Butler, Paley, Van Til, Clark, Camell and Schaeffer.

BCW455 Christian Political Thought (3)

A study of major Catholic and Protestant political ideas from Augustine and Aquinas through the Reformers. Analysis stresses comparison of each with Scripture. *Same as POL455*

BCW498 Apologetics Area Study (2)

A concentrated study in the area of apologetics.

BIBLE EXPOSITION

B101, 102 Old Testament Survey I, II (3, 3)

An introduction to the entire Old Testament, employing both thematic and exegetical methods. Literary structure, historical background, and parallel passages are also utilized to discover the unique and priceless lessons of each book. The Fall semester surveys Genesis through Samuel, and the Spring semester covers Kings through Malachi.

B201, 202 New Testament Survey I, II (3, 3)

An introduction to the books of the New Testament, with special emphasis on the life, teachings, and redemptive work of Christ, the founding and growth of the church, and the teachings of the epistles and Revelation. On the basis of the biblical text, parallel readings, projects and lectures, the events and messages of the New Testament will be portrayed against their historical and cultural setting. The Fall semester surveys the Gospels and Acts, while the Spring semester is devoted to the Epistles and Revelation.

B211 Biblical Fundamentals (1)

This course focuses on presentation of a biblical foundation and framework relating to origins, worldview, regeneration, sanctification, worship, the church and missions. In addition, the presentation of practical study skills, such as research and writing, will enable students to effectively complete their first college assignments. This uniquely designed course integrates new students into alumni, faculty or staff-led mentor groups. Practical guidance for issues related to student success will be provided by these mentors assuring students a positive adjustment to college life.

B306 Genesis (3)

A systematic study of the Book of Beginnings in which problem areas are studied, introductory materials are given, the best English texts are analyzed verse by verse and devotional application is made.

B313 The Gospel of John (3)

An expository treatment of this important Gospel for the purpose of bringing out the great message of the book. Special attention is given to theological and Christological content, along with practical truths.

B314 1 & 2 Corinthians (3)

The sequence of thought as well as the major problems in these books are carefully examined with special emphasis on how the books intersect with our personal and corporate Christian experience.

B335 Revelation (3)

An introduction and detailed study of this book with special attention given to the eschatological significance of its message.

B340 Biblical Interpretation (3)

An analysis of how to study and understand Scripture. Emphasis will be placed on the vital methods used to apply a passage, and the specific rules used to interpret biblical narratives, poetry, parables and prophecy.

B342 Romans (3)

An analysis emphasizing the great soteriological themes, including sin, justification, sanctification, glorification and an investigation of the practical implication of these doctrines.

B346 Life of Christ (3)

A thorough overview of the life of Jesus Christ on earth, with special attention to the developing emphases and distinctive purposes that prevailed during our Lord's public ministry. Theological and chronological difficulties are also considered.

B347 The Epistles of John (3)

A study of the importance of John's epistles in the historical framework of the early church, giving special attention to the polemic nature of the epistles as well as to the practical instructions contained in them.

B350 Principles of Personal Bible Study (3)

BIBLICAL COUNSELING

BC300 Introduction to Biblical Counseling (3)

A general introduction to basic concepts and distinctive features of biblical counseling. Students will discuss what biblical counseling is and what it involves, the role of the counselor in biblical counseling, the different kinds of counseling that are needed, the place of counseling in the ministry of the church, how biblical counseling theory and practice relate to and differ from some of the more common secular models and theories. Part of the course will involve a personal improvement project in which the student will evaluate his/her own counseling qualifications, design a plan for improving some area of his/her life, put that plan into action and then evaluate his/her progress as the course draws to a close.

BC309 Christian Life Issues (3)

This course is designed to help people understand the following: the true nature of the Christian life from its beginning with regeneration to its completion when we enter heaven; the context in which our lives and experiences as Christians take place; the gospel foundation for all Christian obedience; the deceptive character of sin; the manner and ways we are sinned against; the procedure for building a biblical framework for defining and dealing with sin-our own and others'; the biblical function and the purpose of the church; and the manner in which some people who call themselves Christians erroneously view the Christian life.

BC311 Theological Basis of Biblical Counseling (3)

A consideration of the theological realities that form the basis of a proper approach to counseling. Special emphasis is given to the nature of God and of man (fallen and unfallen), a biblical definition of the image of God, the nature of sin, the realities of regeneration and progressive sanctification, the concept of "the flesh" (old man/new man), an understanding of the heart/mind as used in Scripture and the place of the local church in the ministry of counseling.

BC330 Methods of Biblical Change (3)

An overview of the counseling process presenting a comprehensive methodological model for promoting biblical change in people; the goal is to encourage biblical thinking and procedures in the process of helping people. *Prerequisite: BC300.*

BC340 Marriage & Family (3)

Marriage and family problems are present in the majority of counseling cases. This course will give an overview of general marriage and family counseling issues relating to the content and process of counseling. It will then proceed to specifically deal (from a biblical perspective) with the major difficulties that troubled marriages and families experience. Included in the course are discussions of the biblical basis and purposes of marriage, family stages, in-law problems, developing unity, husband/wife roles and responsibilities, correcting communication problems, why conflicts arise and how to resolve them. The fall course will be for Counseling majors only, while the spring course will be for everyone.

BC341 Women Discipling Women (3)

This course provides basic training in developing and maintaining a women's ministry within the local church. Topics include the priority of discipleship, a biblical definition of discipleship and training in the "how to's" of discipleship. *Prerequisite: For women only.*

BC342 Counseling Women (3)

This course outlines the basic concepts and distinctive

features of woman-to-woman biblical counseling. It will focus on Gospel-centered counseling, that is, the process of one Christian woman coming alongside another woman with words of truth from God's Word to encourage, admonish, comfort, and challenge her. These words of truth are grounded in the saving work of Christ, and presented in the context of relationship. The course will present the practical principles of understanding how the Gospel applies to every area of life. Discussion in this course will include a description of the qualifications of the biblical counselors, the roles of the counselor in biblical counseling and the role of counseling in the ministry of the local church. Emphasis will be placed on the theological foundations of biblical counseling and the key aspects of progressive sanctification. In addition, practical suggestions will be given concerning the counseling process which brings broken and hurting people to the love of Christ and His sufficient Word. Case studies will be utilized to enhance learning. The goal is to equip women to fulfill their scriptural mandate to mentor/counsel other women and bring ultimate glory to God.

BC352 Counseling and the Book of Proverbs (3)

This course is an expositional study of Proverbs with special emphasis on its relevance to counseling.

BC362 Biblical Conflict Resolution (2)

This course is designed to help the student think biblically about conflict and how to respond to life's conflicts in a way that glorifies the Lord (1 Cor 10:31). In particular, the student will be taught a model and a plan for how to think about struggles in relationships and evaluate their own typical patterns of response. These principles apply to business and the church, but there will be a special focus on handling marriage difficulties.

BC391 Counseling & the Book of Ecclesiastes (3)

This course is designed to help the counselor to work with individuals who are struggling with materialistic cosmology.

BC406 Theoretical Constructs of Psychology (3)

This course is designed to critically analyze secular and evangelical integrationist theories of psychotherapy. It will probe the anthropological presuppositions of treatment theory and seek to bring a thoroughly biblical critique to their foundational assumptions as well as methodology. Issues like theories of the subconscious, psychoanalytic approaches to personality, establishing norms, psychological testing, making the distinction between the normal and abnormal, major and mood disorders, schizophrenia and multiple personality disorders are among the psychological constructs and their popular theoreticians that will be explored. *Prerequisite: BC300 or BE100 taken at TMC.*

An in-depth study of the doctrines of the Bible, including such issues as revelation, inspiration, inerrancy, preservation, canonicity, and translations/versions.

BTH373, 374 Historical Theology I, II (3, 3)

A study of the historical development of Christian theology throughout the ages, tracing the origin, development and growth of the doctrines of the church.

BTH377 Messianic Theology (3)

This course focuses on the Messianic idea as it developed in both the Old and New Testaments. The first half of the course will concern the “Messianic Promise of the Old Testament.” The course will examine the one promise of a coming deliverer and its various individual promises referred to as the Messianic Prophecies. It will seek to interact with the Jewish interpretation of these prophecies in post-biblical times down to the view of the Messiah in modern Judaism. The second part of the course will deal with the “Messianic Person in the New Testament.” The treatment of this subject will be largely a study of the different titles for Jesus, e.g., Son of God, Son of Man, Lord, Messiah, etc. The course could be described as “Christology from a biblical rather than a systematic theology perspective.”

BTH387 Theology of Paul (3)

An introduction to the theology of the Pauline letters. Methodological issues and the history of Pauline research will be considered briefly before turning to consider the major aspects of Pauline thought. Particular focus will be given to the so-called “New Perspective” on Pauline theology and an appropriate evangelical response to this interpretive scheme.

BTH413 Theological Systems (3)

A study of the nature and methods of systematic theology, along with an examination of six historical theological systems: Roman Catholicism, Reformed Theology, Arminianism, Modernism, Neo-orthodoxy, and Dispensationalism. *Prerequisites: BTH321, BTH322.*

BTH416 Contemporary Theology (3)

A survey of developments leading to the rise of religious liberalism, and a critique of theological positions in the nineteenth and twentieth centuries, including Neo-Orthodoxy, Existentialism and radical theologies.

BTH424 Theology Seminar (3)

This course is designed to introduce the student to the practical utility of an evangelical theological method. Students will focus on contemporary trends and emphases in theology confronting the contemporary Christian church. *Prerequisites: BTH321, BTH322.*

BTH428 Eschatological Interpretations (2)

A study of the Scriptures bearing on the significance and temporal relations of the Rapture, the coming of Christ and the Millennium, with evaluation of the various positions of these events.

BTH438 Roman Catholic Theology (3)

A study of the key elements in the theology of the Roman Catholic Church focusing on theological developments beginning with the Tridentine settlement. Particular attention will be given to the Catholic Church’s response to modernism as seen in Ultramontanism and Vatican Council I, and the mitigation of this antimodernist response leading up to and after Vatican II.

BTH448 Mormonism (3)

An in-depth examination of the history, beliefs and practices of Mormon groups.

BTH498 Theology Area Study (2)

A concentrated study in theology, which may include a particular doctrine or passage.

YOUTH MINISTRY**BYM321 Introduction to Youth Ministry (3)**

Designed to help the students understand the general condition of the youth culture in America. Basic elements of ministry in a church with a youth ministry will be considered, but not limited to, planning, budgeting, conflict resolution, staff relationships and parent relationships.

BYM322 Youth Culture & Conflicts (3)

Current trends, attitudes and sources of conflict within the youth culture of America will be analyzed. Emphasis will be placed on the development of biblical solutions to meet the needs caused by these conditions. Time will

also be spent on understanding and working with parents.

TESOL

ESL303 Introduction to Linguistics (3)

This course is a survey of the linguistic principles of morphology, syntax, semantics, pragmatics, phonetics, phonology and sociolinguistics. Students will develop the basic skills needed for the linguistic analysis of languages.

ESL311 Introduction to TESOL (3)

This course is designed to introduce students to the foundations of Teaching English to Speakers of Other Languages in the United States and abroad. Language learning theory, teaching history and methodology, lesson planning and curriculum evaluation will be explored. Classroom observation and participation with ESL language students and teachers will be included.

ESL322 Methodology (3)

This practical course will give attention to the skills of teaching, speaking, listening, reading, and writing to novice, intermediate, and advanced students. It will include theoretical foundations, activity design and delivery, practice teaching in the learning classroom, ESL classroom observation, and participation with ESL students. *Prerequisite: ESL311.*

ESL330 Community Lab (1)

The community lab is designed to gain exposure to and experience in teaching English to Speakers of Other Languages. Students will be guided to observe ESL teachers and students in a variety of classroom settings as well as provide tutoring assistance for English learners.

ESL343 Cultural Anthropology (3)

This course is an introduction to cultural anthropology to assist students in developing the skills to personally acquire an accurate understanding of various cultures through exposure to field methods of studying, describing, analyzing, and applying culture. Subject matter will be addressed from a biblical worldview to understand and discern the process of culture research and personal communication in another culture. Some of the topics to be addressed will include language, kinship, relationships, daily life patterns, education, and rituals.

ESL351 Language & Language Acquisition (3)

This course will explore the practical and theoretical structures of language. Attention will be given to the first and second language acquisition as they apply to English language teachers.

ESL437 Program & Curriculum Design (2)

This course will study the principles of planning, administering and assessing language programs. The

students will design syllabi and instructional materials. Program observation, analysis, and simulations will be included. *Prerequisite: ESL311.*

ESL492 Practicum (3)

Students will be guided to locate a teaching setting, assess needs, and design materials as needed for the setting. The student will then complete 70-80 hours of ESL classroom teaching within 6-7 weeks with an acceptable degree of success. All ESL required classes must be completed prior to the teaching experience.

Israel Bible EXtension (IBEX)

The Israel Bible EXtension program, called “IBEX,” is The Master’s College (TMC) extension program in Israel. The IBEX program provides a unique laboratory experience, studying the Bible in the Land of the Bible. This semester abroad program consists of 13-16 credits and is crafted to meet select general education requirements. In addition to the semester-abroad program, other short term programs are available (see Cooperative Programs for details). Students must make application to the IBEX program and space is limited. Participants should apply early in their college program, maintain a college GPA of 2.75 or higher, and have completed B100 Old Testament Survey I or a college-level equivalent. Students should consult with their academic advisor regarding feasibility of the IBEX program with their selected major.

Location

Our extension campus is in the Jerusalem vicinity. Facilities include dormitory, cafeteria, library and lecture hall. Wireless access is available at the IBEX campus.

Cost

The price for a semester in Israel (including tuition, full board and field trip expenses) is the same as that of a TMC student living on the California campus. Students are charged for airfare.

Programs

- **Semester Abroad.** The Israel-Bible EXtension program, “IBEX,” is The Master’s College (TMC) extension program in Israel. IBEX is a full semester abroad program, which provides

a quality educational opportunity for students who wish to enhance their knowledge of the geographical, historical, archaeological and cultural understanding of the land of Israel, both ancient and modern. Classroom lectures are integrated with frequent field trips; together, these expose the student to the land and to every period of the history of the people of that land. The student's educational experience, as well as his or her personal maturation, is significantly enhanced by the cross-cultural experience which the semester-abroad program provides.

- **Short-term Programs.** Academic study trips (both undergraduate and graduate level; 3 credits) are offered during the summer months and occasionally between regular semesters.

"The world is a great book, of which they who never stir from home read only a page."

Course Offerings at IBEX

IBEX300 The Land & the Bible (4)

A regionally based geographic study of the land of Israel with an emphasis on the biblical period. Attention is given to the inter-relationship of geography and geology to history and the subsequent development of civilization in the various regions. Regions studied include Judea, Samaria, Dead Sea, Jordan Rift, Galilee, Golan, Jezreel, Negev and the Coastal district. (Required of all semester IBEX participants) (IBEX 300 fulfills B365 requirement)

IBEX304 Historical Geography of the Bible (4)

An advanced seminar on historical aspects of biblical geography. This course examines the historical geography of the land of Israel with attention to regional structure and the development of communication lines. Emphasis is placed on historical aspects of site location including discussions of biblical and epigraphical documentation, archaeological evidences, and toponymy. *Prerequisites: IBEX300 The Land & the Bible and previous IBEX semester experience.*

IBEX310 Regional Studies-Israel (3)

A field-based seminar focusing on historical, geographical, cultural, and archeological aspects of selected regions in the land of Israel designed to supplement those covered in IBEX 300. *Prerequisites: Rigorous hiking, ability to read*

Hebrew place names on topographic maps, and extensive field work mandatory for class participation. Limited Enrollment.

IBEX310 Old Testament Archaeology (3)

A study of the art and science of archaeological research. Attention will be given to primary literary sources, the history and development of archaeology as a discipline, methodology, and present state of archaeology in the land of Israel. Opportunities for site excavation will be afforded the student. Focus of this course will be the Old Testament period.

IBEX 311 Biblical Hebrew (4)

An introduction to grammar, syntax, and vocabulary of Biblical Hebrew. Attention is given to translation and reading skills (IBEX311 parallels BL311 Elementary Hebrew I at The Master's College)

IBEX312 Modern Hebrew (3)

An introduction to modern Hebrew with attention to reading and conversation skills.

IBEX313 New Testament Archaeology (3)

A survey of the archaeological discoveries in Israel from the first century A.D. Attention will be given to the life of Christ and His ministry in Galilee and Jerusalem and corresponding archaeological finds. Studies will include Galilean synagogues, fortresses of Herod the Great, the Dead Sea Scrolls, and the Temple Mount complex in Jerusalem. Opportunity to excavate will be afforded the student as available.

IBEX314 Jerusalem Archaeology (3)

A study of archaeological research and discoveries in the city of Jerusalem, with emphasis on biblical periods. The history of the research and methodology will be studied, with a focus upon the major archaeological discoveries and issues throughout Jerusalem's history. Lectures will be supplemented with field study at important sites and museums. Opportunities for excavation will be afforded the student as available.

IBEX320 Jewish Thought & Culture (3)

A study of Jewish thought, literature, and culture from the ancient to modern period. Social, political, cultural, philosophical, and theological developments and contributions will be considered. *(Course may be used for cross-cultural credit.)*

IBEX330 History of the Modern State of Israel (3)

A thematic study of the major issues concerned with Jewish self-determination and the establishment of the State of Israel. Topics include the rise of Zionism, the British Mandate, the Holocaust and anti-Semitism, socio-political status of the Jewish people in the late-nineteenth

to mid-twentieth century, the 1948 war for independence and the subsequent Arab-Israel conflicts. (*Course may be used for cross-cultural credit.*)

IBEX337 Geographical Area Studies (3)

A field-based seminar on selected sites of historical, geographical, cultural, and archaeological interest in the Mediterranean region and the Middle East proper.

IBEX347 The Holocaust (3)

A historical, philosophical, and thematic examination of the Jewish Holocaust from anti-Semitic developments in the nineteenth century to implications for the Jewish people today.

IBEX357 Biblical Manners & Customs (3)

An examination of the cultural, political, religious, and social factors that shape an understanding of the Biblical narrative.

IBEX367 History of Ancient Israel (3)

A careful study of the history of the people and nation of Israel, from Abraham through the restoration period. Special attention is given to the period of the monarchy. (IBEX367 fulfills B364 requirement for TMC Bible Exposition emphasis.)

IBEX370 Physical Geography of Israel (3)

An examination of the physical geography of the land of Israel with attention to regional structure, geology, and topography with a view to the development of communication lines and settlement. (Academic Short-Term Program Only)

IBEX377 The Life of Christ (3)

An examination of the life of Christ with attention to the historical, cultural, and geographical factors that influenced Christ's earthly ministry. (IBEX377 fulfills B346 requirement for TMC Bible Exposition emphasis)

IBEX447 Dead Sea Scrolls (3)

An introductory survey of the literature and history of the Dead Sea Scrolls.

IBEX457 Jerusalem Studies (3)

A seminar covering historical, archaeological and cultural aspects of the city of Jerusalem, both ancient and modern. Reading in primary sources related to the city, site visits, classroom lecture and student presentations are required.

IBEX467 Historical & Cultural Backgrounds of the N.T. (3)

A seminar covering historical, archaeological and literary aspects of the Second Temple Period (Herodian-New Testament-Roman). Readings in primary sources, site visits, classroom lecture and student presentations are required.

Biological and Physical Sciences

Dr. Joseph W. Francis

The Department of Biological and Physical Sciences spans the disciplines of Biology, Zoology, Botany, Chemistry, and Physical Science. The department seeks to produce in students the ability to carefully analyze any area of knowledge that intersects these diverse disciplines. The department strives to instill in students the desire to be professionally competent, to develop lifelong patterns of intellectual growth and to be uncompromising in their faith. This is accomplished by a consideration of historically tested facts and current perspectives in the various scientific disciplines in addition to the Word of God. The internally consistent outcome of these studies form a basis for the accurate evaluation of science past, present and yet future. The goal of all instruction is to send forth the saints with an understanding of science, so that through their professional, academic and spiritual testimony, the Master is presented and exalted.

Students in the Natural History/Environmental Biology Emphasis Courses can complete certifications as a certified naturalist, certified land resources analyst, certified water resources analyst, or certified environmental analyst in conjunction with The Master's College and the AuSable Institute. Interested students should coordinate their program early in their college years with Dr. Englin.

Career Opportunities

The training students receive at The Master's College in biological and physical sciences helps them prepare for the following careers:

- Biochemist
- Dietitian
- Laboratory Technician
- Dentist
- Physician
- Veterinarian
- Zoologist
- Ecologist
- Marine Biologist
- Pharmacist
- Microbiologist
- Park Ranger

Undergraduate Research Opportunities

Students are encouraged to pursue personalized scholarship opportunities with individual faculty in the department. A particular forte of our institution is the interest and emphasis of our faculty in creation science research. Students may translate such research opportunities into academic credit toward graduation in the form of practicums in in-

dustrial settings and/or scholarly articles presented to academic and professional societies.

Credit-By-Examination

Credit-by-examination in the department will be granted for certain course segments if the student has scored 4 or 5 on the Advanced Placement Program examination of the Educational Testing Service, or a score of 55 or above on the College Level Examination Program test. This applies to granting: Physics examination - 6 hours of PS251, 252 General Physics. (Students must take physics lab each semester; only lecture credit is granted.) Chemistry examination - 4 hours of CH151 General Chemistry. (Biology majors must take CH152 at college level.) Biology examination - 3 hours of LS151 Organismic Biology.

California Single Subject Teaching Credential: Life Science

Students desiring to obtain a California Single Subject Teaching Credential in biology should contact their advisors about specific major requirements for this credential.

Comprehensive Exam

Students graduating with a Bachelor of Science in Biology will be required to take a comprehensive discipline-specific examination in their senior year, prior to graduation.

Course Offerings in Biological and Physical Sciences

BIOLOGICAL SCIENCE

LS140 Principles of Biology (4)

An analysis of the principles of life common to plant and animal study: the cell, intermediary metabolism, photosynthesis, cell reproduction, genetics, ecology and origins. 3 hours lecture, 3 hours laboratory. (Lab fee \$65)

LS151 Organismic Biology (4)

The first course for biology majors, emphasizing biological life forms, their physiology, origins and environmental relationships. 3 hours lecture, 3 hours laboratory. *Co-requisite CH151.* (Lab fee \$65.)

LS200 Foundations of Science (3)

An introduction to the history, development and influence of science on culture and other academic disciplines. The use of science in society and its limits will be emphasized and discussed. The impact of Christianity on science and a Christian view of science will be presented. Contemporary issues including energy development, the creation-evolution debate, the intelligent design movement, environmentalism, and human bioethics, among other topics will be presented and discussed. Sophomore standing suggested.

LS218 Tutorial Studies (1-3)

See LS418.

LS220 Research Methods (1)

An introduction to research writing with emphasis on the documentation and communication methods used in biological research. The student will be exposed to major aspects of scientific writing and presentation of scientific data, including library research, data analysis, evaluation of scientific writing, composition of a scientific paper and a prospective research proposal and presentation of scientific data in a poster format. 1 hour lecture. *Prerequisite: Sophomore standing required.*

LS221 Human Anatomy & Physiology I (4)

A study of the anatomy and physiology of the human integument, skeletal, muscular, and nervous systems. The laboratory consists of the use of some human materials and models, cat dissection, and exercises in human physiology. 3 hours lecture, 2-3 hours laboratory. (Lab fee \$65.)

LS222 Human Anatomy & Physiology II (4)

A study of the anatomy and physiology of the endocrine, digestive, respiratory, circulatory, lymphatic, urinary and reproductive systems. The laboratory consists of the use of some human materials and models, cat dissection and exercises in human physiology. 3 hours lecture, 2-3 hours laboratory. (Lab fee \$65.)

LS252 Cell Biology (4)

The molecular basis for the various structures and physiological functions of prokaryotic and eukaryotic cells. Topics include membrane structure-function, cellular energetics, receptors and cell-cell communication. 3 hours lecture, 3 hours laboratory. Concurrent laboratory registration required. *Prerequisite* CH151, LS151. (Lab fee \$65.)

LS305 Vertebrate Biology (4)

A study of chordate systematics, comparative anatomy and morphogenesis. 3 hours lecture, 3 hours laboratory. *Prerequisite*: LS151. (Lab fee \$65.)

LS306 Developmental Biology (4)

Stages of fertilization and the early developmental patterns of representative animals with an emphasis on the genetic basis of differential gene expression during various stages of development. Laboratory includes microscopic examination of prepared serial slides of embryos at various stages of development. 3 hours lecture and 3 hours lab. Concurrent laboratory registration required. *Prerequisite*: LS253 (Lab fee \$65)

LS312 Animal Physiology (4)

Animal physiological systems and regulatory mechanisms are studied in the context of various types of ecosystems. Consideration is given to regulatory adjustments to seasonal and environmental variations within an ecosystem. Laboratory is a research oriented study of the physiological adjustments of invertebrates and amphibians in seasonal streams.

LS318 Conservation Biology and Sustainability (4)

This is a comprehensive study of ecological legal issues and the stewardship of sustainability of ecological quality of life and diversity. The bulk of the laboratory will be outdoors. 3 hours lecture, 3 hours laboratory and field work. *Prerequisite* LS341. (Lab fee \$65.)

LS332 Population Genetics (4)

Classic Mendelian genetics and non-Mendelian genetics are covered in the context of populations in their natural environment. Genetic variations within populations and their impacts upon acclimatizations are studied in detail. Modern molecular genetics are used in identification of pure lines and population interactions. The laboratory involves the study of *Drosophila melanogaster* populations and identification of allelic frequencies in successive

generations and non-Mendelian interactions.

LS341 Ecology (4)

Organisms in relation to the environmental complex; the composition, dynamics succession and growth of plant and animal communities including field study. 3 hours lecture, 3 hours laboratory. *Prerequisites*: LS140 or LS151 and MA262. (Lab fee \$65.)

LS342 Genetics (4)

Introduction to classical Mendelian genetics and modern molecular genetics. Topics include, but not limited to, fundamental aspects of inheritance, bacterial and viral genetics, chromosomal linkage and mapping in pro- and eukaryotes, DNA structure and gene expression. Laboratory includes studies of transduction, conjugation, transformation, plasmid prep, restriction analysis, cloning, gel electrophoresis among others. 3 hours lecture and 3 hours lab. *Prerequisite*: LS252 (Lab fee \$65)

LS348 Biological Field Studies (3-4)

The topics for this course are usually taken from wildlife biology, conservation biology, freshwater biology and marine biology depending upon demand. It also includes courses taught at the Au Sable Institute of Field Biology. The course may be repeated for credit with different topics. *Prerequisite*: LS341. (Lab fee \$65 if taken for lab credit.)

LS351 Human Form and Function I (4)

First half of a two-part course. Cellular physiology, including cell transport, endocrine physiology with an emphasis on cell-surface receptors and second messenger pathways. Neural physiology and skeletal-muscular physiology are discussed. Laboratory includes microanatomy of these systems and gross anatomy of the skeletal-muscular and nervous systems. Computer simulations of various physiological processes are performed. 3 hours lecture and 3 hours lab. *Prerequisite* LS252 (Lab fee \$65)

LS352 Human Form and Function II (4)

A continuation of LS351. Physiology of the cardiovascular system, respiratory system, renal/acid-base system, gastrointestinal system and reproductive systems. Laboratory includes microanatomy and gross anatomy of organ systems. Computer simulations of physiological processes of these systems are performed. 3 hours lecture and 3 hours lab. *Prerequisite*: LS351. (Lab fee \$65)

LS361 Immunology (4)

Topics include the adaptive and innate immune systems and cell biology of cells and tissues involved in immunity, immunogenetics, antibody structure-function, immunotechniques, complement, autoimmunity, tolerance and tumor immunology. 3 hours lecture, 3 hours laboratory. *Prerequisite*: LS252. (Lab fee \$65.)

LS362 Medical Microbiology (4)

The classification, cultivation, physiology, growth, morphology, genetics and economic significance of microorganisms with special emphasis on the pathogenic bacteria. 3 hours lecture, 3 hours laboratory. *Prerequisite:* LS140 or equivalent. (Lab fee \$65.)

LS372 Origins (3)

An introduction to the classical and modern concept of evolution with critical discussion of proposed mechanisms involved and with evaluation of special creation and other alternative origins positions. *Prerequisite:* LS252. Does not fulfill general education laboratory science requirement.

LS388 Special Topics in Plant Sciences (2-4)

Basic principles, processes, and theories of the topic being presented. Possible topics include medicinal plant biology, economic botany, herbaceous plants or specific taxonomic plant groups. Instruction is by lecture, laboratory, class project or combination. This course may be repeated for credit with varying topics. *Prerequisite:* Junior standing

LS418 Tutorial Studies (1)

This course will consist of topics not included in the regular curriculum. This course may be based upon independent studies, conferences and the preparation of a term paper. The topic of the course will be announced prior to the term in which it is to be offered. *Prerequisite:* permission of the instructor. Offered upon demand. May be repeated for credit with varying topics. (Lab fee possible.)

LS420 Senior Seminar in Biology (1) Exposes students to current original research literature in two general areas: biochemistry, cell biology, molecular biology, evolution, wildlife biology. The content of a scientific paper from each of the two aforementioned areas are presented to an audience of peers using student prepared audio visual presentations. This course serves to introduce and illustrate the methodology for review of the biological literature for the purpose of formal presentation. *Prerequisite:* Senior standing

LS422 Senior Capstone (1)

Review of major concepts foundational to the life sciences in preparation for the major field exam.

LS428 Research in Biology (3-4)

Library and laboratory study on various topics in contemporary biology to be selected. Report required. (Lab fee possible.)

LS464 Molecular Biology (3)

Focuses on the metabolism of DNA, regulation of gene expression, structure and replication of DNA, and the expression of genes in prokaryotes and eukaryotes. Epigenetic factors involved in gene regulation and theory underlying the popular techniques in studying

gene regulation and expression are discussed. *Prerequisite:* LS342 Genetics

CHEMISTRY**CH151 General Chemistry I (4)**

A course covering fundamental chemical principles and theories. Topics include properties and states of matter, development of atomic theory, atomic structure and periodicity, chemical bonding, stoichiometry, inorganic nomenclature and chemical reactions. 3 hours lecture, 3 hours laboratory. (Lab fee \$65.)

CH152 General Chemistry II (4)

A continuation of CH151: an introduction to solution equilibria, electrochemistry, kinetics, chemical thermodynamics, organic chemistry, nuclear chemistry and environmental chemical applications. 3 hours lecture, 3 hours laboratory. *Prerequisite:* CH151 or its equivalent with a grade of C or better. (Lab fee \$65.)

CH351 Organic Chemistry I (4)

Introduction to the chemistry of carbon-containing compounds. Particular emphasis is given to Lewis acid-base theory and structure-reactivity relationships as predictive tools. The chemistry of aliphatic hydrocarbons, stereochemistry, alkenes, alkynes, spectroscopy, radicals, alcohols and ethers is discussed. 3 hours lecture, 3 hours laboratory. *Prerequisites include* CH152 or its equivalent with a C or better. (Lab fee \$65.)

CH352 Organic Chemistry II (4)

A continuation of CH351: conjugated systems, aromatic compounds and their reactions, synthesis and reactions of carbonyl compounds, including carboxylic acids, esters, amides, beta-dicarbonyl compounds, phenols, and amines. The philosophy of organic synthesis and a brief introduction to natural products and biochemistry are included. 3 hours lecture, 3 hours laboratory. *Prerequisite:* CH351 or its equivalent with a grade of C or better. (Lab fee \$65.)

CH461 Biochemistry (4)

Proteins, structures and functions, and enzymes, kinetics and regulation, as well as biological oxidation-reduction, thermodynamics of living systems and a focus on intermediary metabolism and its integration and regulation. Laboratory includes application of the theory underlying many common biochemical techniques, including chromatography, enzyme assaying, binding specificity of proteins, enzyme kinetics, protein fingerprinting among others. 3 hours lecture and 3 hours lab. Concurrent laboratory registration required. *Prerequisite:* CH352 (Lab fee \$65)

PHYSICAL SCIENCE**PS222 Earth Science for Elementary Teachers (2)**

A general survey of the Earth as a planet in the Solar System, its interior and a study of its crust and atmosphere. This course is designed to meet the requirements of liberal studies students seeking a teaching credential. 2 hours lecture. *Prerequisite: approval of instructor or teacher education department*

PS231 Physical Science for Elementary Teachers (2)

A survey of topics from the physical sciences including areas of study relating to modern problems and advances in science and technology. This course is designed to meet the requirements of liberal studies students seeking a teaching credential. 2 hours lecture. *Prerequisite: approval of instructor or teacher education department.*

PS242 Earth Science (4)

A survey of the Earth as a planet in the Solar System, its interior and a detailed study of its crust and atmosphere to serve as a broad-based course for liberal studies majors. Fulfills the general education laboratory science requirement. 3 hours lecture, 3 hours laboratory. (Lab fee \$65.)

PS251 General Physics I (4)

A calculus-based introduction to classical physics including Newton's laws of motion, work, energy, power, conservation laws and classical waves. 3 hours lecture, 3 hours laboratory. *Prerequisite: MA121 (may be taken concurrently).* (Lab fee \$65.)

PS252 General Physics II (4)

A continuation of PS251. Topics include electricity, magnetism and optics. 3 hours lecture, 3 hours laboratory. *Prerequisite: MA121.* (Lab fee \$65.)

PS261 Physical Science (4)

A treatment of topics from the physical sciences to serve as a broad-based course for liberal studies majors. Course will cover a broad area of study relating to modern problems and advances in science and technology. 3 hours lecture, 3 hours laboratory. Fulfills the general education laboratory science requirement. (Lab fee \$65.)

PS338 Astronomy (4)

Methods of measurement and observation in astronomy are studied from a historical perspective. The solar, stellar and galactic systems are studied in detail accompanied by observations. Various cosmological viewpoints and their underlying assumptions are presented. 3 hours lecture, 3 hours laboratory. (Lab fee \$65)

Dr. R.W. Mackey, II, Chairperson

Business administration is a profession practiced by managers who solve problems and make decisions in the process of leading and guiding an organizational unit in its efforts to achieve some inherent goal or objective. Organizational activities are measured for their effectiveness (the degree to which organizational goals are accomplished) and for their efficiency (the cost in resources used to achieve these goals).

In the Business Department, studies develop from a common viewpoint that all truth is of God. Therefore, as led by the Spirit, the student will search for truth to be applied with wisdom to the glory and honor of God.

Every business student completes the basic core of business courses, then takes additional courses in at least one of the seven Business emphases (1) Accounting, (2) Christian Ministries Administration, (3) Finance, (4) Management, (5) Management Information Systems, (6) Pre-law, (7) Public Relations.

Objectives

Students with a major in Business Administration will study the fundamentals of management theory together with the “tools” used by modern

management practitioners; will explore modern theories, concepts, and principles of management and administration; will apply the lessons learned to contemporary management situations; and will be encouraged to develop an appetite for contemporary literature in the dynamic field of business administration.

Accounting

Students with a program emphasis in accounting will study basic accounting theories and principles as recognized and practiced by the accounting profession. Graduates may enter public accounting (CPA) or management accounting (CMA) careers.

Christian Ministries Administration

This emphasis is designed for those who specifically desire to minister in an administrative capacity

in a local church or other Christian organization. This emphasis helps prepare students for careers as a Pastor, Christian school or Christian college Administrator, Church Administrator or Missions Director.

Finance

This emphasis is designed for those students preparing for a career in banking, investments or corporate finance.

International Business

Students pursuing international business will prepare to enter a business career within an international environment (either domestically or abroad) with dual purposes of missional living and wealth generation.

Management

Students pursuing this emphasis will study the functions that managers perform as well as the conceptual framework of organizations working to achieve common goals and objectives. Graduates may enter career paths in general management or, with further graduate studies, enter one of the specialized management fields.

Management Information Systems

Students pursuing this program emphasis will undertake studies to develop a competency in the application of computer technology to the problem-solving and information-handling activities necessary for the effective, efficient conduct of business activities.

Pre-Law

Students preparing for a legal career may choose a curriculum which emphasizes law and business before entering law school. This emphasis affords an excellent foundation for business law practices.

Public Relations

Students who choose this emphasis will study a combination of business and communication disciplines which will prepare them to influence the opinions and choices of people within a free market.

Dr. Jack H. Simons, Chairperson

The basic elements of Christianity—evangelization (leading people to saving faith in Jesus Christ) and edification (disciplining believers to maturity)—require effective communication skills. The Department of Communication, therefore, seeks to identify and develop the spiritual gifts of students relating to communication arts and sciences.

Courses in the Department of Communication emphasize the theory and practice of speech communication, print media and electronic media. Students majoring in Communication lay a foundation for careers in teaching, law, advertising, professional writing and broadcasting, missions and church-related ministries. They also develop a Christian world-view based on the history, impact and functions of human communication.

Students desiring a major in Communication may choose from three available emphases: Speech Communication, Print Media or Electronic Media. They must take a minimum of 39 units, 15 of which are specific required courses.

Electronic Media

Practical courses provide fundamental and advanced training for students who wish to seek their life work in this demanding area. Possible careers include producer, director, multi-media manager, announcer, news reporter and script writer.

Print Media

This program helps students develop writing skills and prepares them for a variety of careers, such as journalist, editor, foreign correspondent, columnist, author, layout artist and editorial writer.

Speech Communication

Courses in this emphasis develop the student's ability to think, write and speak clearly and effectively. Communication skills at both the interpersonal and public levels are stressed with the view of developing critical thinking skills and problem-solving strategies. This area of concentration helps prepare students for such careers as speech teacher, manager, sales person, public relations practitioner, law and customer service.

C381 Beginning Public Relations (3)

Theories, processes, and techniques involved in planning and implementing programs designed to influence public opinion and behavior. *Requirements: On campus internship of 6-10 hours a week.*

C382 Persuasion (3)

Theories and techniques of social influence. Course content includes motivation, attitude change, ethics, credibility, nonverbal persuasion, logic and argumentation, emotions and cultural influences.

C383 Family Communication (3)

A survey of communication that occurs within the family, with emphasis on rules, change, development, power, stress and decision-making. Attention will be given to how families seek satisfaction through communication.

C384 Nonverbal Communication (3)

Examination of the influence of environmental factors, physical behavior and vocal cues on human communication.

C388 Communication & Social Movements (3)

Social and political movements as rhetorical phenomena. Ideology and influence of recent movements will be analyzed.

C391 Intercultural Communication (3)

Analysis of theories and techniques of the process of communication between persons of different cultures or subcultures.

C392 Advanced Public Relations (3)

Advanced theories, processes and techniques involved in planning and implementing programs designed to influence public opinion and behavior. *Requirements: Off campus internship of 10 hours a week. Prerequisite: C381.*

C394 - Intro to Computer Visual Effects (VFX) (3)

Introduces students to basic concepts for producing visual effects using computers. Topics such as: HDRI, rotoscoping, green screen compositing and explosions are just a few methods demonstrated during the class. These effects apply to film, video, animation, graphics and photography. *Prerequisite: Junior or Senior status.* (Fee: \$50.)

C401 Directing I (3)

Concentration on the principles and aptitudes of planning and picturization of script material, culminating in the production and editing of various projects. (Fee: \$50.)

C402 Directing II (3)

An advanced course in directing and producing from program conceptualization to evaluation. *Prerequisite: C321, C401.* (Fee: \$50.)

C404 Graphic Design II (3)

This class builds upon the previous classroom experience from Graphic Design I and covers new concepts for the production of books, magazines, and newspapers. *Prerequisite: Graphic Design I*

C408 Portfolio (3)

This class is a production class where the students use the culmination of their skills to build a professional portfolio and work on community projects as a team.

C418 Art of the Comedy (3)

An examination of the comedic genre and its evolution from the slapstick of the silent screen to the sophisticated subtlety of forms of the present. Screenings of many classic comedy films in part or in their entirety.

C428 Motion Graphics (3)

Study of the Aftereffects computer software. (Fee: \$50.)

C422 3D Production (3)

Students will be involved in the production of real-world assignments to support The Master's College. This would include advertisements, promotional material, logo development, animated promos, print advertising, and 3D web animations. Students may also work on projects

from a professional client list as they become available. The students will use a variety of software programs which include: 3D animation, modeling, texturing, lighting effects as well as audio, compositing, filming, and editing.

C426 Introduction to Computer Graphics-Photoshop (3)

The course teaches the fundamentals of Computer Graphics using Adobe Photoshop. Students learn to edit photographs, generate digital paintings, color correct images, and design layouts for web development. Used as the primary application in the graphics, web, and film industry, Photoshop has become the program that all up-and-coming digital artists and photographers need to learn. (Fee: \$50.)

C428 Motion Graphics (3)

This class introduces students to the production of animated logos, show titles, home video, creative and technical. We offer the industry standard applications of Adobe™After Effects™ and Apple™Motion™. Students learn to use animated text presets, particles, simple compositing methods and sound effects to build a complete video.

C430a,b Honors Internship (1-6)

Students find placement in communication related departments or firms (film studios, television stations, radio stations, newspapers, advertising companies, public relations firms). 15 hours per week for 3 units. A comprehensive final report completes coursework. *Prerequisite: senior standing and B average or higher in communication courses. Must get permission from an instructor in the department to enroll.*

C436 Christianity and Film (3)

Examine in class 15 films of a wide variety. Each will be analyzed with the purpose of discovering the method by which Christians should examine every film with which they come in contact. Films with a purported religious or even Christian message need to be examined every bit as thoroughly as the most secular of films. Satan seeks to fool the Christian not with lies for they are easy to discern, but instead with partial truths. It is the goal of this course to teach students how to filter everything they see and hear through a biblical grid.

C441 Poetry Writing (3)

An examination of the various poetry rhymes, meters and additional tools of the poet. Various poetry patterns explained and illustrated with the goal of helping students become published. (Fee: \$20.)

C459 Novel Writing (1-3)*

Students learn the techniques of novel writing.

** This class is only available as a Directed Studies course.*

C461 Journalism (3)

Techniques of obtaining, evaluating and reporting the news, with special reference to press ethics and press laws. (Fee: \$20.)

C467 Advanced 3D Graphics & Animation- Maya (3)

This course continues the study of 3D graphics and animation begun in C367. *Prerequisite: C367.* (Fee: \$50.)

C468 Promotional & Advertising Writing (3)

An examination of all forms of promotional writing, looking at various components that give it excellence.

C471 Writing for Publication (3)

This course covers all facets of publication, from the conception of a book project to shaping its purpose and scope, and determining its audience. The course requirements involve a daily "To Do" list with tips and assignments which will help the student stay focused and on track toward writing at least 40 pages of a book, as well as a fully developed proposal which will be ready to submit to the publisher(s) of the student's choice. The course includes such a practical topics as reaching acquisition editors, understanding the role of an agent, understanding contracts, working with an editor, and marketing your. It also explores alternative methods of publication, such as print in demand. This class is an upper division course, and students must have demonstrated an ability to write.

C472 Rhetorical Criticism (3)

Theories and methods of evaluating persuasive communication including public address, contemporary drama and other categories of written discourse.

C478 Classical to Contemporary Rhetoric Theory (3)

A survey of major theories of rhetoric from the 5th century B.C. to the present.

C480 Digital Photography (3)

From handheld to professional SLR cameras, students will learn the basics of equipment and advanced methods to make your photographs look more professional. This class will cover how to connect, download, and upload your digital images to CDs, the web, or for print. Everything from file management to composition, this class covers a wide range of techniques to make you a better, more effective photographer. (Fee: \$50.)

C481 Argumentation & Debate (3)

Theories of argumentation including the analysis of propositions, issues, evidence and reasoning. Training and experience in debate forms.

C484 Organizational Communication (3)

Communicative behavior in organizations. Attention will be given to change, conflict reduction, decision-making, leadership and networks as communication variables.

C488 Rhetoric of Religion (3)

Religious advocacy and persuasion. Topics include the strategic use of language and symbolism in religious discourse, forms of religious persuasion, conversion argument and the psychology of the audience and discussions of the problem of evil.

C498 Communication Theories (3)

A survey of the basic theories associated with human communication. Provides students with a practical understanding of how the major variables of communication systems interact and how information is processed by individuals.

C499 Directed Studies in Communication (1-3)

Individual research and readings in an area of communication determined in consultation with the instructor.

Computer and Information Sciences

Dr. John S. Eickmeyer, Chairperson

Computers are no longer huge machines hidden away in protected rooms and accessible to only a few highly-trained individuals. Instead, they are now used in almost every business, are on almost every desk, and have moved into every conceivable area of our lives. Understanding computers, their uses, and the concepts that underlie their construction are now part of a well-rounded education.

The goal of The Master's College Computer & Information Sciences (CIS) Department is to prepare students to excel in an increasingly complex technical world while living lives that glorify God. CIS majors study computers both in theory and in practice, covering topics in software, hardware, networks, databases, the Web and more. They also learn about the impact computers are having on the world, and ways they can be used to further God's kingdom.

Emphases

The Master's College Department of Computer & Information Sciences offers degrees in two emphases: Computer Science (CS) and Information Systems (IS). Every CIS student completes the core CIS courses, then takes additional courses in his or her selected emphasis.

A CIS degree helps prepare students for any of a number of careers, including computer programming, web design, network administration, systems analysis, data processing management or teaching.

Computer Science

The emphasis in Computer Science is designed to give students a practical introduction to the world of computers. It focuses on the technical side of computing, presenting basic theoretical material while maintaining a practical focus. Graduates may pursue advanced degrees in Computer Science or seek work in a variety of technical positions.

Information Systems

The emphasis in Information Systems approaches computers from a more business-oriented perspective. It emphasizes business processes and how computers can be used to improve them. Analysis and design are stressed, along with an appropriate knowledge of business principles. Graduates will be prepared to

pursue careers in the field of business information systems, one of the largest and fastest growing specialties in the world.

Credit by Examination

Students may receive credit by examination as follows:

- Credit may be granted for Calculus I (MA121), Calculus II (MA122) or Introduction to Computer Programming (CS111).
- Credit may be granted if the student submits proof of earned test scores of 3 or above on the appropriate AB/BC Advanced Placement tests of the College Board.
- The department reserves the right to interview and/or retest students before granting credit by examination.

Comprehensive Exam

Students graduating with a degree in Computer Science or Information Systems may be required to take a comprehensive discipline-specific examination during their senior year, prior to graduation.

Department Requirements

All CIS majors are required to earn a grade of C or better in all courses in the CIS major. A student earning a grade below C must repeat the course until a grade of C or above is earned.

The following courses are required for all CIS majors:

CS111	Intro. to Computer Programming & Lab....	4
CS122	Web Design & Programming	3
CS211	Data Structures & Lab.....	4
CS212	Computer Hardware	3

Course Offerings in Computer and Information Sciences

COMPUTER SCIENCE

CS100 Computer Fundamentals (3)

This course introduces students to computers and general computer applications. It is required of all students who do not earn a passing score on the Computer Literacy exam. The course covers: computer components and how they interact; proper PC operation; applications often used by both business and personal users; the impact of computers on society and careers; functions and limitations of computers; evaluating software; and a biblical perspective on issues in computing. It also includes hands-on training using computers with a variety of widely-used applications. (Fee: \$25.)

CS111 Introduction to Computer Programming (3)

This course introduces students to computer organization, programming, and algorithm development. The course covers data representation, storage, problem solving, and programming techniques and principles using the Java programming language. *Co-requisite: CS111L.*

CS111L Computer Programming Lab (1)

This lab course provides hands-on assistance and instruction in the programming work required by CS111. *This course is a co-requisite to CS111. (Fee: \$30.)*

CS122 Web Design & Programming (3)

This course introduces students to the World-Wide Web from a programmer's perspective. The course will teach students to design and implement web pages using tools such as Extensible HyperText Markup Language (XHTML), Cascading Style Sheets (CSS), JavaScript, Dynamic HTML (DHTML), and Extensible Markup Language (XML). *Prerequisite: CS111 or instructor's approval. (Fee: \$30.)*

CS211 Data Structures (3)

This course continues development of students' programming abilities, covering algorithmic analysis, internal search and sort methodology, and a number of commonly used data structures using the Java programming language. *Prerequisite: CS111. Co-requisite: CS211L.*

CS211L Data Structures Lab (1)

This lab course provides hands-on assistance and instruction in the programming work required by CS211. *This course is a co-requisite to CS211. (Fee: \$30.)*

CS212 Computer Hardware (3)

Presents computer hardware concepts, including components, their structures, and their interfaces. Integral to this class is the tight cohesion of theory (lecture) and practice (hands-on labs). Labs will cover microcomputer components, construction, problem diagnosis and resolution, maintenance, and upgrades. (Lab fee: \$40.)

CS301 Computer Application Development (3)

This course teaches computer application design and development. Students will develop a multi-tiered web-based application using current technologies, such as XHTML/CSS/JavaScript/Ajax (client), PHP (server), and SQL (database). *Prerequisite: CS122.*

CS302 Software Development (3)

This course is an introduction to the concepts and practices of software development. Topics include iterative development, gathering requirements, project planning, user stories and tasks, design, testing and continuous integration, test-driven development, debugging, and software processes. *Prerequisite: CS301*

CS308 Advanced Java Programming (3)

This course provides advanced training in the Java programming language. Topics will include applications & applets, object-oriented programming features, GUI

(graphical user interface) components using Swing, exception handling, multithreading, files & streams, multimedia capabilities, database connectivity (JDBC), client/server programming, servlets, and JavaServer Pages (JSP). *Prerequisite: CS122, CS211, and CS301; or instructor's approval.*

CS311 Computer Organization & Architecture (3)

This course introduces computer hardware organization, design, structure, and relationships. Mechanics of digital computer information storage, transfer, and control are addressed. Also explored are: fundamentals of logic design, computer arithmetic, addressing, instruction sets and assembler languages, and memory organization. *Prerequisite: CS211.*

CS318 C/C++ Programming (3)

An introduction to the C/C++ programming languages, which are the backbone of many technical and business programming environments. The course will cover procedural language topics, C/C++ syntax, standard function and class libraries, structures and classes in C++, file processing, exception handling, pointers and memory management, etc. *Prerequisite: CS122.*

CS321 Operating Systems (3)

An introductory study of the organization and architecture of computer operating systems. Major principles are discussed, including purposes, functions, interfaces, and structures. Case studies involving actual operating systems are presented. Covers preparation for Microsoft's Operating System examination. *Prerequisite: CS111.*

CS322 Networking Principles & Architecture (3)

This course introduces computer networks. It includes concepts and methods of computer communications, hardware and software components, configurations, and standard layers of communication protocols. *Prerequisite: CS321.*

CS332 Programming Languages & Systems (3)

Introduces programming language organization and structure. The course covers program run-time behavior and requirements; compiler and interpreter functions, and basic programming language analysis, design, and specification. It also introduces several programming language alternatives as examples. *Prerequisite: CS211.*

CS338 File & Database Structures (3)

An introduction to the concepts of information organization, methods of representing information both internally and externally. The course begins with a review of basic structures (stacks, queues, linked lists and trees) and moves through more complex data structures into the processing of files (sequential, relative, indexed sequential

and others). Projects are completed in one or more high-level languages. *Prerequisite: CS111.*

CS347 Windows Programming (3)

Programming for a MS Windows environment using Visual Studio.NET and Microsoft's Framework Class Library (FCL). This class covers topics in graphical user interface (GUI) program development, including windows, menus, mouse processing, dialogs, controls, threads, files, databases, and more. *Prerequisite: CS122.*

CS348 Assembly Language Programming (3)

Teaches programming in assembly language, including its relationship to computer architecture, macros, segmentation, memory management, linkages, etc. *Prerequisite: CS111.*

CS358 Computer Graphics Programming (3)

This course introduces programming in the specialized area of interactive computer graphics. Topics will include 3D geometric transformations, the various representation models and storage methods for 3D objects, and the techniques and models for realistic rendering. Students will apply these techniques to create an interactive computer graphics application using OpenGL. *Prerequisite: CS211, MA121.*

CS402 Computer Algorithms (3)

This course introduces students to the analysis of algorithms and to algorithm design techniques, including brute-force, divide/decrease/transform-and-conquer, space and time tradeoffs, dynamic programming, greedy algorithms, backtracking, branch-and-bound, and approximation algorithms. It includes computational complexity analysis, and covers a variety of applications from classic algorithms to games and puzzles. *Prerequisite: CS211 and MA122.*

CS418 Software Engineering (3)

This course is an introduction to the concepts and practices of software engineering. Topics include the software development lifecycle: software specification, design, development, verification, validation, and management. We will also discuss tools and methods used in developing quality software.

CS420 Seminar in Computer Science (1)

A lecture/discussion course reviewing recent computer science topics and literature from journals available to advanced undergraduate students. *Prerequisite: instructor's approval.*

CS425 Advanced Networks, Security, & Cryptography (3)

This course covers advanced network and security topics,

including TCP/IP security, firewalls, packet filtering, intrusion detection, virtual private networks, Internet Protocol Security (IPSec), encryption algorithms and techniques, private and public key encryption, password authentication, message integrity, digital signatures, administrative security policies, and other security issues involving Linux, Unix and Microsoft Windows operating systems. *Instructor permission required.*

CS448 Game Programming (3)

This course covers methodology and techniques for writing interactive computer games and similar applications. *Prerequisite: CS358.*

CS458 Applied Software Project (1-3)

Students complete an independent project, integrating knowledge gained from other courses in the development of a significant software system. The application is of the students' choice subject to advisor approval. *Prerequisite: instructor's approval.*

CS468 Decision Support and Expert Systems (3)

Provides an overview of operations research and quantitative techniques in supporting decision-making, including systems that attempt to model human planning processes. Topics include linear programming, queuing, simulation, modeling, forecasting, network analysis, dynamic programming, scheduling and control. *Prerequisites: CS211, CS402.*

CS478 Computer Science Internship (1-4)

Provides an applied learning experience in a supervised work environment. May include work in systems analysis and design, programming, network administration, etc. *Prerequisites: junior or senior standing and instructor's approval.*

CS488 Independent Research (1-3)

Independent advanced study of specialized topics with faculty advisor. *Prerequisite: instructor's approval.*

CS492 Computer Science Senior Seminar (3)

This senior seminar course is designed to integrate the field of Computer Science into a Biblical world view, including the ethical issues relating to the field. It also provides students the opportunity to demonstrate their proficiency and knowledge through a set of research and writing assignments and a standardized Major Field Test. *Prerequisite: senior standing.*

CS498 Topics in Computer Science (1-3)

A study of relevant computer science topics. May be repeated for credit if content is different. Topics may include: Systems Programming (e.g. design and construction of programming language translators, compilers, and interpreters), Operating System Internals, or Advanced

Computer Graphics (such as interactive graphics, screen displays, graphical techniques and software).

MANAGEMENT INFORMATION SYSTEMS

MIS312 Linux & Unix (3)

This course focuses on Linux/Unix workstations and servers in a integrated computing environment. Students will configure, use, and administer personal workstations, file servers, DNS servers, web servers, DHCP servers, mail servers, print servers, Samba servers, and similar systems. System administration topics include user accounts and groups, permissions, files systems, the boot process, the OS kernel, TCP/IP network configuration, swap space, XWindows, kernel configuration, and related topics.

MIS320 IS Applications (3)

This course teaches computer applications that are accepted as standard in the business world. Emphasis is placed on the practical implementation of end user software in a business environment. The use of spreadsheet and database programs to support business processes will be studied in depth. Excel and Access will be used in this class. *Prerequisite: CS100.*

MIS328 COBOL Programming (3)

This course provides training in COBOL (Common Business Oriented Language); the most widely used programming language in the business world. *Prerequisite: CS111.*

MIS338 Data & File Processing (3)

An introduction to the concepts of information organization, methods of representing information both internally and externally. The course begins with a review of basic structures (stacks, queues, linked lists and trees) and moves through more complex data structures into the processing of files (sequential, relative, indexed sequential and others). Projects are completed in one or more high-level languages. *Prerequisite: CS111.*

MIS348 Assembly Language Programming (3)

Teaches programming in assembly language, including its relationship to computer architecture, macros, segmentation, memory management, linkages, etc. *Prerequisite: CS111.*

MIS358 Introduction to Web Graphics (3)

Introduces computer graphics from a designer's perspective, as well as software tools for manipulating them. Web graphics are covered in detail, including appropriate processes and methods.

MIS368 Introduction to 3D Graphics & Animation (3)

This course introduces students to the world of three-dimensional (3D) computer graphics and animation. The

software package that is used in the class is Maya, the most widely used 3D content creation and animation software. Topics include curves and polygons, surfaces, lights, cameras, rendering, effects, and more.

MIS411 Systems Analysis & Design (3)

Introduces the concepts of the systems development life cycle. Analyzes various examples, such as traditional, CASE, prototyping, and RAD. Discusses file and database structures and processing practices. Presents techniques and tools for system specifications and documentation. *Prerequisite: CS111.* May be taken concurrently with CS301, but not before.

MIS432 Database Management Systems (3)

Design, implementation, and management of business database systems. Includes data analysis, design, and normalization. *Prerequisites: CS301.*

MIS438 Advanced Database Application Development (3)

This course examines advanced concepts used to develop information systems. Topics include advanced database programming, embedded database commands in high-level languages, and expert system designed user interface concepts. Pertinent current topics used in information system development are also included. *Prerequisite: MIS432.*

MIS441 Web Site Administration (3)

Students will learn to install, maintain, and administer a web site. Integral to this class is the tight cohesion of theory (lecture) and praxis (hands-on labs). Each student will be responsible for and complete weekly applied projects agreed upon with the Instructor. Subject matter will include TCP/IP; security; intranets; designing, implementing, and administering databases; search services; firewalls and proxy servers; etc. *Prerequisite: CS301.*

MIS468 Advanced 3D Graphics and Animation (3)

This course continues the study of 3D graphics and animation begun in MIS368. *Prerequisite: MIS368.*

MIS478 IS Internship (1-4)

Provides an applied learning experience in a supervised work environment. May include work in systems analysis and design, programming, network administration, etc. *Prerequisites: junior or senior standing and instructor's permission.*

MIS488 Independent Research (1-3)

Independent advanced study of specialized topics with faculty advisor. *Prerequisite: instructor's approval.*

MIS492 IS Senior Seminar (3)

This senior seminar course is designed to integrate the

field of Information Technology into a Biblical world view, including the ethical issues relating to the field. It also provides students the opportunity to demonstrate their proficiency and knowledge through a project and a set of research and writing assignments. *Prerequisite: senior standing.*

MIS498 Advanced Topics in Information Systems (1-3)

A study of relevant information systems topics. May be repeated for credit if content is different. *Prerequisite: instructor's approval.*

Prof. Esther Joy T. Chua, Chairperson

Department Distinctives

The Department of English at The Master's College regards the study of language and literature as central to a Christian liberal arts education. It merits this centrality, in part, because of the very nature of the Christian faith: God chose to reveal His dealings with humans in a historical and literary way—the Word of God, a Word which employs literary forms and rhetorical strategies to engage its audience. It also merits a central position because literature contains traces of God's truth (e.g., truthfulness to the human experience), occupies a place in human culture receiving God's blessing, and often fulfills the qualifications of Philippians 4:8. We affirm that the noblest reasons for acquiring literacy are to read the Scriptures with understanding and sympathy; to articulate the truth of God clearly, attractively, and convincingly; and to be equipped to recognize truth expressed in many sources, discerning it from partial truth and error, testing all by the biblical standard.

Through the study of poetry, drama, fiction, essays, and critical theory, students in the English major can

- Begin to understand how God has unfolded history, as they explore literature that both illuminates the past and becomes itself part of the historical record.
- Acquire critical reading and thinking skills that enable them to develop biblically based discernment.
- Extend the range of their intellectual, moral, and spiritual vision as they explore works that deal with the great issues of life, death, purpose, and destiny.
- Grow as persons as they participate in the vicarious experience of literature and see life from a variety of viewpoints.
- Develop their abilities to write clearly, attractively, and perceptively and learn to converse in the marketplace of ideas.
- Prepare for advanced studies in English.

The Department of English offers a primarily traditional curriculum. The philosophy and practice of the faculty is to emphasize works of recognized and enduring merit in the canon of English, American, and world literature. At the same time, they remain receptive to the inclusion of new or neglected works that are compatible with the department's philosophy. Several courses examine critical theory, and faculty employ a variety of methodologies in literary analysis, while favoring a historical and exegetical approach. Students may choose to obtain

a major or a minor in English, or work toward qualifying for the California Single Subject Teaching Credential in English (additional requirements).

Careers for the English Major

The English major is not a career-specific major, such as accounting. Instead, alert and competent graduates with an English major have acquired a habit of thought and a range of skills that open opportunities for careers in a diversity of fields: teaching, missions, journalism, publishing, insurance, law, paralegal work, banking, personnel management, public relations, and government service. With additional specific training, graduates in English can enter these and other occupations, careers, and vocations.

California Single Subject Teaching Credential in English

Students desiring to obtain a California Single Subject Teaching Credential in English complete the English major under the direction of an English faculty advisor. Currently (2010) the California State Commission on Teacher Credentialing requires students to pass four assessment examinations (CSET series) as evidence of subject matter competence. Information about these examinations and other state requirements is available in the Department of English, the Department of Teacher Education, and at http://www.cset.nesinc.com/cs_testguide_engo-pener.asp

Credit by Examination

Students may receive credit by examination as follows:

Advanced Placement (AP)

- Credit for E110 English Composition (3 units), score of 3 or higher on exam in *Language and Composition* (or) exam in *Literature and Composition*.
- Credit for E120 Introduction to Literature (3 units) for test score of 3 or higher on exam in *Literature and Composition* (but not *Language and Composition*); counts as literature elective.

College Level Examination Program (CLEP)

- Credit for E110 English Composition (3 units) for a score of 55 or above on *Examination in College Composition* (includes two CLEP-scored essays).
- Credit for E120 Introduction to Literature (3

units) for a score of 55 or above on exam in *Analyzing and Interpreting Literature*; counts as literature elective.

- Credit for E211 English Literature I (or) E212 English Literature II; three (3) units credit may be granted for a score of 55 or above on exam in *English Literature*; fulfills literature survey requirement.
- Credit for E231 American Literature I (or) E232 American Literature II; three (3) units credit may be granted for a score of 55 or above on exam in *American Literature*; fulfills literature survey requirement.

ENGLISH COURSE REQUIREMENTS

Each of the following:

E211, 212	English Literature I, II.....	3, 3
E231, 232	American Literature I, II.....	3, 3
E364	History of the English Language.....	3
E435	Literary Criticism & Critical Theory.....	3
E436	Contemporary Critical Theory.....	3
E491	Senior Thesis & Capstone Portfolio	3

Also one of the following:

- E221 World Literature I (3)
- E222 World Literature II (3)

Also two of the following period courses:

- E313 Age of Romanticism (3)
 - E314 Victorian Age (3)
 - E416 Modern British Writers (3)
 - E425 Twentieth Century American Literature (3)
- English Majors taking E425 may waive E232*

Also one the following:

- E332 Advanced Composition (3)
- E353 Modern English Grammar (3)

Also one of the following:

- E333 Drama as Literature (3)
- E334 The Short Story (3)
- E335 The English Novel (3)
- E336 Poetry & Poetics (3)

Also the following:

One Lower Division English Elective.....	3*
Three Upper Division English Electives.....	9*

* Six of these 12 units may be from the following **writing courses** offered in the Department of Communication: C334, C344, C351, C354, C362, C441, C471

Total units required for the major in English..... 51

Minor in English

A minor in English is offered to students not majoring

in English, but who wish to pursue their interest in the English language and in imaginative literature. For a minor in English, the following courses are required:

E120	Introduction to Literature.....	3
<i>Four Courses (12 units) from the following:</i>		
E211, 212	English Literature, I, II (3,3)	
E221, 222	World Literature I, II (3,3)	
E231, 232	American Literature I, II (3,3)	
Three Upper Division English Electives.....		9
<i>Total units required for the minor in English.....</i>		<i>24</i>

Course Offerings in English

E110 English Composition (3)

Instruction and supervised practice in the techniques of effective written expression, with emphasis on analytical reading and writing of expository prose. Includes one or more researched and documented essays. (Fulfills the general education requirement for writing competency.)

E120 Introduction to Literature (3)

An introduction to literary forms: short story, novel, poetry, drama. This course intends to foster an appreciation for the range of literature and to instruct students in close reading and analysis. Provides further instruction in expository writing through personal response to and analysis of the literature. (May be counted as a literature elective; does not fulfill the literature survey requirement.)

E211, 212 English Literature I, II (3, 3)

A chronological survey of the development of English literature, with emphasis on the major writers; some attention to the parallel developments in history, language, religion, and culture. First semester: Anglo-Saxon period through the Neoclassical period. Second semester: Romantic period through contemporary period.

E221, 222 World Literature I, II (3, 3)

A chronological and geo-politico-religious survey of the major literary works that contributed to the shaping of world history. This course examines selected literary works from three major regions from antiquity to the present: the Greco-Roman world and Europe, the Middle Eastern world and India, and the Far East (China and Japan). First semester: antiquity to the Renaissance. Second semester: the Renaissance to the present. (Non-English majors may fulfill the general education literature survey requirement with either E221 or E222).

E231, 232 American Literature I, II (3, 3)

A survey of the writings of famous American authors, this course emphasizes those who help students to understand the American heritage and the influences combining to shape American literature. First semester: 1607-1860, Puritans through Whitman and Dickinson. Second semester: 1860-1960, Twain through selected contemporary writers.

E299 Studies in Classic Film (3)

An introduction to film history, technique and theory, with an emphasis on genre conventions. Students will study approximately twelve feature-length and several shorter films, with particular attention to how the technical and artistic elements such as cinematography, plot and direction control meaning and worldview. The focus of the course is on developing a biblical-critical-analytical approach to film viewing, resulting in discernment of the philosophical foundations of individual works (Fulfills non-survey literature elective).

E313 Age of Romanticism (3)

A study of the poetry and prose of the major writers of the English Romantic Movement (1785-1830) with a view to understand their lives, work, and literary importance. Selected minor writers and one novel are also included.

E314 Victorian Age (3)

Major poets and prose writers of England's Victorian period (1830-1901). Emphasizes those writers whose work both created and responded to crucial issues during this transitional era. Several minor authors and at least three Victorian novels are included.

E322 Children's Literature (3)

A survey of the various types of literature for children. Requires extensive reading and evaluation of children's books (May be counted as a literature elective by English majors *only* when they are pursuing a secondary teaching credential).

E332 Advanced Composition (3)

An advanced writing course emphasizing theory and praxis of composition. Special attention given to the five canons of Classical Rhetoric (i.e., invention, arrangement, style, memory, and delivery) to develop conceptual depth in content, and to broaden and refine stylistic and organizational repertoire in expression. Involves extensive practice in writing (re-writing) and oral presentation of the work. (May not be counted as an elective to fulfill the general education literature requirement in English.)

E333 Drama as Literature (3)

Selected works of Western playwrights from ancient to modern. Concurrently, this genre course explores the history, nature, and types of drama, especially the tragic and comic traditions, as well as the rise of new forms.

E334 The Short Story (3)

A study of short fiction from masters of the short story genre. Explores the fictional elements, techniques, themes and interpretation of representative works from classic and contemporary authors. Includes attention to the historical development of the genre.

E335 The English Novel (3)

A historical study of the development of the English novel. Emphasis on critical reading and writing through a study of selected novels from the eighteenth century to the present.

E336 Poetry & Poetics (3)

A study of metrical and stanzaic conventions of poetry. Emphasis on close reading of a wide range of representative poems from an anthology.

E353 Modern English Grammar (3)

A detailed structural examination of Modern English at the level of the clause, sentence, and discourse. Explores the concept and vocabulary behind traditional grammar as well as contemporary linguistic theories. Involves extensive practice in text analysis. Strongly recommended for all students seeking to qualify for the California Single Subject Teaching Credential in English. (May not be counted as an elective to fulfill the general education English requirements.)

E364 History of the English Language (3)

A systematic survey of the major periods in the development of the English language: Old English, Middle English, Early Modern English, and Modern English. Provides deeper understanding of the nature of language and language change. Incorporates discussion of contemporary linguistic (and sociolinguistic) theories.

E374 Studies in Jane Austen (3)

Reading and analysis of the major Austen canon: seven novels, focusing on the context of Austen's life and times, modes of reading, thematic implications, and issues raised by Austen criticism. Some attention to film adaptations of her fiction.

E405 Shakespeare (3)

Intensive reading of ten of Shakespeare's thirty-seven plays and viewing a film version of an eleventh; additional extensive readings from the Sonnets. Short lectures and discussions throughout the semester explore the cultural background of Elizabethan England on a wide range of topics. Two-thirds of class sessions revolve around student group performance. Substantial term paper project also required.

E406 Milton (3)

Reading of John Milton's major poetry and much of the prose. Includes substantial amount of contextual reading in Calvin, Luther, Erasmus, Arminius, Augustine, Pelagius, Origen, and other theological and non-theological writers from the ancient to the early modern world. Additional attention to the scriptural passages that Milton used as catalysts for his own writing.

E415 Contemporary Literature (3)

An intensive study of selected contemporary literary works from around the world. This course examines the current international trends in literature, with special attention given to the body of literature loosely labeled "postmodern." Students will become familiar with its concept, content, and style; further, they will develop, from a biblical perspective, a critical ability to respond to its cognitive and aesthetic challenges.

E416 Modern British Writers (3)

British fiction, drama, poetry, and prose from 1910 to the 1940s. Authors are selected from among the following: Hardy, Conrad, Joyce, The War Poets, Forster, Yeats, Eliot, Woolf, Orwell, Lawrence, Huxley, Mansfield, Greene, Auden, Lewis. Reading of whole works, together with identification and discussion of techniques, subject matters, themes, historical influences, and crux issues.

E425 Twentieth Century American Writers (3)

An in-depth study of influential 20th century American novelists, short story writers, and playwrights (exclusive of poetry). Students will read whole works by authors selected from among the following: Bellow, Carver, Cullen, Dos Passos, Ellison, Faulkner, Fitzgerald, Hemingway, Hurston, Kerouac, Kingston, Mamet, Miller, Morrison, O'Connor, O'Neill, Porter, Steinbeck, Tan, Updike, Vonnegut, Walker, Welty, Williams, and Wolfe. Includes contextual readings to help identify and engage with significant historical and cultural trends and events. (English majors selecting E425 may waive E232 and select an additional elective.)

E435 Literary Criticism & Critical Theory (3)

An introduction to literary criticism and theoretical/conceptual systems from the Pre-Socratics and Plato to modern and emerging postmodern thinking. Readings in primary texts, with emphasis on developing a biblical-critical theory for approaching literature, philosophy, art, culture, and *theory itself*. This basic theoretical model will derive from the scriptural record regarding human wisdom and knowledge.

E436 Contemporary Critical Theory (3)

An examination of the main trends in the development of critical and cultural theories since the New Criticism, focusing on (French) poststructuralism, (German) hermeneutics and (American) -Pragmatism, as well as (post-)Marxism and (Lacanian and post-Lacanian) psychoanalysis. This course also looks at some major outgrowths of these approaches, namely, contemporary feminism, deconstruction, and (so called) postmodernism.

E453 Psychoanalytic Criticism (3)

An in-depth investigation and critique of the theory and praxis of psychoanalysis as it is applied to the study of literature and culture. Introduces students to the terminology and the concept of Freudian and Lacanian psychoanalysis, and biblically and critically examines their origin and development, and applications to the field of literary and cultural criticism (as well as to aesthetics and gender theory). Recommended for advanced English majors seeking to pursue graduate education (or others who seek graduate education in various disciplines within the humanities).

E489 Directed Studies in Literature (1-3)

Intensive study of a selected topic in literature under direction of a member of the English faculty. *Prerequisite: Open to English majors only with permission of the department chairperson.*

E491 Senior Thesis & Capstone Portfolio (3)

During the last two semesters before graduation, all English majors prepare an extensive research paper on a complex literary topic, question, or issue. Students also compile an academic portfolio of 4 papers representative of their scholarship, and a tabular listing of all authors and titles studied in the English major at TMC. After the students' nationally-normed Area Concentration Achievement Test in Literature in English (ACAT) scores are available, they are included in the portfolio.

E499 Seminar in Literature (3)

Selected writer, group of writers, or area of study. May be repeated for credit when topics vary.

History and Political Studies

Dr. Clyde P. Greer, Jr., Chairperson

The Department of History and Political Studies is designed to help all students develop an understanding of the complex factors that have produced the civilizations of the present and also aid students in becoming responsible Christian citizens. Especially because of our emphasis on systematic research and analysis, the History and Political Studies majors receive instruction in preparing for careers in education, business, government service, public relations, or library work, as well as graduate study in law, theology, history or political science.

The department acknowledges that, **in human affairs of the past, present and future, God is sovereign.** With that foundational truth, students are aided in developing Christian philosophies of history and politics as parts of an overarching biblically based world view.

The department offers two Bachelor of Arts degrees with five different areas of emphasis. Every course should help students integrate Christian faith and the academic fields.

Students desiring a major in Political Studies may choose from three available emphases: American Politics, Constitutional Law, or Political Theory. Although a capable person can get into law school with almost any major, the Constitutional Law emphasis constitutes excellent preparation for law school.

Students desiring a major in History may choose Church History or General History. Anyone seeking a History major and planning to attend seminary should choose the Church History emphasis. Anyone wanting to teach history should read the following paragraphs carefully.

California Single Subject Teaching Credential in Social Studies

The California Commission on Teacher Credentialing requires prospective teachers of history and social studies to prove their social science subject matter competence in one of two ways: (1) students take rigidly prescribed courses in a state-approved curriculum, **or** (2) students pass assessment examinations. Students currently desiring to obtain the credential to teach in junior and senior high schools should plan on

taking the Social Studies assessment tests from the CSET (California Subject Examination for Teachers) series. Information about these tests is available in the Department of Teacher Education and in the Department of History and Political Studies.

H492, the senior capstone course for history majors, should greatly help prepare students for the assessment tests. The next page shows a list of required courses for the General History major which provides foundational knowledge in the field. Students graduating with a B.A. in History must take a comprehensive discipline-specific assessment test during their senior year.

The Department of Teacher Education has arranged course requirements so that students can complete most of their teacher credential program during a fifth year of study—one semester of courses and a semester of student teaching. The only two courses that can be taken during the regular four-year program are ED300 Computer Basics for Educators and ED400 Foundations of Education.

Credit-By-Examination

The Department of History and Political Studies will grant credit-by-examination on the following conditions only: course credit and semester unit credit are granted for H211 and H212 - World History I and II (3,3), H241 or H242 - United States History (3) and POL220 - United States Government (3) when the student submits proof of earned test scores of 3 or above on the Advanced Placement Examination or 55 or above on the College Level Examination Program tests.

World History Waiver Examination

Students who have not taken either World History I or World History II may take a competency test. Those who score a 65% or better will be exempted from taking the two-semester World History survey sequence. These students will then be required to take only one upper division history course to fulfill the General Education World History requirement. (Students in state-approved teacher credentialing programs, however, must take the regular World History sequence.) The test may be taken only once.

Home Economics - Family and Consumer Sciences

Mrs. Beth Mackey, Chairperson

Titus 2:3-5 instructs the older women to “admonish the young women to love their husbands, to love their children, to be discreet, chaste, homemakers, good, obedient to their own husbands, that the word of God will not be discredited.” This passage implies that the younger woman learns how to:

- Use time management skills in her home.
- Manage the family finances.
- Cook nutritious meals.
- Practice hospitality.
- Joyfully submit to her husband.
- Raise her children in the “fear and admonition of the Lord” (Ephesians 6:4)

The Home Economics--Family and Consumer Sciences discipline encompasses the six areas described in Titus 2:3-5. It is simply good stewardship to merge the Biblical Mandate with one’s professional pursuits.

Acquire Professional Preparation

Professional opportunities abound in Home Economics--Family and Consumer Sciences! A sampling of career tracks at The Master’s College include Home Economist-Family and Consumer Scientist in Business, Child Development, Clothing, Textiles and Design (both Clothing and Interior), Human Services (Biblical Counseling with the ability to diagnose and prescribe), Foods and Nutrition, Home Economics-Family and Consumer Sciences Education, Communications, or International Service (Missions). Generating from these career tracks, the course in Entrepreneurship trains our students to establish home-based businesses. Marketability is a consistent thread throughout the Home Economics--Family and Consumer Sciences curriculum at The Master’s College. Beginning with vocational assessment and investigation of career options in the Orientation to Home Economics--Family and Consumer Sciences course and concluding with the finalization of an electronic professional portfolio in the Resource Management Practicum the concept of professional stewardship is encouraged.

Experience The Department’s Distinctives

Today’s world demands a flexibility and response to change for which many are not prepared. Home Economics--Family and Consumer Sciences at The Master’s College is designed to train Christian women to meet these changes with confidence. Courses within the department promote individual character development, increase one’s professional skills, develop insights into home and family living, and prepare its students to enter a wide range of vocational options. As a profession, Home Economics--Family and Consumer Sciences applies the findings of the physical, biological, and social sciences to improving the quality and standards of individual and family life. Additionally, it cultivates a knowledge of the arts to make life more creative, enjoyable, and emotionally satisfying. Master’s students majoring in Home Economics--Family and Consumer Sciences participate in a number of learning and enrichment activities, which emphasize:

- Maximizing human resources
- Coping with economic uncertainty
- Assessing the importance of fibers and fabric in today’s clothing
- Maintaining lifetime nutrition
- Understanding growth and development from infancy to aging
- Creating positive parenting attitudes
- Interpreting the housing needs of the individual and the family
- Understanding family differences and cultures
- Responding to twenty-first century issues facing individuals and families
- Utilizing modern scientific methods and resources to enhance quality of life
- Generating research to identify the needs of individuals and families
- Approaching individuals and families with preventative measures rather than crisis intervention
- Educating the public to ensure productive and harmonious individual and family lifestyles

Home Economics--Family & Consumer Sciences General Education

The General emphasis allows the student to acquire a solid foundation in Home Economics--Family and Consumer Sciences. Courses are divided into three categories:

Character - designed to develop the character of the Christian woman.

Principle - acquisition of the academic knowledge necessary for a strong foundation in the Home Economics--Family and Consumer Sciences profession.

Laboratory - perfection of the skills unique to the Home Economics--Family and Consumer Sciences profession.

Students may focus on a specific concentration in Home Economics--Family and Consumer Sciences in the junior and senior year. Where possible, they engage in an internship leading to professional employment in such areas as:

- Home Economist--Family and Consumer Scientist in Business
- Clothing, Textiles & Design
- Foods & Nutrition
- Early Childhood Education
- Preparation for Graduate School
- Home Economist--Family and Consumer Scientist in International Service (Missions)
- Home Economist-- Family and Consumer Scientist in Human Services (Biblical Counseling)

Principles of learning as they relate to the instruction of Home Economics; organization of materials; selection, use and evaluation of teaching techniques. *Prerequisite: 15 units of Home Economics recommended.*

HE-FCS480 Thesis Publication (1)

Preparation of undergraduate thesis for research publication.

HE-FCS482 Independent Study (1-3)

Independent study on a topic not covered in organized classes. May be repeated, but the total number of units in independent study may not exceed ten percent of the total number of units required for graduation. The topic must be approved by the instructor and the academic advisor. *Prerequisite: 15 units of HE-FCS courses.*

HE-FCS483 Topics in Home Economics--Family and Consumer Sciences (1-3)

A class or seminar in which significant topics in Home Economics are explored. HE 483B-Culture and Lifestyle of Women in Israel fulfills a Cross-Cultural Elective. *Prerequisite: HE-FCS101.*

HE-FCS484 Internship in Home Economics--Family and Consumer Sciences (1-3)

Supervised professional experience in an approved Home Economics related position. May be repeated for up to 6 credits. *Prerequisite: 15 units of HE-FCS courses.*

Course Offerings in Humanities

ART

ART330 Art Components & Techniques (3)

Students will learn to teach visual art in the classroom using the elements of art, a variety of media, along with ideas on integrating the arts into other academic curriculum. Participants will be instructed in DBAE (Disciplined Based Art Education) which includes the history of famous artists, viewing artwork critically, and to find the aesthetic value in art. At the end of the course, students will have a compilation of art ideas, history on various artists, and a portfolio of their own art productions.

ART338 Art History of the Western World (3)

Built on a foundation of forty art slide programs from ancient Greek sculpture to twentieth century art, the course surveys the major periods, media and styles. Strong emphasis on the Italian Renaissance and greater emphasis on painting than on architecture and sculpture. A major goal is to establish a historical and cultural “canon” in major art styles especially as brought to focus by religious painting.

BEHAVIORAL STUDIES

BE100 Introduction to Psychology (3)

General introduction to the basic concepts of psychology, with emphasis given to the various theories of psychology along with a thorough biblical analysis and critique.

BE301 Child & Adolescent Development (2-3)

Analysis of the physiological, cognitive, spiritual and personality development from birth through adolescence. There will also be a discussion of parenting issues and a critique of the self-esteem movement. A biblical assessment of anthropology is presented.

LANGUAGES

ITALIAN

ITA123, 124 Beginning Italian I, II (3,3)

Designed to introduce the beginning student to the Italian language. The curriculum will emphasize conversation, the fundamentals of grammar, and pronunciation. The course fulfills the general education requirement for cross-cultural studies.

SPANISH

SP221, 222 Introductory Spanish I, II (4,4)

Designed to introduce the beginning student to the Spanish language. The curriculum will include the fundamentals of grammar, pronunciation and conversation. The year course fulfills the general education requirement for

foreign language.

SP318a, 318b Intermediate Spanish I, II (3,3)

Designed to increase the student's proficiency in conversational skills with the goal of developing speaking capability in the language.

SP319a, 319b Advanced Spanish I, II (3,3)

Individual instruction at the advanced level of language development.

PHILOSOPHY

P212 Introduction to Logic (3)

The principles and techniques of correct thinking, including the scientific method of deriving truth by induction from observation as well as by deduction from given premises. The aim is to discipline the student in soundness of reasoning, sifting of evidence and recognition of superficialities and fallacies in the thinking of others.

P311 Introduction to Philosophy (3)

A survey of the field of philosophy: its vocabulary, aims and purposes; the great systems of speculative thought; the leading thinkers.

P318 History of Ancient & Medieval Philosophy (3)

The development of philosophy from its beginning in Greece to the revival of Aristotle, Thomas Aquinas and William of Occam at the close of the Middle Ages. Special attention is given to development of Greek philosophy from the pre-Socratic through the Neo-Platonic periods as foundational to the developing medieval mind of Christian philosophy and the church fathers.

P321 Philosophies of Education (3)

A general education elective, this course presents a survey of educational theorists, their philosophies and how those philosophies have been exercised in educational practices and the implications for students, teachers, parents and administration. Students will read historical background of and original documents by the educational theorists. Satisfactory completion of this course fulfills the philosophic studies general education requirement at The Master's College and is also a “W” course.

P328 History of Modern Philosophy (3)

The development of philosophy from the time of the Renaissance through the modern period. The study begins with Bruno, Bacon, and Hobbes and concludes with insights related to the contemporary scene.

P364 Ethics (3)

A survey of the main approaches to ethics, issues in

personal ethics, such as moral responsibility, decision-making, honesty and conscience; and topics in special ethics such as war, abortion, euthanasia, genetic engineering and church-state relations.

POL365 Western Political Philosophy I (3)

An in-depth study of the foundational works of classical political philosophy: Plato's *Republic* and Aristotle's *Politics*.

POL366 Western Political Philosophy II (3)

An in-depth study of the major modern political philosophers and their thought from Machiavelli through the social contract theorists to the utilitarians.

P458 Philosophy of Religion (3)

An examination of issues such as the relation between faith and reason, arguments for and against theism, the divine attributes, the problem of evil, religious experience, religious language, death and immortality.

P468 Religion & Science (3)

Comparison and contrast of philosophies of religion and science in their ways of knowing, uses of language and symbols, relation to experience and formulation of beliefs and theories.

P478 Religious Epistemology (3)

The possibility, nature and certainty of religious knowledge.

BCW488 Problem of Evil (3)

Explanation for the existence of pain and evil.

P498 Philosophers of Religious Significance (3)

An examination of philosophers who have greatly influenced religious thought. Considered are thinkers such as Plato, Aristotle, Aquinas, Descartes, Hume, Hegel, Nietzsche and Wittgenstein.

P499 God in Philosophy & Theology (3)

A study of the nature of God and the coherence of the divine attributes; God's relation to logic, language, time, causality and evil; belief as it relates to science, natural theology, evidence and mysticism.

HUMANITIES

HU312 Disciplinary Connections (3)

Disciplinary Connections is a study of conceptual foundations of seven major areas of study: reading, language and literature; history and social science; mathematics; science; visual and performing arts; physical education; and human development. Students will examine the connections between disciplines. This is a required 3 unit course in the 12 unit concentration for Liberal Studies-teacher education majors. *Prerequisite: LS200*

Kinesiology & Physical Education

Nathan S. Wright, Chairperson

In the Kinesiology & Physical Education major at The Master's College, students have the opportunity to study important principles they can use for a successful career and effective ministry in physical education, sports and pre-physical therapy emphasis. These concentrations of study will mold a person's knowledge in activity skills, educational methods, scientific factors in body movement analysis, sports injury care and allied health careers.

The Department of Kinesiology & Physical Education is designed to prepare Christian leadership in such areas as teaching, coaching, sports injury studies and pre-physical therapy emphasis. Graduating students will participate in the instructional areas of elementary and secondary schools (both public and private) and areas of allied health careers. To implement these objectives, the department provides movement theory, activity courses and science basis course work for teaching careers or allied health studies.

California Single Subject Teaching Credential in Physical Education

Students desiring to obtain a California Single Subject Teaching Credential in physical education should talk to their advisors about specific major requirements for this credential and make application to the Teacher Education Department.

General Requirements for all Students

The Kinesiology and Physical Education department does not require any general education requirements for non physical education majors. However, Kinesiology and Physical Education majors are not required to take general education requirement MA240 (Critical Thinking and Problem Solving). Kinesiology & Physical Education majors within the pre-physical therapy emphasis are not required to take LS200 (Foundations of Science). Liberal Studies majors can use KPE405 (Statistical Analysis) as an upper division math course.

Senior Competency Requirements

All graduating seniors in the Kinesiology & Physical Education Emphasis are required to pass a department assessment exam with at least a 70% grade. The exam consists of the following two sections: (1) writing analysis and subject matter competen-

cies and (2) skills assessment evaluations in at least nine of the fourteen requirements for Professional Activities courses.

All graduating seniors in the Sports Injury Studies and Pre-Physical Therapy are required to pass a department assessment exam with at least a 70% grade. The exam consists of writing analysis and subject matter competencies.

Course Offerings in Kinesiology & Physical Education

Intercollegiate Athletics (1)

Open only to those individuals participating on an intercollegiate team. No more than four total semester hours, including transfer hours, for any combination of different sports may be taken for credit.

- IA110/410 Intercollegiate Basketball (1)
- IA121/421 Intercollegiate Cross Country (1)
- IA131/431 Intercollegiate Soccer (1)
- IA141/441 Intercollegiate Volleyball (1)
- IA192/492 Intercollegiate Baseball (1)
- IA151/451 Intercollegiate Golf (1)
- IA122/422 Intercollegiate Tennis (1)

Professional Activities I: Team Sports (2)

Development of skills in at least two units of the following team sports. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

- KPE103a Soccer (1)
- KPE103b Football (1)
- KPE120 Track & Field (1)
- KPE235a Basketball (1)
- KPE266a Volleyball (1)

Professional Activities II: Racket/Club Sports (2)

Development of skills in at least two units of the following racket/club sports. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

- KPE109 Racketball (1)
- KPE114a Golf (1)
- KPE235b Badminton (1)
- KPE266b Tennis (1)

Professional Activities III: Aquatics (1)

Development of skills in aquatics. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

KPE113 Beginning/Intermediate Swimming (1)**Professional Activities IV: Gymnastics (1)**

Development of skills in gymnastics. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

KPE124 Beginning/Intermediate Gymnastics (1)**Professional Activities V: Conditioning/Rhythms (3)**

Development of skills in at least three units of Conditioning and Rhythms. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

KPE113b Rhythms (1)**KPE245a Aerobics (1)****KPE245b Body Conditioning (1)****Professional Activities VI: Combatives (1)**

Development of skills in at least one Combative course.

KPE268a Self Defense (1)

Note: Other type of Combative course would fulfill requirement.

Professional Activities VII: Outdoor Educational Activities (1)

Development of skills in at least one Outdoor Educational Activity.

KPE270a Rock Climbing (1)

Note: Other types of Outdoor Educational Activity courses would fulfill requirement. Ex: Bicycling

Professional Activities VIII: Nontraditional (1)

Development of skills in at least one Nontraditional Activity. Meets three hours per week. No less than a C grade will be accepted in professional activity classes for departmental majors.

KPE119 Archery (1)**KPE268b Pickleball (1)****KPE100/400 Intercollegiate Athletics (1)**

Open only to those individuals participating on an intercollegiate team. Credit for intercollegiate sports cannot be used to fulfill general education requirement for physical education. No more than four total semester hours, including transfer hours, for any combination of

different sports may be taken for credit.

KPE110 Fitness Techniques & Health (2)

Designed to develop a reasonable level of physical fitness through organized programs of exercise and activities. Students will acquire skills, knowledge and attitudes that will enable them to continue in a self-directed fitness program after the semester has been completed.

KPE212 Principles of Physical Education (2)

A study of the foundations and purposes of physical education in relation to the total school program. Provides opportunity to observe secondary and elementary physical education classes in operation. Required of all departmental sophomores in order to continue with the physical education major.

KPE222 Sports Analysis (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching a specific sport.

KPE223 Sports Analysis Practicum (2)

Observation and analysis of an interscholastic sport team program.

KPE256 Movement Education (2)

Principles of movement are analyzed and practiced as they apply to locomotor and non-locomotor skills. Stress is placed on the development of creativity, coordination, rhythm and timing.

KPE303 History & Philosophy of Physical Education (3)

A study of the historical background, aims, and objectives of physical education and the place of physical education in modern life.

KPE313 Adapted Physical Education (3)

A study of the principles of the physical education program for the handicapped and an analysis of disabilities and their implications for the physical education program.

KPE314 Kinesiology (3)

A course in the mechanism of bodily movements. The movements of the body are studied as they are used in games, sports and the various occupations of life. *Prerequisite: LS221.*

KPE316 Physiology of Exercise (3)

A study of the effects of muscular activity on the human body under various circumstances. *Prerequisite: LS221.*

KPE324 Psychology of Coaching (2)

A study of current problems and trends in the administration of athletics.

KPE335 Analysis of Basketball (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching basketball.

KPE336 Analysis of Softball (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching softball.

KPE346 Analysis of Track and Field (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching track/field.

KPE353 Sports Nutrition (2)

A study of the digestion, absorption, and utilization of nutrients as they relate to general health and activity-specific energy systems. Examines the role of carbohydrates, fat, protein, vitamins, minerals, water and dietary supplements in optimal performance, as well as methods for calculating energy needs and expenditures and programs for weight loss/gain. *NOTE: Requirement for Sports Injury Emphasis.*

KPE356 Analysis of Baseball (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching baseball.

KPE363 Analysis of Soccer (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching soccer.

KPE364 Analysis of Football (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching football.

KPE365 Analysis of Volleyball (2)

Analysis of the organization, fundamentals, techniques and strategy of coaching volleyball.

KPE373 Sports Officiating I (2)

An elective course consisting of a study of the rules and techniques of officiating basketball and soccer. Included is laboratory work in officiating in the gymnasium and on the field.

KPE383 Teaching Individual & Dual Sports (3)

Analysis of the organization, fundamentals, techniques, and strategy of teaching tennis, archery, badminton, golf, swimming, gymnastics and track and field. *NOTE: Students in Sports Injury Emphasis will take KPE353 Sports Nutrition.*

KPE384 Sports Officiating II (2)

An elective course consisting of a study of the rules and techniques of officiating volleyball and baseball. Included is laboratory work in officiating in the gymnasium and on the field.

KPE402 Health Education (1)

A study of the Principles of Health Education. This course meets the requirements needed for a Professional Clear Teaching Credential.

KPE404 Sport in American Culture (3)

A study of the impact of sports on American culture.

KPE405 Statistical Analysis (3)

Statistical Analysis and evaluation of data within physical education. Analysis topics can include descriptive statistics, sampling distributions, bivariate data, probability, and common hypothesis tests. Waives general education requirement MA240 for only physical education majors. Counts as an upper division math course for Liberal Studies majors.

KPE412 Teaching PE in the Secondary School (3)

A study of the physical education techniques and materials used in junior and senior high schools.

KPE414 Organization & Administration of PE (3)

A study with suggestions for implementing the physical education program, with emphasis on departmental organization, buying and caring for equipment, care of facilities, tests and measurements and the importance of the interschool and intramural programs.

KPE415 Elementary P.E. Components & Techniques (2)

An elective course involving a study of the physical education techniques and materials used in the elementary school. An exploration of physical education activities which can be used at the elementary school levels.

KPE425 Prevention & Care of Athletic Injuries (3)

Theory and practice in the prevention and care of athletic injuries. This course will cover injury recognition and evaluation of common upper and lower extremity injuries in the athletic populations. In addition, general medical conditions found in active populations will be discussed. *Prerequisite: LS221.*

KPE426 Advanced Prevention & Care of Athletic Injuries (3)

An advanced course in theory and practice in the prevention and care of athletic injuries. Emphasis will be placed on fundamental evaluation and assessment skills needed by an allied health professional working with active populations.

KPE436 Motor Learning (3)

A study of the theories related to motor learning and human development and the nature of learning basic locomotor and sports skill theories as related to

physiological, psychological and sociological aspects of development.

KPE446 Reconditioning of Athletic Injuries (3)

This class will provide students with advanced knowledge and practical skills pertaining to pain control, tissue repair, and joint range of motion. Injury prevention and injury management using therapeutic exercise and modalities will be presented in lecture and discussion format.

KPE448 Research in Physical Education (1-3)

An elective course involving intensive library and field study of a selected topic in contemporary physical education. *Prerequisites: permission of the instructor; senior or graduate standing.*

KPE465 Primary Physical Assessment (2)

Assessment of cardiovascular and respiratory disorders; neurological disorders; disorders of the eye, ears, nose, throat, and mouth; systematic disorders, and dermatological conditions.

KPE 479 Clinical Internship (1-3)

Observation and analysis of various physical therapy settings including: in-patient and out-patient care.

KPE490 Senior Competency Exam (1)

Required written analysis and skill assessment exam. The student must pass the exam with at least 70% in order to graduate. Individuals in the Sports Injury Studies and Pre-Physical Therapy programs must complete a written exam.

The Liberal Studies major is designed to offer the student a broad, interdisciplinary program of study, the epitome of the liberal arts education. Two emphases are available to Liberal Studies majors: General and Teacher Education.

Liberal Studies/General Emphasis

Students enrolled in the Liberal Studies/General Emphasis major complete a total of 84 semester units distributed among the following four areas:

English & Communication	18-24
Humanities & Fine Arts	18-24
Mathematics, Science & Computer	18-24
Social Science	18-24

In each of the above divisions, the student must complete at least 18 units and may count no more than 24 units toward the 84 unit requirement. At least 24 units of the 84 units must be at the upper division level. A maximum of 12 units of Bible and 6 units of music performance coursework may be counted in the Humanities/Fine Arts section of the major.

Liberal Studies/Teacher Education Emphasis

Students wanting to obtain a California Multiple Subject Preliminary Teaching Credential may enroll in the Liberal Studies/Teacher Education emphasis. It has been developed to prepare students for the California Subject Examination for Teachers: Multiple Subjects.

Requirements for this emphasis include specific general education courses as well as courses selected from various disciplines taught in the elementary classroom and are listed in the column to the right. Requirements include general education core courses and an advanced specialization.

Minimum Grade for Courses in Major

Students in the teacher education emphasis are required to earn a grade of C- or above in every course in LS curriculum. A student who earns below a C- must repeat the course to earn the teacher education emphasis.

Minimum Grade for Education Courses

Students in the teacher education emphasis are required to earn a grade of a B- or better in every

course taken in the Teacher Education Department. These have an ED prefix.

LIBERAL STUDIES/TEACHER EDUCATION MAJOR CORE COURSES

For a Bachelor of Arts degree in Liberal Studies/Teacher Education with a Multiple Subject Credential emphasis, the following specific courses are required:

ART330	Art Components & Techniques	3
BE301	Child & Adolescent Development.....	2
BCW400	Christian World View	3
C100	Spoken Communication	3

Areas of Specific Concentration

In addition to the courses listed above, every student must complete 12 units of advanced study in a specific area of concentration. All concentrations include HU312 Disciplinary Connections. Students select nine (9) additional units from one of the

following list of concentrations:

- Communication
- Computer Concepts and Applications
- English
- Foreign Language – Spanish
- History - United States
- History - World
- Intercultural
- Israel
- Mathematics
- Music
- Physical Education
- Political Studies
- Science
- Visual and Performing Arts
- Writing

Dr. Joseph W. Francis

Due to the ever-increasing influence of technology, the study of mathematics is crucial not only for logical thinking, but also for the preparation for any technical vocation. In addition, mathematics is a vital part of any well-rounded liberal arts education.

The mathematics curriculum is designed to provide a strong foundational core for the student interested in pursuing graduate study and to offer students the opportunity for preparation in fields relating to applied mathematics, such as statistics and teaching. The Department of Mathematics provides a strong and thorough offering in mathematics as a part of God's creation in a concentrated effort to integrate faith and learning. A minor in mathematics is available to students from all other departments and can be pursued in conjunction with every other major on campus.

Career Opportunities

The education students receive in Mathematics at The Master's College will provide the first step toward careers in:

- Actuarial Science
- Applied Mathematics
- Business
- Economics
- Education
- Engineering
- Financial Analysis
- Information Systems
- Market Analysis
- Numerical Analysis
- Operations Research Analysis
- Statistics

Credit by Examination

The Department of Mathematics will grant course credit for MA121 Calculus I for the AP Calculus AB examination, MA 121 Calculus I and MA 122 Calculus II for the AP Calculus BC examination, or the AP Statistics examination for MA 262 Elementary Statistics. The student must submit proof of an earned test score of 3 or better on the appropriate Advanced Placement Examination of the College Board or a score of 55 or above on the College Level Examination Program test.

California Single Subject Teaching Credential in Mathematics

Students interested in obtaining a California Single Subject Teaching Credential in Mathematics should contact both the Mathematics and Teacher Education Departments' advisors about specific requirements for this credential.

Comprehensive Examination

Students graduating with a degree in Mathematics will be required to take a comprehensive discipline-specific examination in their senior year prior to graduation.

MATHEMATICS CORE COURSES

The following courses are required of every student who wishes to pursue a degree in mathematics from The Master's College:

CS111	Intro. to Computer Programming.....	3
CS111L	Intro. to Computer Programming Lab	1
MA121	Calculus I.....	4
MA122	Calculus II	4
MA221	Calculus III.....	4
MA231	Linear Algebra	3
MA282	Ordinary Differential Equations.....	3
MA302	Introduction to Mathematical Proof	3
MA400	Mathematics Seminar.....	2
MA412 Integrated Review	1
<i>Total core courses</i>		28

In addition to the Mathematics Major Core Courses, each student must choose an emphasis that they would like to pursue from Pure Mathematics, Applied Mathematics or Mathematics Education. The requirements for each of these emphases are as follows:

Pure Mathematics Emphasis Courses

Mathematics Major Core Courses	28
MA222 Calculus IV	1
MA343 Modern Geometry.....	3
MA355 Number Theory/History of Mathematics.....	3
MA383 Complex Analysis	3
MA445 Real Analysis I	3

Notes

1. All students who are interested in going to IBEX should consult their respective advisors as early as possible.
2. All students in the Mathematics Education Emphasis are strongly urged to take ED400 and ED410 during their last two years *in addition to* the courses required for the Bachelor's degree as a preparation for the Fifth Year Program. Contact the Teacher Education Department for more information.
3. A maximum of two (non-general education) upper division courses from another department may be used to satisfy the "Additional Upper

Division Mathematics Courses" requirement subject to the *prior* approval of the student's major advisor.

Course Offerings in Mathematics

MATHEMATICS

MA072 Basic Mathematics (1)

This course covers the nature of numbers and fundamentals of operations, an introduction to geometry, solving consumer applications and algebra. This course does not count toward a degree and is graded on a Pass/Fail basis.

MA090 Intermediate Algebra (1)

This course covers further studies in linear equations and inequalities, rational expressions, roots and radicals, systems of equations and functions and their graphs: polynomial, rational, exponential and logarithmic. This course is intended for those who need a refresher course before enrolling in ACC210, BUS310 and MA101. This course does not count toward a degree and is graded on a Pass/Fail basis. In addition, this course is offered as a lecture in the Fall semester and as a Lab in the Spring semester.

MA101 College Algebra & Trigonometry (3)

A standard course combining algebra and trigonometry intended as a preparation for MA121 Calculus I. *Prerequisite: Two years of high school algebra, successful completion of MA090 or instructor approval.*

MA121 Calculus I (4)

The first semester of a unified course, this class covers basic analytic geometry, limits, continuity, differentiation, applications of the derivative, antiderivatives and the definite integral and its applications. *Prerequisite: MA101 or equivalent.* (Lab fee \$20.)

MA122 Calculus II (4)

The second semester of a unified course, this class covers differentiation and integration of exponential, logarithmic, and trigonometric functions, additional integration techniques, numerical methods, indeterminate forms, improper integrals, infinite sequences and series. *Prerequisite: MA121.* (Lab fee \$20.)

MA201 Mathematical Systems for Elementary Teachers I (3)

The first semester of a unified course that provides basic mathematical competency for teachers at the elementary school level. Emphasis is placed upon problem solving and understanding the principles underlying mathematical concepts. This course is strictly intended for liberal

studies majors seeking to meet breadth requirements in mathematics. Topics to be covered include sets, whole numbers, functions, whole-number computation, integers, basic number theory, rational numbers, decimals, percents and real numbers. *Prerequisite: Permission of the Teacher Education Department.*

MA202 Mathematical Systems for Elementary Teachers II (3)

The second semester of a unified course that provides basic mathematical competency for teachers at the elementary school level. Topics to be covered include probability, statistics, introductory geometry, constructions, congruence, similarity, measurement, motion geometry and tessellations. *Prerequisite: Permission of the Teacher Education Department.*

MA221 Calculus III (4)

The third semester of a unified course, this class covers such topics as vectors, calculus on vector-valued functions, functions of several variables, partial differentiation and multiple integration. *Prerequisite: MA122.* (Lab fee \$20.)

MA222 Calculus IV (1)

The fourth semester of a unified course, this class covers topics in advanced vector analysis including vector fields, line integrals, Green's Theorem, surface integrals, the Divergence Theorem, and Stokes' Theorem. *Prerequisite: MA221.* (Lab fee \$20.)

MA231 Linear Algebra (3)

A course on the theory of linear equations and vector spaces, topics to be covered include linear equations, matrices, determinants, vectors, real vector spaces, eigenvalues, eigenvectors and linear transformations. *Prerequisite: MA122.*

MA240 Critical Thinking & Problem Solving (3)

An interdisciplinary course designed to provide the student with the analytical tools and concepts for dealing with practical "everyday" problems. Emphasis is placed on developing critical, analytical thinking and reasoning skills in the context of quantitative and logical applications. Topics covered may include logic, fallacies, abuse of numbers and percentages, problem-solving techniques, financial calculations, statistics, correlation, the normal distribution, probability and mathematics in the arts and politics.

MA253 Discrete Mathematics (3)

This course is a study of discrete structures commonly used in computer science and mathematics, including topics from sets and relations, permutations and combinations, graphs and trees, induction, recursion and Boolean Algebras. *Prerequisite: MA121.*

MA262 Elementary Statistics (3)

This is a general course in elementary statistics dealing with the collection, organization, display and inferential techniques of modern data analysis. Topics covered may include descriptive statistics, bivariate data, probability, probability distributions, sampling distributions and common hypothesis tests. *Prerequisite: MA101 or equivalent.*

MA282 Ordinary Differential Equations (3)

This course covers the forms and solutions of many different types of ordinary differential equations and their applications in the sciences. *Prerequisites: MA221 and MA231.*

MA302 Introduction to Mathematical Proof (3)

A practical introduction to formal mathematical proof emphasizing preparation for advanced study in mathematics. Special attention is paid to reading and building proofs using standard forms and models within the context of specific examples. *Prerequisite: MA221.*

MA326 Numerical Analysis (3)

This course covers some of the techniques of applied mathematics and may include such topics as the solution of equations, interpolation, numerical integration, and the numerical solution of differential equations. *Prerequisites: CS111 and MA282.*

MA344 Modern Geometry (3)

This course covers finite geometries, modern Euclidean geometry, constructions, non-Euclidean geometries and other topics in geometry. *Prerequisite: MA302*

MA355 Number Theory & the History of Mathematics (3)

This course is designed to acquaint the student with the widely known theorems, conjectures, unsolved problems and proofs of number theory. In addition, the history of mathematics, from the beginning of recorded civilization to the present, will be covered. Topics may include divisibility, primes, congruences, Diophantine equations and arithmetic functions. *Prerequisite: MA302*

MA366 Probability (3)

A general course in elementary probability theory. Topics to be covered may include the normal distribution, random variables, uni- and multi-variate probability distributions, and the Central Limit Theorem. *Prerequisite: MA221.*

MA383 Complex Analysis (3)

This course is an introduction to complex analysis. Topics to be covered may include complex numbers, analytic functions, elementary functions, integrals, Laurent series, residues, poles and conformal mapping. *Prerequisite: MA302.*

MA400 Mathematics Seminar (1)

A lecture/discussion course reviewing recent articles appearing in mathematical journals accessible to undergraduate mathematics majors. May be repeated once for credit. This course is a capstone integrative course. *Prerequisite: MA302.*

MA412 Integrated Review (1)

A comprehensive review of the undergraduate mathematics curriculum for the purpose of preparing students for standardized examinations, such as the PRAXIS and the CSET (for prospective teachers), the GRE (for prospective graduate students), actuarial examinations (for prospective actuaries), and the senior subject examination in mathematics. This course is a capstone integrative course. *Prerequisite: Senior standing in Mathematics.*

MA425 Mathematical Modeling (3)

This course covers the application of mathematical tools to enlighten and solve selected problems in the “real world.” Areas may include economics, finance, life sciences, computer science and physics. *Prerequisite: MA282.*

MA433 Partial Differential Equations (3)

This course is an introduction to the subject of partial differential equations. Topics to be covered may include Fourier series and integrals, the heat equation, the wave equation, the potential equation, and Laplace Transforms. *Prerequisites: MA222 and MA282.*

MA445 Real Analysis I (3)

The first semester of a unified course, this class covers topology in real space, the axioms of the real numbers, sequences, limits, continuity, convergence and differentiation. *Prerequisite: MA302.*

MA448 Real Analysis II (3)

The optional second semester of a unified course, this class covers the Riemann integral, the inverse and implicit function theorems, integration and other advanced topics of calculus. This course is recommended for those students who are interested in pursuing graduate studies in mathematics. *Prerequisite: MA445.*

MA453 Abstract Algebra I (3)

The first semester of a unified course, this class covers groups, homomorphisms, factor groups, isomorphisms and free groups. *Prerequisite: MA302.*

MA458 Abstract Algebra II (3)

The optional second semester of a unified course, this class will cover rings, factor rings, fields, ideals, factorization, extension fields, automorphisms and elementary Galois Theory. This course is recommended for those students who are interested in pursuing graduate studies in

mathematics. *Prerequisite: MA453.*

MA482 Topics in Mathematics (3)

This course will consist of selected topics to be chosen by the professor. This course may be repeated once for credit. *Prerequisite: Instructor approval.*

MA498 Tutorial Studies in Mathematics (1-3)

Individual study under the guidance of a faculty member. *Prerequisite: Instructor approval.*

Dr. Paul T. Plew, Chairperson

The Department of Music continually works to create for the entire student body an atmosphere which is conducive to cultural growth and an appreciation for the fine arts. As an institutional member of the National Association of Schools of Music, the department aims to give a well-balanced scope of many styles of music and opportunities for exposure to those styles.

The curriculum offered by the Department of Music is designed to serve the entire college community. Applied Music courses (private lessons, ensembles, etc.) are available to all students of the college for active music participation and development of individual musical skills. Additional courses are open as well for growth in the knowledge and expression of the musical arts.

Mission

The mission of The Master's College Music Department is to develop, with Biblical perspectives, individuals having an intrinsic desire to excel; to produce knowledgeable and skillful musicians through comprehensive musical training; and to promote intellectual understanding, artistry and community responsibility.

Degrees

Students select from two degrees and twelve emphases. The Bachelor of Music degree is offered in vocal performance, piano performance, performance with emphasis in piano pedagogy, instrumental performance, worship music ministries, music education, and composition. The Bachelor of Arts degrees include B.A. in Music, B.A. in Music with emphases in Biblical Studies, Communication, Audio Technology, and Youth Ministry. Degrees are designed to be completed in four years, but students who wish to take advantage of extra courses and ensembles may require additional sessions or satisfaction of requirements through CLEP or AP courses.

THE BACHELOR OF MUSIC degree is a professional degree designed for those with a strong music background who anticipate a vocation in music. It prepares candidates in comprehensive musicianship and performance skills for graduate school and a variety of music careers.

B.M. in Performance prepares students for a career in performance, teaching, or for advanced study in piano, voice, or an instrument. The program includes a breadth and depth of music studies to ensure a thorough foundation. Students must demonstrate satisfactory progress toward a performance degree by the end of the sophomore year in order to continue in the emphasis.

The B.M. in Piano Performance with Emphasis in Pedagogy allows piano majors who plan to teach the opportunity to focus on pedagogy through course work and practical experience.

B.M. in Worship Music Ministries is a progressive major that prepares students to reach the whole body of worshipers in evangelical churches. It equips them with a variety of skills in music and rhythm for praise teams, choirs of all ages, and orchestra; it includes training in sound systems, acoustics, and design. A major component, the area of leadership and organization, enables students to have good interpersonal relationships with staff and provides hands-on experience with an internship in a local church.

B.M. in Music Education equips the student with the necessary skills, understanding, and methodology to teach vocal, instrumental, and general music in the elementary/secondary school system. Certification begins after this four-year degree program since the State of California requires completion of a bachelor's degree before beginning the California teaching credential.

B.M. in Composition gives students the foundation to continue in graduate school or engage in one of many careers in music. Examples include composing, teaching, performing, and careers in the recording industry. Students acquire skills in instrumentation, arranging, and other aspects of composition, along with experiencing performances of their own compositions. Students learn to write both short and long forms in various representative musical and instrumental idioms, are encouraged to explore trends in modern music composition, and experiment with compositional styles in order to discover a personal compositional "voice."

THE BACHELOR OF ARTS degrees are for students with a musical background who desire

to achieve a solid education in music along with a significant amount of study in other areas. Performance requirements may be satisfied by a recital or a project.

The Bachelor of Arts in Music serves students who choose music as the focus of a broader, liberal arts education. The program offers flexibility in focus and course content. The wide range of learning coupled with the discipline music engenders opens doors in numerous music-related and non-music fields.

The Bachelor of Arts in Music with Emphasis in Biblical Studies provides a foundation in both music and selected areas of Biblical Studies such as counseling, Bible exposition, missions, languages, education, and more. It also serves as a valuable precursor to seminary or graduate study in music, as well as preparing entry-level music pastors and assistant pastors.

The Bachelor of Arts in Music with Emphasis in Communication gives rounded skills in both areas to prepare students for graduate school or for entry-level positions in a wide range of vocations. Examples include public relations, the recording industry, sound engineering, church music ministry, musical theater, music editing, music publishing, and teaching.

The Bachelor of Arts in Music with Emphasis in Audio Technology is designed to prepare students for working with the latest audio technology in numerous arenas in the media industry and in churches. Combined with their study in music, it becomes a unique preparation to better suit them for music recording and production.

The Bachelor of Arts in Music with Emphasis in Youth Ministry targets those preparing for a combined ministry in a smaller church requiring a broad grounding in music along with the ability to relate to youth and lead a youth program. It provides a background for graduate school or seminary with the expectation that those continuing in such a vocation would seek additional training in one of the two disciplines.

In addition, the department offers a minor in music, which offers grounding in the basics of music and worship, along with individual training and ensemble

performance opportunities. Music is so much a part of church life that the music minor is highly recommended to all who are involved in the church in any capacity. It also provides a well-rounded education for any major.

Due to the standards of the California Commission on Teacher Credentialing, students desiring to obtain a Single Subject Teaching Credential in Music should consult an advisor about specific course requirements.

Computer Lab

The Master's College music facilities include a computer lab that features Macintosh/Roland music work stations, each complemented with the most recent music notation and sequencing software application programs. Combined with a quality audio recording system and CD-ROM music library, The Master's College music student has access to the latest in computer generated composition, digital sequencer recording and educational technology. The Music Department offers courses in conjunction with the music technology lab that focus on equipping students with the abilities and experience to utilize the technologies available to the music profession.

Careers

A major in music provides discipline and whole-brain learning that prepares the conscientious graduate for success in nearly any field. The department strives to acquaint music majors with musical careers by inviting individuals from diverse sectors of the music field to share with students their experience and show what is available. A music degree opens many possibilities, such as the following

- Performer
- Educator
 - Elementary & Secondary
 - College & University
 - Private Studio
- Worship Music Ministries Personnel
- Pastor
- Music and Recording Industries Specialist
- Music Software Developer
- Community Arts Manager
- Performing Arts Administrator
- Composer/Arranger

- Conductor
- Music Librarian
- Music Therapist
- Ethnomusicologist

Concerts

The Master's College Music Department presents concerts each semester which include staged productions such as Opera Scenes, a "Come ChristmasSing" concert series, a major oratorio, choral concerts, the Wind Ensemble, Chamber Orchestra, various other instrumental ensembles, Jazz Band, and theater productions.

All students taking private instruction are involved in recitals each semester. In addition, the music faculty offers a variety of faculty performances. All musical performances are open to the college and the community.

Performing Groups

Vocal choirs include Collegiate Singers, a non-auditioned campus community choir, as well as three auditioned choirs: The Master's Chorale, Women's Chamber Choir and Majesty. Opera Scenes, also an auditioned group, performs one weekend a year. Instrumental groups include the Wind Ensemble, Chamber Orchestra, Jazz Band, various chamber ensembles, and handbell choirs. These groups present concerts on and off campus, and many tour annually within the United States and/or internationally. The Master's College Chorale and Majesty are requested by major Christian recording labels for nationally released albums.

General Requirements

Concert attendance and performance are necessary for all music majors to enrich their musical understanding. Enrollment in Concert Attendance and Collegiate Singers is required every semester.

Each student must choose a primary performance instrument and enroll in individual instruction and in that discipline's practicum every semester. All students enrolled in private lessons for credit are required to take an examination each semester at the discretion of the instructor. Students giving a recital must demonstrate that they meet the departmental standards for student recitals at a pre-recital jury; they must submit their entire program and be prepared to

perform it. Students must be concurrently enrolled in private instruction the semester a recital is given. Students completing a project must obtain approval by a faculty committee before beginning the project.

Vocal performance majors take six units of foreign language, including three units of Beginning Italian I. The other three units may be satisfied with Beginning Italian II, or beginning courses in German, or French, as offered. Expected proficiencies include a basic understanding of the grammar, beginning vocabulary, and skill in pronunciation.

A reasonable level of keyboard proficiency, required for most music degrees, may be met through Piano Foundations or by examination.

MU494 Church Music Internship (2)

A supervised experience in which the student observes, works with and then is observed and evaluated by church pastoral leadership.

Degree Completion Program

Mr. Wayne A. Dell, Director

The Center for Professional Studies program is designed to meet the needs of today's working adult learner. We understand the value, reward and challenge of completing your degree and have made every effort to make this pursuit as practical and convenient as possible. By design, the program is a compressed course of study and your class will meet for instruction only one evening a week for four hours, 6:00 – 10:00 p.m. You will learn in an interactive teaching/learning format conducive to the adult learning style.

The Center for Professional Studies offers a fully accredited bachelor degree in four various majors. The degree completion program can be completed in as little as 20 months, depending upon the major course of study selected and sufficient transfer units.

The major program is open to adults 25 and older who have a testimony of personal faith in Jesus Christ, a grade point average of 2.0 or better in all prior academic work from an accredited college, and an ability to write at the collegiate level.

At the Center for Professional Studies, you will be going through the program as a cohort, allowing you to work on one class at a time and enabling you to meet with the same classmates throughout the entire program. This provides an excellent opportunity for encouragement, support, accountability, camaraderie and lasting relationships while at the same time moving toward completion of your educational goals.

The classes at the Center for Professional Studies are kept small (typically 12-18 students), allowing for personalized attention. We believe that personalized discipleship enhances spiritual maturity and that personalized scholarship encourages the pursuit of individual academic excellence, as unto the Lord.

Admissions

The Master's College welcomes applications from all individuals who have a testimony of personal faith in Jesus Christ as Lord and Savior. The college is committed to a policy of non-discrimination on

the basis of ethnic origin or sex in its admission policies.

Admission Requirements

- Statement of Faith
- Minimum age of 25
- Sixteen (16) transferable units with a grade of "C" or better
- Ability to study and write at the collegiate level
- Completion of application forms and payment of the \$35 application fee

Application Process

To be considered for admission, the applicant should follow these steps:

1. Call to schedule an appointment with an enrollment counselor.
2. Complete and submit an application with the \$35 application fee.
3. Request official transcripts from all colleges or universities attended.
4. Distribute reference forms to appropriate individuals—Christian leader reference and personal reference.
5. Complete Financial Aid forms.

Once the application has been processed, notification of applicant's status will be provided in writing. A \$100 Registration Fee will be required upon entrance into the program. This fee reserves the student's place in their requested program.

International Students

The F-1 visa requires the CPS student to enroll in full-time studies for each semester. A full-time student in the CPS program is defined as a registered adult over the age of 25 who meets each of the following criteria:

1. Matriculates twelve (12) or more units per semester with no more than three (3) units taken as directed study or video instruction per semester counting toward the minimum of 12 units.
2. Enrolled in twelve (12) or more units for at least

**Applicants with low units should contact an enrollment counselor regarding the Degree Completion Program General Education School.*

- two of the three semesters per 12 month period.
3. Matriculates twenty-four (24) or more units per 12 month period.

Please note that a student may choose not to enroll in classes for one out of three semesters during a 12 month period without losing full-time status if they contract to return to CPS the following semester as a full-time student.

Failure to meet the above criteria will result in losing full-time student status and necessitate standard procedures for reinstatement.

Assessment

During enrollment in the Center for Professional Studies Degree Completion Program, students are required to do a considerable amount of writing, which must be done in accordance with college standards. Saturday morning workshops are offered, allowing those applicants who show a need for improvement an opportunity to learn and develop required skills.

Financial Aid

It is our hope that you would not let your thoughts about financing your college education prevent you from returning to college until you have familiarized yourself with the various options for making your Christian education affordable. Over the years we have assisted a great number of students in finding ways to finance their college education. Simply contact one of our enrollment counselors to learn about the possibilities for funding your college education.

Preparing for college does require advanced planning, especially in the area of faithful financial stewardship. The following are among the options that may be available to you depending on your qualifications:

1. Federal Pell Grants
2. Federal Family Educational Loan Program
3. Veterans Benefits
4. Employer Tuition Reimbursement

Any student wishing to apply for financial assistance in the Degree Completion Program should contact an enrollment counselor who will provide all

necessary applications and counseling to complete the application.

Degree Completion Majors

The Center for Professional Studies offers four major courses of study in addition to its School of General Education. Students may earn a Bachelor of Arts degree in Biblical Counseling, Christian Ministries, Liberal Studies, or Organizational Management.

Bachelor of Arts in Biblical Counseling

The Bachelor of Arts in Biblical Counseling program is based on the belief that the Holy Scripture, being God’s law and testimony, is true and should serve as the authoritative standard for the counseling of all soul problems. No authority is higher than the Word of God. Inspired and inerrant, it is sufficient for understanding and resolving life’s nonphysical, personal and interpersonal difficulties.

Biblical Counseling classes emphasize practice that combines counseling skills with the biblical foundation on which these skills are based. Counseling skills are refined through practicum courses. Class work and outside assignments are designed to give students the ability to implement their knowledge and skills immediately, not only in their personal lives, but also in ministry.

Recognized by the National Association of Nouthetic Counselors (NANC), the BABC degree is far more than a purely academic approach to counseling. Students are taught to understand and apply God’s Word with skill, integrity, authority and compassion. Ultimately, students not only have a degree in hand, but skills they can put to work wherever their career or ministry takes them.

Bachelor of Arts in Christian Ministries

The Bachelor of Arts in Christian Ministries has been designed to provide Christian adults with an in-depth understanding of the Word of God and help them acquire valuable ministry skills and tools while in the process of completing their bachelor's degree. For men and women currently involved in Christian ministry, the program provides immediate applicable knowledge and ministry-enhancing practical skills. For those considering entering or progressing in formal ministry or full time Christian work, this program provides rich insights into the character of God and helps individuals develop the personal and spiritual disciplines necessary to become an effective servant of Christ. The well-balanced curriculum features a comprehensive overview of both the Old and New Testament Scriptures, as well as an in-depth examination of the major theological foundations of the Christian church.

The purpose in presenting this study program is to see the student grow in his/her faith in the Lord Jesus Christ, in the knowledge of God's Word, and in ministry for the furthering of God's Kingdom.

Bachelor of Arts in Liberal Studies

The Bachelor of Arts degree in Liberal Studies was developed to accommodate the Christian who desires to acquire a wide range of skills that open opportunities in a variety of career and professional fields. Its purpose is to equip the Christian student for effective service within the public or private sector.

This innovative degree option is beneficial to students for a career in education and to provide preparation for those who desire to pursue the California Subject Examinations for Teachers: Multiple Subject Examination. Our Liberal Studies degree represents an optimum liberal arts curriculum. This interdisciplinary major presents an excellent alternative for those who are pursuing a broad based curriculum in preparation for entering graduate school. The student will receive a Christian worldview education that will permeate their philosophy and practice of education.

Bachelor of Arts in Organizational Management

The Bachelor of Arts in Organizational Management is designed to equip Christian adults with valuable management skills and tools while in the process of completing their bachelor's degree. For individuals currently involved in a business or organizational setting, the program provides immediate applicable knowledge and performance enhancing, practical skills. For those entering the vast arena of business and organizational settings, the program helps develop the personal and spiritual disciplines necessary to become an effective leader.

The curriculum is organized so that the courses offered in the first semester provide a basic understanding of the management field, the communication tools necessary to succeed and the framework for the Christian in the workplace. The second semester addresses specific dimensions in the field of management. For each of the courses, the educational process emphasizes the participative or inductive teaching style set in a Christian environment to achieve learning built upon the significant experience which the students bring to the classroom.

General Education

General Education Completion Options

Recognizing that the Center for Professional Studies (CPS) serves a nontraditional student body with responsibilities that make traditional day classes difficult to schedule, steps have been taken to make completion of General Education requirements more convenient for the adult student. There are

Please review the DEEP section of the catalog for more information.

School of General Education

The CPS School of General Education serves as a bridge to the Degree Completion Program for those adults with minimal college units. By enrolling in the School of General Education, these students can earn units and position themselves as qualified applicants for the accelerated Degree Completion Program. Additionally, the School of General Education offers students in the Degree Completion Program the opportunity to fulfill their general education requirements by attending weekly compressed classes on nights other than when the major program classes are held. A Christian worldview permeates every course; instructors are uniquely gifted and qualified.

Video Courses

There a number of video courses available from The Master's College, such as U. S. History, U. S. Government, English Literature, and World History. Students may take these videos home and complete the course work on their own schedule (within CPS guidelines).

Directed/Independent Study

Students may take individually-directed courses from CPS professors. CPS professors design these courses. Assigned work is to be completed by the students on their own.

Distance Education Extension Program CLEP Testing

There are several CLEP tests that can be administered by Career Services at The Master's College. Passing these tests provides college-level credit in such

courses as English Composition, Introduction to Psychology, Chemistry and many others.

Post Session

These courses, which are held both during the day and evening, are standard college classes which are compressed into an intense, three-week period of time. Post Session classes are scheduled during the weeks immediately following the beginning of the traditional college summer and winter breaks.

Prior Learning Assessment (PLA)

Prior Learning Assessment is a systematic process by which students may receive academic credit at The Master's College. The college-level learning that qualifies for credit must have occurred prior to entering The Master's College, either through informal life-learning or non-credit courses.

Center for Professional Studies Course Offerings

BIBLICAL COUNSELING

BIB300 Introduction to Biblical Counseling (3)

A general introduction to basic concepts and distinctive features of biblical counseling. Students will discuss what biblical counseling is and what it involves, the role of the counselor, different types of counseling that are needed, the place of counseling in the ministry of the church, how biblical counseling theory and practice relate to and differ from some of the more common secular models/theories. The course will also involve a personal improvement project in which the student will evaluate his/her own counseling qualifications, design a plan for improving some area of his/her life, put that plan into action and then evaluate his/her progress as the course draws to a close.

BIB311 Theological Basis of Counseling (3)

A consideration of the theological realities that form the basis of a proper approach to counseling. Special emphasis is given to the nature of God and of man (fallen and unfallen), a biblical definition of the image of God, the nature of sin, the realities of regeneration and progressive sanctification, the concept of "the flesh" (old man/new man), an understanding of the heart/mind as

used in Scripture, and the place of the local church in the ministry of counseling.

BIB316 Introduction to Psychology (3)

Introduction to the various schools of psychological thought. Designed to teach students of biblical counseling how to interact with the philosophical underpinnings of psychotherapeutic theory, including secular and Christian psychologies.

BIB321 Christian Theology (4)

A survey of Christian theology in the areas of God (Theology Proper), the Bible (Bibliology), angels (Angelology)-including Satan and demons, Christ (Christology), and the Holy Spirit (Pneumatology).

BIB330 Methods of Biblical Change (3)

An overview of the counseling process presenting a comprehensive methodological model for promoting biblical change in people; the goal is to encourage biblical thinking and procedures in the process of helping people. Prerequisite: BIB300

BIB332 Marriage & Family Counseling (3)

Marriage and family problems are present in the majority of counseling cases. This course will give an overview of general marriage and family counseling issues relating to the content and process of counseling. It will then proceed to specifically deal (from a biblical perspective) with the major difficulties that trouble marriages and family experiences. Included in the course are discussions of the biblical basis and purposes of marriage, family stages, in-law problems, developing unity, husband/wife roles and responsibilities, correcting communication problems, why conflicts arise and how to resolve them.

BIB362 Biblical Conflict Resolution (2)

This course is designed to help the student think biblically about conflict and how to respond to life's conflicts in a way that glorifies the Lord (I Cor. 10:31). In particular, the student will be taught a model and a plan for how to think about struggles in relationships and evaluate their own typical patterns of response. These principles apply to business and the church, but there will be a special focus on handling marriage difficulties.

BIB399 Counseling & Proverbs (2)

This course is an expositional study of Proverbs with special emphasis on its relevance to counseling.

BIB421 Problems & Procedures I (3)

These courses are designed to apply the biblical principles taught in the Methods of Biblical Change course (BIB330) to a range of specific counseling problems. Topics discussed include anger, fear, depression, sexual deviancy, anxiety, eating disorders, decision making, one's past, self-concept, various syndromes, ADHD, and crisis counseling. *Prerequisite: BIB300, BIB330.*

BIB422 Problems & Procedures II (2)

These courses are designed to apply the biblical principles taught in the Methods of Biblical Change course (BIB330) to a range of specific counseling problems. During the second semester of this course, each student will be part of a team that will develop and present to the class a detailed biblical counseling outline for a teacher-approved counseling problem. *Prerequisite: BIB300, BIB330.*

BIB431 Counseling Practicum I (2)

These courses are designed to consider the practical application of the principles of biblical counseling and the various methodological aspects of the counseling process. These courses will include student participation in counseling as counselors, counsees, and observers. These activities will form the basis of seminar discussions where counseling will be analyzed from a biblical perspective. The goal of these courses is to help the student learn, evaluate and sharpen practical counseling skills. *Prerequisites: BIB300, BIB330.*

BIB432 Counseling Practicum II (2)

These courses are designed to consider the practical application of the principles of biblical counseling and the various methodological aspects of the counseling process. These courses will include student participation in counseling as counselors, counsees, and observers. These activities will form the basis of seminar discussions where counseling will be analyzed from a biblical perspective. The goal of these courses is to help the student learn, evaluate and sharpen practical counseling skills. *Prerequisites: BIB300, BIB330.*

BIB441 Counseling & Youth (2)

This course is designed to help the student to understand the intense and frequent problems of young people. A thoroughly biblical understanding of young people and their problems, and a functional approach to counseling youth will be presented.

BIB450 Bibliology & Hermeneutics (4)

An introduction to inspiration, inerrancy and sufficiency of the Bible, as well as the science and art of Biblical interpretation. Special attention is given to the application of Scripture to counseling. Various interpretive approaches on key scriptural passages will be examined, especially as they relate to the biblical counselor and their task.

BIB455 Counseling, Discipleship & Local Church (2)

Emphasizes the Scriptural truth that the local church is the primary means by which God accomplishes His work in the world. Students will learn why the church is the best environment for counseling and the role counseling plays in supporting the discipleship ministry of the local church.

CHRISTIAN MINISTRIES**BIB302 Ministry Symposium (2)**

This course begins with a focus upon the tools and techniques for the adult learner. Critical skills for those transitioning into adult education such as time management, goal setting, reading improvement, goal setting, and study principles are examined. A brief foundation is laid for use of current technology in the classroom. This is followed by a discussion of three elements essential to ministry: a high view of God, a high view of God's Word, and a high view of the Church. Each of these theological components establishes the necessary foundation for building a philosophy of ministry.

BIB345 Bibliology and Hermeneutics (4)

The various hermeneutical systems demonstrating the soundness and superiority of the historical-grammatical approach to biblical interpretation are discussed. In addition, the doctrine of Bibliology and its foundational relationship to all of theology and ministry is presented. Finally, practical considerations in the study of God's Word are reviewed.

BIB347 Expository Research (2)

The student will be introduced to the methods of biblical

and theological research in terms of traditional library methods as well as various computer and on-line systems.

BIB349 Dynamics of Grace

The course will examine why the Gospel is the energizing truth that drives the believer's sanctification. In-depth attention will be paid to the spiritual discipline of ongoing faith in the Gospel ("preaching the Gospel to oneself each day"). Attention will also be given to the biblical connection between the Gospel and the believer's worship, walk, warfare, witness, oneness, and worldview. The practical theology of this course is designed especially to address the 'disconnect' which commonly exists between faith and life—between doctrine and practice.

BIB363 Christian Worldview: Apologetics and Evangelism (4)

This class will examine why biblical worldview is about Total Reality; not just about religious truth. It will equip the student to critique erroneous worldviews for the purpose of becoming effective in evangelism. The class will also examine the need for, and the methodology used in, presuppositional apologetics. It will also consider the appropriate use of Christian evidences, and their proper place in the apologetic presentation.

BIB385 Church History (4)

The final theology seminar presents an overview of church history tracing the growth and development of Christianity from the Apostolic Age to modern American Evangelism. Emphasis will be placed on the development of the major Protestant denominations and associations emerging from the different traditions of the Reformation era.

BIB383 God, Christ, Holy Spirit, Angels (4)

The first theology seminar will cover the major fields of systematic theology beginning with Prolegomenon and continuing with Cosmology, Theology Proper, Christology and Pneumatology. The areas of study will center on the biblical defense for these areas as well as an examination of classic understanding of these doctrines from church history.

BIB384 Man, Sin, Salvation, Church (4)

The second theology seminar covers the doctrinal subjects of Anthropology, Harmartiology, Soteriology, Ecclesiology, and Eschatology. In addition, a brief

discussion of the various Protestant theological systems will be included.

BIB481 Christian Education (2)

An introduction to the philosophy and process of Christian education for all age levels.

BIB482 Biblical Counseling (4)

The basic concepts and distinctive features of biblical counseling are introduced. Discussion in this course will include a description of what biblical counseling is and what it involves, the qualifications of biblical counselors, the roles of the counselor in biblical counseling and the role of the counseling in the ministry of the local church. Emphasis will be placed on the theological foundations of biblical counseling and the key aspects of progressive sanctification. In addition, practical suggestions will be given concerning the counseling process. Case studies will be utilized to enhance learning.

BIB483 Missions (2)

The biblical approach to missions and evangelism in the local church setting is presented. Examination of both local and international missions from a biblical perspective and a basic model of a local church missions program are discussed.

BIB486 Contemporary Issues in Church Ministry (4)

This course is designed to allow the student to make use of the theological material and skills acquired throughout the program. Along with short research papers in which students will interact with various issues and challenges facing the contemporary church, they will also identify and present in written form the philosophy of ministry, statement of leadership philosophy, doctrinal foundation, and curriculum strategy they would use to start a new church.

LIBERAL STUDIES

BIB305 Traditions and Transitions (3)

The tools and techniques for adult learners are the focus of this course. Critical skills for those transitioning into adult education such as becoming a master student, time management, goal setting, communication techniques, and study principles are examined.

BCW400 Christian World View (3)

A study of the application of biblical data to contemporary culture, science and the arts so as to define a Christian world view, integrating liberal arts learning with biblical truth. Beginning with issues of epistemology, the student will be exposed to the relationship between the Bible and natural science and the humanities, concluding with an emphasis upon the apologetic value of the world view to modern life.

BTH321 Christian Theology I (3)

A Survey of Christian theology in the areas of God (Theology Proper), the Bible (Bibliology), angels (Angelology), including Satan and demons, Christ (Christology) and the Holy Spirit (Pneumatology).

C471 Intercultural Communications (3)

Analysis of theories and techniques of the process of communication between persons of different cultures or subcultures. Includes the development of issues-related interpersonal communication that bridges or enables closer and more transparent communication across the cultures.

E334 The Short Story (3)

A study of short fiction from masters of the short story genre. Explores the fictional elements, techniques, themes and interpretation of representative works from classic and contemporary authors. Includes attention to the historical development of the genre.

E477 C.S. Lewis (3)

A study of the life of C.S. Lewis as viewed through the perspective of his writing, his faith, his discovery of the truth through awakening of the Spirit and the intrinsic development of his writing. Includes a thorough analysis of how Lewis's faith not only infused his writing, but helped him to become one of the great communicators and apologists of the Christian faith in later 20th century.

E497 Advanced Writing Development (4)

Advanced Writing Course emphasizing the development of thought, critical structure of thought development into coherent writing discourses. Explores grammar and usage as well as Classical Rhetoric which broadens conceptual depth and content and looks to refine stylistic and organizational repertoire in expression. Involves extensive practice in written and oral presentations.

H311 Christian Political Thought (3)

A study of major Catholic and Protestant political ideas from Augustine and Aquinas through the Reformers. Analysis stresses comparison of each with Scripture.

H391 Development of Christian Western Thought (3)

A study and analysis of the development of Western political ideas and their import on the development of Christian Western Thought including the early adoptive ages of the Puritans, the Founding Period, through the Jeffersonian era to the present. Students will learn why Western political thought and ideas were formed while the nation also matured under the authority of the Scriptures bringing order to bear on a lawless new frontier and society.

HU479 Arts in Culture; Music, Film, Art (3)

This course surveys the major periods, media, and styles of art, music, and film. A major goal is to establish historical and cultural aspects of the medium of the three perspectives of the visual and performing arts. Students will examine the connections to the worldview expressions of artists, musicians, and film makers.

PS328 Oceanography (4)

The biological, chemical, physical, and geological aspects of the world's major oceans are studied. Particular attention is paid to the Southern California coastline. The laboratory consists of field studies and laboratory analyses and evaluations. Prerequisites: LS140 or LS 251 and upper division status. (Lab fee \$55)

PS338 Astronomy (4)

Methods of measurement and observation in astronomy are studied from a historical perspective. The solar, stellar and galactic systems are studied in detail accompanied by observations. Various cosmological viewpoints and their underlying assumptions are presented.

SS381 Cultural Geography (3)

An examination of human geography, including world-wide patterns and developments concerning demographics, race, language, religion, industrialization, urbanization and ecology. Locations of all the world's nations will be learned during studies of regional geography.

ORGANIZATIONAL MANAGEMENT

BIB301 Biblical Business Thinking and the Christian Worldview (2)

This course is designed to re-introduce the student into the rigor of college life. Academic skills such as becoming a master student, time management, goal setting, and study principles are examined. The process of critical thinking and analysis as well as the concept of a Christian worldview will be covered. Identification and study of the characteristics of successful leaders and the traits they exhibit in everyday decision making responsibilities.

BIB453 Biblical Ethics in the World of Business (4)

This course discusses the current thought and application of secular situational business ethics and how it affects our society and the market place. These ethics are compared and contrasted to biblical ethical standards. This course directly instructs the Christian in practicing moral decision-making based on the Bible.

MGT335 Organizational Communication (6)

The principles of communication within an organization are presented. Effective communication methods, both oral and written, will be taught and practiced with an emphasis in using the proper communication method for any given situation.

MGT345 Business Law (3)

A study of legal theory as it applies to the everyday business world inhabited by organizational managers. The student studies the principles of business law and the legal environment including the legal process, contracts, commercial relations, business formations, and special topics such as property, environmental law, labor-management relations, and international law.

MGT409 Leadership Principles & Strategic Management (3)

Includes an introduction of both secular and biblical examples of leaders and how Christian ethics make a difference in their leadership role. The student is confronted with organizational management issues faced by a manager in today's marketplace. The course assists students in conducting strategic analyses and making strategic decisions while emphasizing the ability to defend the recommendations that are made.

MGT411 Organizational Management (4)

A study of organizational structure, its processes and associated human behavior in a constantly changing environment. Management is presented in terms of the four major functions: planning, organizing, leading, and controlling. A comparison of Organizational Behavior and biblical principles are discussed.

MGT413 Human Resource Management (3)

This course explores organizational policies and practices of recruitment and selection, change and development, compensation and benefits, safety and health, employee and labor relations, and legislation. This course will integrate the above policies with strategically helping management obtain organizational goals.

MGT425 Strategic Marketing in a Global Setting (5)

Basic marketing theory and terminology in a global environment are presented. Students will have the opportunity to analyze real-world cases, explore domestic and international situations and problems, identify and evaluate critical marketing data, and present their solutions to complex global marketing issues.

MGT430 Technology and Organizational Decision-Making (2)

This course will present an effective overview of today's complex and ever-changing technologies and assist the student/manager in the organization to frame and choose the technological tools available only as they ultimately contribute to enhancing the mission of the organization and effective decision-making by the manager.

MGT435 Financial and Managerial Accounting (4)

Financial concepts and tools for the organizational manager are presented. The objectives of the course are to study and understand the general concepts of financial and management accounting, to understand these concepts in relation to "real world" organizational activities, and to learn how to perform analytical functions essential to successful organizational management.

MGT461 Management Project (4)

This course is used to finalize preparation of the student's curriculum portfolio and to measure the student's academic achievement in the Organizational Management's subject matter. The course is designed to take knowledge learned

in the OM curriculum and construct a viable action plan that could be used for the capitalization of a small business start-up or buyout. The overall objective is that the students develop the knowledge and skills necessary to own and/or operate a small company that effectively uses biblical principles and Christian ethics that honor the Lord. This course would also be practical for students conducting an operational business plan within their existing place of employment.

Online Learning Catalog

Mr. James McLaughlin, Director

The Master's College Online allows conservative evangelical believers worldwide to experience the academic excellence and spiritual influence consistent with the college's on-campus programs. A variety of baccalaureate-level Biblical Studies and General Education courses are available in a fully online learning community taught by TMC faculty from a distinctively biblical worldview. The Master's College Online provides transferrable courses and a Bible Certificate to complement on-campus degree programs at TMC or other universities. Both for-credit and audit enrollment options exist to enrich local church membership and equip individuals for church ministry.

INTENDED AUDIENCE

Individuals who could benefit from TMC Online classes include prospective undergraduate students, the college's currently enrolled students, academically strong 11th and 12th grade high school students, and students needing selected general education courses for transfer purposes. Church members desiring a rigorous study of the scriptures and college-age international students being mentored by a missionary will also find TMC Online courses to be an excellent equipping resource, whether taken for credit or audit.

ONLINE COURSE FORMAT

TMC Online courses are delivered through Joule, an online learning community, complete with streaming video and podcasts, PDF handouts, Power Point slides, and interactive discussion forums. All course assignments are delivered and submitted weekly via the course home page, and exams are taken fully online. Online courses are accelerated to an eight week format and therefore require logging in frequently and consistently (daily is recommended) for the student to succeed.

ENROLLMENT OPTIONS

Courses can be taken for credit to receive baccalaureate-level semester units or audit which is an ungraded, non-credit option. All new students must go through the TMC Online admissions process, or be accepted to one of the TMC degree programs. Admission to the TMC Online program does not necessarily guarantee future admission to the College's undergraduate programs, but the educational experience can be a great segue for being full-time enrollment in TMC's degree programs. Current students may register for online courses during their normal semesters or as post session (e.g. during summer break) with the help of their academic advisor

APPLICATION PROCEDURE

In order to be admitted to TMC Online, the applicant must (at minimum) have completed the tenth grade of high school. He or she must be able to give a clear, one or two page written personal testimony explaining the basis of his or her salvation with hope of eternal life with scriptural support. All applicants must be in general agreement with doctrinal position of the College, and be in consistent attendance at a local church. In addition, the applicant must submit a Pastoral Reference and official transcripts from the most recently attended school or university.

If the course is being taken for credit, exam proctoring may be required. Student with a proctored

exam requirement must submit a Proctored Testing Agreement Form signed by an approved proctor. For exams requiring proctoring, the student will be responsible to schedule a time with their proctor to take a test during the week it is assigned. The proctor will monitor the student in the taking of tests to make sure that test procedures are being followed.

The TMC Online application materials are available on the website
(www.masters.edu/admissions/onlineeducation)

Application materials can be sent to:
The Master's College Online
21726 Placerita Canyon Road
Santa Clarita, CA 91321

COURSE ADMINISTRATION PROCEDURES

Accepted applicants will receive a username and password and instructions for registering on MasterNet (www.masters.edu/masternet). A TMC email account will also be provided for all correspondence pertaining to registration and classes. On or before the course start date, all registered students will be sent course home page access. Streaming video lectures or podcasts are built into the course web pages so the student can access them at any time. If the student cannot use the streaming video because of system limitations, a DVD set may be purchased. Once the course begins, students should plan to spend approximately ten to fifteen hours per week completing the required scheduled activities, which may include viewing lectures, completing assignments, and participating in discussion forums and group projects.

The audit student will be expected to watch the lectures according to the course schedule on the Joule website, and they are encouraged to participate in threaded discussions with their classmates and instructor. They can complete the class reading and assignments on an ungraded basis if they desire, but they will not have access to exams. Audit students should generally expect a workload of approximately four hours of video lectures per week.

TRANSFERRING COURSES

The Master's College Online courses are accredited by the Western Association of Schools and Colleges (WASC) and can be transferred to other universities

as baccalaureate-level semester credit. Each school has unique policies for what curriculum is required and which courses they will accept for transfer. The Master's College Online cannot guarantee that courses will fulfill curriculum requirement at any other university and recommends that the student check with the university's Registrar before enrolling to determine if our courses fulfill their requirements. This can easily be done by sending them the catalog course descriptions found here or on the website. (www.masters.edu/academics/onlineeducation/course-descriptions).

COURSE DESCRIPTIONS

BIBLICAL STUDIES

B101, B102 Old Testament Survey (3,3)

An introduction to the entire Old Testament, employing both thematic and exegetical methods. Literary structure, historical background, and parallel passages are also utilized to discover the unique and priceless lessons of each book. The first course surveys Genesis through Samuel, and the second covers Kings through Malachi.

B201, B202 New Testament Survey (3,3)

An introduction to the books of the New Testament, with special emphasis on the life, teachings, and redemptive work of Christ, the founding and growth of the church, and the teachings of the Epistles and Revelation. On the basis of the biblical text, parallel readings, projects and lectures, the events and messages of the New Testament will be portrayed against their historical and cultural setting. The first course surveys the Gospels and Acts, while the second is devoted to the Epistles and Revelation.

BTH321 Christian Theology I (3)

A survey of Christian theology in the areas of God (Theology Proper), the Bible (Bibliology), angels (Angelology) including Satan and demons, Christ (Christology), and the Holy Spirit (Pneumatology).

A survey of the field of philosophy: its vocabulary, aims and purposes; the great systems of speculative thought; the leading thinkers.

LS200 Foundations of Science (3)

An introduction to the history, development and influence of science on the other academic disciplines. The impact of science on patterns of thought and society in general will also be addressed. How science functions today in various disciplines, how it has functioned historically and what it can and cannot produce as an outcome will be emphasized.

MA240 Critical Thinking and Problem Solving (3)

This course empowers students to use the tools of math to understand the 'what' the 'why' and the 'wherefore' of the universe around them. This course focuses on facilitating quantitative reasoning ability, thinking logically and critically, and how to provide accurate information to supply a basis for analysis of new information and the making of wise decisions.

Online Bible Certificate Program

Mr. James McLaughlin, Director

The Master's College offers an intensive Bible certificate program designed to give students a deeper understanding of God's Word and aid the church in equipping individuals for ministry. Providing students with the opportunity to build a solid foundation on the Word of God, the TMC Online curriculum offers a systematic study of the Bible and Theology in a flexible online learning environment.

Through the Online Bible Certificate, students gain a practical working knowledge of God's Word and the ability to express that knowledge. In addition to solid Bible training, upon completion of the Bible Certificate, two additional opportunities are available. First, a student may transfer the equivalent of one year of units into the baccalaureate program at The Master's College to complete a bachelor's degree. Second, the coursework is transferable to any other Christian college since The Master's College is accredited by the Western Association of Schools and Colleges (WASC).

The Master's Institute

Dr. Thomas A. Halstead, Director

The Master's College offers individuals the opportunity to study the Bible in a systematic manner through The Master's Institute (TMI).

The Institute, a unique program offered by The Master's College, is an intensive one-year Bible certificate program designed to help students grow and mature in the Word and aid the church in "equipping the saints". Providing students with the opportunity to build a solid foundation on the Word of God, the Institute's curriculum offers a systematic study of the Bible and Theology. Through TMI, students gain a practical working knowledge of God's Word and the ability to express that knowledge.

However, The Master's College recognizes that just an academic knowledge of the Bible is not enough; knowledge needs to be expressed in serving the needs of other saints. To facilitate such service, the Institute helps students discover how they can effectively use their spiritual gifts to serve others. The Master's Institute faculty and staff assist students in finding areas of voluntary service where they can build up the Body of Christ and share the Gospel with unbelievers.

In addition to solid Bible training, upon completion of The Master's Institute, two additional opportunities are available. First, a student may transfer into the baccalaureate program at The Master's College and still complete a bachelor's degree in four years. Second, The Master's Institute coursework is transferable to any other Christian college since The Master's College is accredited by the Western Association of Schools and Colleges (WASC).

Full-Time Status for International Students

The full-time course load for a student in the Bible Certificate program is a minimum of 12 units per semester.

The Master's Institute meets the need for foundational biblical education for the following people:

- Recent high school graduates, or those over 18 years of age;
- College graduates and professionals who desire biblical training to help them penetrate their unique spheres of influence with the Gospel;
- Students in their college years who see the need for Bible training before continuing their higher education;
- Those in the midst of college who see the need for Bible training before continuing their higher education;
- Those preparing for ministry in the mission field or for seminary;
- Men and women of all ages who desire some basic Bible training to effectively use their spiritual gifts in ministering in the local church.

Course Information

The Master's Institute curriculum is comprised of 32 units of Bible courses as follows:

B101,102	Old Testament Survey I, II.....	3,3
B201,202	New Testament Survey I, II.....	3,3
BTH321,322	Christian Theology I, II.....	3,3
	Bible Electives	12
	<i>Total units required for certificate.....</i>	<i>30</i>

A Certificate in Bible is given upon satisfactory completion of the above courses. The program may be completed in one year, or may be extended if desired. In order to receive a certificate of completion, a minimum cumulative GPA of 2.0 must be maintained.

APPLICATION PROCESS

Anyone interested in attending The Master's Institute should contact The Master's College Office of Enrollment (800-568-6248) for an application.

Dr. Kurt Hild, Chairperson

The Master's College is authorized to recommend candidates for both California Multiple and Single Subject Preliminary teaching credentials. The purpose of the credential program is to enable students to become excellent teachers who integrate faith into teaching, learning, and living.

A major in teacher education is not acceptable for a California credential. Instead, credential candidates are expected to complete an undergraduate major that will prepare them in the content area(s) they will teach. In most content areas, candidates must also pass a subject matter examination.

Following the subject matter preparation and the posting of a bachelors degree, candidates complete a series of graduate level courses that prepare them to teach the subject(s) authorized by the credential, to teach special education and English learners in the regular classroom setting, and to gain other information and skills needed to obtain a credential.

Admission Requirements for the Teacher Credential Program

Students must complete separate admission processes to be admitted to BOTH the college and to the Teacher Credential Program. No Teacher Credential Program courses can be taken prior to admission to the graduate level Credential Program.

Application for admission to the Teacher Credential Program is normally submitted during the first semester of a student's senior year. A student must have taken the California Basic Educational Skills Test (CBEST) and must have at least a 2.75 cumulative grade point average for admission to the program. Additional admission requirements and information about the admission process are available in the Teacher Education Office.

NOTICE: It is important to check with the Teacher Education Department for updates regarding any modifications and/or additions to the stated list of courses and requirements. Periodically, the State of California mandates changes in program

structure and content, which the college is required to implement.

Requirements for Preliminary Multiple Subject Credential

Students interested in obtaining a Multiple Subject Credential (which authorizes teaching in public elementary schools and other self-contained classrooms) must:

1. Earn a bachelor's degree at a regionally accredited college or university.
2. Prove subject matter competence and become No Child Left Behind (NCLB) compliant by taking and passing the California Subject Examination for Teachers (CSET)- Multiple Subjects.
3. Complete a state-approved program of credential coursework that includes authorization to teach English learners in the regular classroom.

Meeting Requirement 1:

The Master's College Liberal Studies/teacher education bachelor's degree program has been approved by the California Commission on Teacher Credentialing. Its design is based on the same content standards that were used to develop public school curriculum in elementary schools. The CSET examination was developed using these same standards, so this major provides the best preparation for the examination. It also includes early classroom experiences and courses that build background knowledge for the credential courses. The requirements for this major are explained in the Liberal Studies section of this catalog.

Meeting Requirement 2:

Take and pass the California Subject Examination for Teachers (CSET) before beginning student teaching.

Meeting Requirement 3:

The Master's College has a State-approved credential program for the Preliminary Multiple Subject Credential. It consists of prerequisites, the

credential courses, and other requirements.

Prerequisites or concurrent enrollment (part of the Liberal Studies-teacher education major):

- ED400 Foundations of Education
- ED410 Technology Uses in Education

Credential Courses (some courses must be taken concurrently):

- ED500 Practicum 3
- ED510 Teaching Reading/Language Arts in Elementary School..... 5
- ED530A Teaching Strategies for Elementary Mathematics and Science.....2
- ED530B Teaching Strategies for Elementary Social Studies, Visual and Performing Arts, and Physical Education.....2
- ED550 Teaching Strategies/English Learners..... 2
- ED560 Differentiation for Exceptional Learners 2
- ED570 Colloquium 2
- ED580 Elementary Student Teaching..... 12

Before Applying for Credential:

- POL220 U.S. Government 3
(a graduation requirement at TMC)
- E322 Children’s Literature 3
(part of the LS/te major)

Take and pass the Reading Instruction Competence Assessment (RICA)

Students entering The Master’s College as freshmen normally take 8 semesters to complete the Liberal Studies-teacher education bachelor’s degree program. The credential program consists of two additional semesters: one semester of coursework with field work and one semester of student teaching.

Once a candidate obtains a Multiple Subject Preliminary Credential, he or she may teach for five years while completing the requirements for the Clear Credential.

Requirements for Preliminary Single Subject Credential

Students interested in obtaining a Single Subject

Credential (which authorizes teaching in junior high or senior high school) must:

1. Earn a bachelor’s degree at a regionally accredited college or university.
2. Prove subject matter competence by passing the California Subject Examination for Teachers (CSET) or completing an approved subject matter program.
3. Complete a State-approved program of professional coursework that includes authorization to teach English learners in the regular classroom.

Meeting Requirement 1:

Any major earned at The Master’s College meets this requirement. The Master’s College offers bachelors degrees in the following areas, which are commonly taught in public schools: English, Music, Physical Education, Biology, History/Social Science, Mathematics and Home Economics.

Meeting Requirement 2:

All students completing a bachelor’s degree at The Master’s College must take and pass the California Subject Examination for Teachers (CSET) in the appropriate subject matter area before beginning student teaching.

Meeting Requirement 3:

The Master’s College has a State-approved credential program for the Preliminary Single Subject Credential. It consists of prerequisites, the credential courses, and other requirements.

Prerequisites or concurrent enrollment (may be completed as part of the undergraduate major):

- ED400 Foundations of Education
- ED410 Technology Uses in Education

Credential Courses (some courses must be taken concurrently):

- ED500 Practicum 3
- ED520 Teaching Reading in the Secondary School.....3
- ED540 Teaching Strategies in the Secondary School..... 6

POL220	U.S. Government.....	3
--------	----------------------	---

(a graduation requirement at TMC)

Students entering The Master’s College as freshmen normally take eight semesters to complete the bachelor’s degree program. The credential program consists of two additional semesters: one semester of coursework with fieldwork and one semester of student teaching. Once a candidate obtains a Single Subject Preliminary Credential, he or she may teach for five years while completing the requirements for the Professional Clear Credential.

Course Offerings in Teacher Education

ED101 Freshman Integration Seminar (1)

The Freshman Integration Seminar links the content of college coursework in the Liberal Studies-teacher education major to teaching competencies.

ED202 Sophomore Integration Seminar (2)

The Sophomore Integration Seminar links the content of college coursework in the Liberal Studies-teacher education major to teaching competencies. It examines characteristics of K-8 students and links them to developmentally appropriate teaching strategies. Included are six (6) hours of planned, structured experiences in K-8 classrooms.

ED210 Classroom Participation (1,3)

A pre-professional course intended to give the prospective teacher experience as a teacher aide in the classroom. The student selects two schools in which to serve for a total of 10 hours per unit. Recommended for students uncertain about entering either elementary or secondary education professions.

ED301 Junior Integration Seminar (2)

The Junior Integration Seminar links the content of college coursework in the Liberal Studies-teacher education major to teaching competencies. It introduces students to cultural and linguistic factors that must influence decisions about teaching and classroom management.

ED400 Foundations of Education (3)

A course designed to introduce student to processes in today’s elementary and secondary classrooms. Includes the study of underlying philosophical bases; and introduction to the California State Teaching Performance Expectations; learning about students, establishing academic learning goals, planning instruction, designing instructional strategies, assessing student learning; and maintaining an effective learning environment. Requires twelve (12) hours of observation and participation in the classroom. *Seniors Only (Course Fee \$15)*

ED402 Senior Integration Seminar in Liberal Studies (3)

The Senior Integration Seminar assists the student in integrating the content and skills taught in the various major courses. It requires the integration of biblical world view principles into the disciplines. It also links the content of college coursework in the Liberal Studies-teacher education major to teaching competencies. The student is prepared for the summative assessments for graduation and also for the subject matter program of the multiple subject credential.

ED410 Technology Uses in Education (3)

An in-depth, hands-on study of how current technologies are used in the elementary and secondary school classroom. Topics discussed include Computer Assisted Testing, Computer Managed Instruction, Web site management, and communication with various technologies. Class meets the state technology preliminary credential requirement. *(Course fee \$20)*

ED500 Practicum (3)

A professional education course that requires classroom experience in all content areas of the public school curriculum. Weekly seminars address teaching strategies and unit planning. Training for CalTPA tasks and the completion of “Subject Specific Pedagogy,” and “Designing Instruction” are part of the course. (Course

fee \$15). *Prerequisites: Admission to the Multiple or Single Subject Credential Program. Concurrent enrollment in ED510 and ED530 or ED520 and ED540.*

ED510 Teaching Reading/Language Arts in Elementary School (5)

A professional education course designed to enable prospective teachers to develop an initial theory of integrated reading and language arts. Emphasis is placed on principles, strategies and materials compatible with children's developmental levels and California content standards. Addresses unique needs and instruction of diverse populations, including English learners. Approved course for preparing students for the Reading Instruction Competence Assessment (RICA). (Course fee \$30). *Prerequisites: Admission to the Multiple Subject Credential Program. Concurrent enrollment in ED550.*

ED520 Teaching Reading in the Secondary School (3)

A professional course designed to expose prospective teachers to effective ways of teaching reading to learn in secondary content classes. Attention is given to selection and use of textbooks; teaching writing patterns and comprehension strategies appropriate to various content areas; informal assessment of students and ways of adapting assignments to varying reading levels. Fifteen (15) hours, of classroom fieldwork and observation in reading are required. (Course fee \$15). *Prerequisites: ED410 and ED400; admission to the Teacher Credential Program.*

ED530A Teaching Strategies for Elementary Health, Mathematics, and Science (2)

A professional education course dealing with strategies for teaching elementary health, mathematics and, science with the guidelines set in the respective California content standards for K-12 public schools and the English Language Development Standards. (Course fee \$15) *Prerequisites: Admission to the Multiple Subject Credential Program. Concurrent enrollment in ED550.*

ED530B Teaching Strategies for Elementary Social Studies, Visual and Performing Arts, and Physical Education (2)

A professional education course dealing with strategies for teaching elementary social studies, visual and performing arts, and physical education with the guidelines set in the respective California content standards for K-12 public

schools and the English Language Development Standards (Course fee \$15). *Prerequisites: Admission to the Multiple Subject Credential Program. Concurrent enrollment in ED550.*

ED540 Teaching Strategies in the Secondary School (6)

A professional education course dealing with strategies for teaching in the secondary school using the guidelines set in the respective California framework and content standards for K-12 public schools and the English Language Development Standards. Student assignments are completed in his or her subject matter area. Ninety (90) hours, including those in ED520, ED550 and ED560, of classwork observations and fieldwork required. (Course fee \$30). *Prerequisites: Admission to the Single Subject Credential Program. Concurrent enrollment in ED550.*

ED550 Teaching Strategies/English Learners (2)

A professional education course that presents the concepts, methods, and skills for teaching English to speakers of other languages in regular classrooms. Emphasis is on the principles of first and second language acquisition, assessment of student learning and how to provide comprehensible input. Includes the history and current practices of language teaching and addresses cultural issues related to learning. *Prerequisites: Admission to the Teacher Credential Program.*

ED560 Differentiation for Exceptional Learners (2)

Provides the basic knowledge, skills and strategies, including Differentiated Instruction and Response to Intervention, for teaching the core curriculum to special populations in the general education classroom. Addresses students with disabilities, students on behavior plans and gifted and talented students. *Concurrent enrollment in ED550 Practicum.*

Full-time supervised teaching experience in approved

elementary schools. The candidate is assigned to two different eight week assignments: one in a primary grade where beginning reading is taught and one in an upper elementary grade. Open only to graduates in the Teacher Credential Program who have completed their subject matter and professional preparation. (Student Teaching fee \$200) *Concurrent enrollment in ED570.*

ED590 Secondary Student Teaching (12)

Full-time supervised teaching experience in approved secondary schools. The candidate in assignment to two different eight week assignments: one in junior high school and one in a senior high school. Open only to graduates in the Teacher Credential Program who have completed their subject matter and professional preparation. (Student Teaching fee \$200) *Concurrent enrollment in ED570*

Master of Arts in Biblical Counseling

Dr. John D. Street, Chairperson

The Master of Arts in Biblical Counseling (MABC) is a graduate program intended to equip men and women for practical excellence in biblical counseling. The content of the courses emphasizes the practical skills of counseling without neglecting the solid biblical foundation on which these skills are built. The classes, homework and reading assignments can be practically implemented in each student's life and ministry immediately. Each course the student takes will enhance his/her walk with God and ministry. The MABC degree is designed to help people to study, use and know Scripture more effectively in their own lives and in their counseling ministries with others. Our goal is to produce men and women who understand God's Word as it applies to the exercise of the spiritual gift of counseling under the oversight of a local church.

The MABC program is designed to equip teachers, pastors, missionaries, elders, deacons and the other Christian workers to counsel in ministry settings and is not structured to meet state requirements for licensing. It does meet requirements for certification with the National Association of Nouthetic Counselors (NANC). Vocational opportunities after graduation include ministry positions in local churches, chaplaincies, Christian colleges, Christian schools, crisis pregnancy centers, children's homes, rescue centers, and mission agencies. Even those whose primary responsibility is not counseling find that the MABC program provides invaluable training because it helps them understand themselves and others, and improves their overall effectiveness on the job, in personal relationships, and to their local church.

Philosophy of Counseling

The Holy Scripture, being God's law and testimony, is true and should therefore serve as the Christian's standard for all matters of faith and practice (Isaiah 8:19-20; 2 Peter 1:3). There is no authority that is higher than the one found in Scripture. Wherever and on whatever subject Scripture speaks, it must be regarded as both inerrant and authoritative.

There have always been people who have affirmed the inerrancy and authority of Scripture in matters of faith and practice, but who would not affirm

the sufficiency of Scripture for understanding and resolving the spiritual (non-physical) problems of man. These people acknowledge Scripture to be the Word of God and are therefore worthy of our respect, but when it comes to understanding and resolving many of the real issues of life, they think that Scripture has limited value. It is, therefore, crucial that we clearly articulate what Christian counseling truly is. There are four distinguishing features of truly Christian counseling as explained below.

Christ-Centered Counseling

Christian counseling is conscientiously and comprehensively Christ-centered. It focuses on who Christ is, what He has done for us in His life, death, resurrection and in sending the Holy Spirit. Christ-centered counseling also focuses on what He is doing for us right now in His intercession at the Father's right hand, and what He will yet do for us in the future. In Christian counseling, the Christ of the Bible is not an appendage or a "tack on" for living in the fast lane. Rather, He is at the center as well as the circumference, and everywhere in between, of counseling.

Christ-centered counseling involves understanding the nature and causes of our human difficulties. It involves understanding the ways we are unlike Christ in our values, aspirations, desires, thoughts, feelings, choices, attitudes, actions and responses. Resolving those sin-related difficulties includes being redeemed and justified through Christ, receiving God's forgiveness through Christ and acquiring from Christ the enabling power to replace unChristlike (sinful) patterns of life with Christlike, godly ones.

Salvation-Centered Counseling

A Christian counselor is also conscientiously and comprehensively Christian in his/her outlook on life. Truly Christian counseling is done by individuals who have experienced the regenerating work of the Holy Spirit, and have come to Christ in repentance and faith, acknowledging Him as Lord and Savior of their lives. These are also people who want to live in obedience to Him; people whose main concern in life is to exalt Him and bring glory to His name. They are people who believe that, since God did not spare His own Son (from and on the cross) but delivered Him up (to the cross and death) for us (on our behalf and in our stead, as our substitute), He will freely

through Christ give us all that we need for effective and productive living (for transforming us into the very likeness of His Son in the totality of our being). Biblical, Christian counselors also acknowledge the role of the Holy Spirit in regenerating, saving, and sanctifying the believer. Truly Christian counseling is done by those whose theological convictions influence, permeate and control their personal lives and their counseling theory and practice.

Bible-Centered Counseling

Truly Christian counseling is conscientiously and comprehensively based on the Bible, deriving its understanding of who man is, the nature of his main problems, why he has these problems, and how to resolve these problems from Scripture. In other words, the counselor must be conscientiously and comprehensively committed to the sufficiency of Scripture for understanding and resolving all the nonphysical personal and interpersonal sin-related difficulties of man.

Church-Centered Counseling

Another distinguishing feature of truly Christian counseling is that it will be conscientiously and comprehensively church-centered. Scripture makes it clear that the local church is the primary means by which God accomplishes His work in the world. The local church is His ordained instrument for calling the lost to Himself and the context in which He sanctifies and changes His people into the very likeness of Christ. According to Scripture, the church is His household, the pillar and support of the truth and the instrument He uses in helping His people to put off the old manner of life and to put on the new self (cf. 1 Timothy 3:15; Ephesians 4:1-32). Credibility in counseling comes when it is done under the authority of the church and its properly appointed leadership, not from state licensure.

Resident Program

Program Distinctives

The MABC-Resident is offered in two tracks. First, a 35 semester unit program with a thesis, designed to be completed in one to two years. Second, a 40 semester unit track with no thesis, designed to be completed in two to three years. They are available to residents of the greater Los Angeles area or others who are able to move the area. Courses are held at

night, Monday through Thursday, allowing students to continue to work in their present occupations and ministries while completing their degree program.

Program Length

While this program may be completed in one or two years, students may also extend the program length past the recommended two years. In order to complete the 36 semester hour track of the Master of Arts in Biblical Counseling, a 120-page thesis (also referred to as the Research Project) must be submitted and approved. The thesis may be completed after a student's coursework has been completed. If the student opts to take the non-thesis semester track, the length of the program may have to be extended (but not necessarily).

Full-Time Status for International Students

The full-time course load for a student in the MABC program is 8 units per semester.

Remote Library Access

In order to facilitate research from off campus locations, the college library provides remote access to many of The Master’s College’s online databases. This access allows the student to search the available databases from any computer off campus that has an Internet connection. Currently The Master’s College has over 20 databases available with remote access. Students are welcome to contact the library directly if they need help with their research needs.

Summer Institute Program

Program Distinctives

The MABC-SIP, established in 1998, is a 36 (Thesis Track) or 40 (Non-Thesis Track) semester unit, non-conventional curriculum designed for individuals such as pastors, missionaries, teachers or school administrators who are actively involved in ministry. This modular based program enables students to earn a graduate degree in two to six summers depending on their own schedule and commitments. This allows each student to pursue in-depth training in biblical counseling while continuing in his or her current ministry or occupation.

Program Length

The SIP modular courses are offered for four weeks each summer. Up to four weeks of classes can be taken each summer allowing students to complete their classroom work in two summers. Each week consists of four - six units of classes. In addition to the modular courses, each student will be required to

take 9 (Thesis Track) or 13 (Non-Thesis Track) units of Independent Study coursework.

Each of our modular courses is divided into three parts: a one-week, in-session lecture in addition to extensive pre-session and post-session assignments.

Full / Part Time Student Status

Any student enrolled in 8units or more is considered to be “full-time” status for the Master of Arts in Biblical Counseling. A student must be enrolled in at least 4units of graduate level classes to achieve “part-time” status.

Independent Study

A total of 9 (Thesis Track) or 13 (Non-Thesis Track) independent study units need to be completed before the student is able to graduate from the program. These may be taken in between the first and second year or after the summer sessions have been completed. Students have four months from the time of enrollment in an independent study course to complete the course.

Course Registration

Registration forms for MABC-SIP will be available online in February to each student who has already been accepted into the MABC program. In addition to registering for specific courses, this form allows the student to make housing and meal plan reservations. Housing and meal plans are available for the student, his or her spouse, and children.

Advanced Standing

Any graduate from TMC’s undergraduate Biblical counseling major is eligible for a maximum of six (6) credits of advanced standing in the program. Also, any graduate from The Master’s Seminary who has completed multiple counseling courses as their electives are also eligible for “Advanced Standing”. Students awarded “Advanced Standing” will be waived credits towards their elective credits, up to a maximum of (6) credits. Advanced standing is not guaranteed, but will be decided on an individual basis at the discretion of the Graduate SIP Director and/or the Chairman of the Biblical Counseling Department.

Course Offerings in MABC

The Summer Institute Program course numbers are the same as the resident program course numbers with an "s" added (e.g. BC501s).

BC500 Spiritual Formations (1)

The lab requires one hour weekly of small-group discussion led by a faculty member. Structure is deliberately limited to allow for interaction concerning issues arising in daily life, classes and ministries. Relationships, motivations and strategies are examined for the purpose of encouraging transparency and a lifestyle incorporating counseling, encouragement and edification.

BC501 Introduction to Biblical Counseling (3)

This course offers a general introduction to basic concepts and distinctive features of biblical counseling. Students will discuss what biblical counseling is and what it involves, the role of the counselor in biblical counseling, the different kinds of counseling that are needed, the place of counseling in the ministry of the church and how biblical counseling theory and practice relate to and differ from some of the more common secular models and theories. Part of the course will involve a personal improvement project in which the student will evaluate his/her own counseling qualifications, design a plan for improving some area of his/her life, put that plan into action and then evaluate his/her progress as the course draws to a close.

BC502 Essential Qualities of a Biblical Counselor (2)

This course will help the student to understand the Christ-like character and functional qualities of the discipler/counselor. The course will also provide the environment for self-examination for present and future growth, both in his/her personal walk with Jesus Christ and as a skilled biblical counselor.

BC503 Methods of Biblical Change (2)

This course provides an overview of the counseling process presenting a comprehensive methodological model for promoting biblical change in people. The goal of this course is to encourage biblical thinking and procedures in the process of helping people.

BC505 Graduate Research and Writing Seminar (1)

This Seminar introduces graduate students to the fundamental principles and techniques of research and writing. Students acquire proficiency at locating pertinent reputable resources, developing appropriate conclusions, and composing their results in fully documented written papers, specifically applying the instruction to the student's first graduate research paper. Students are expected to take Graduate Research and Writing Seminar (BC505) prior to or concurrently with their first graduate course.

BC506 Theoretical Constructs of Psychology (2)

This course is designed to critically analyze secular and evangelical integrationist theories of psychotherapy. It will probe the anthropological presuppositions of treatment theory and seek to bring a thoroughly biblical critique to their foundational assumptions as well as methodology. Issues like theories of the subconscious, psychoanalytic approaches to personality, establishing norms, psychological testing, making the distinction between the normal and abnormal, major and mood disorders, schizophrenia and multiple personality disorders are among the psychological constructs and their popular theoreticians that will be explored.

BC511, 512 Theological Basis of Counseling I, II (2, 2)

This course offers a consideration of the theological realities that form the basis of a proper approach to counseling. Special emphasis is given to the nature of God and of man (fallen and unfallen), a biblical definition of the image of God, the nature of sin, the realities of regeneration and progressive sanctification, the concept of "the flesh" (old man/new man), an understanding of the heart/mind as used in Scripture and the place of the local church in the ministry of counseling. Please note: BC512 for SIP students is broken into two classes of 1 unit each, BC512s and BC513s.

BC516 Evangelism & Discipleship (2)

This course presents a biblical approach to evangelism in the local church setting. Various methods of personal evangelism and strengths and weaknesses of these approaches are evaluated. In discipleship, the practical aspects of assisting a believer's growth in the Lord and development of leaders within the local church will be discussed.

BC518 Counseling & the Book of Proverbs (2)

This course is an expositional study of the book of Proverbs with its special relevance to counseling

BC519 Counseling & the Book of Ecclesiastes (2)

This course is designed to help the counselor to work with individuals who are struggling with a materialistic cosmology.

BC521, 522 Problems & Procedures I, II (3, 2)

This course is designed to apply the biblical principles taught in the Introduction to Biblical Counseling (BC501) and the Methods of Biblical Change (BC503) courses to a range of specific counseling problems. Topics discussed include anger, fear, depression, homosexuality, anxiety, eating disorders, incest, child abuse, counseling youth, counseling divorcees and crisis counseling. During the second semester of this course, each student will research and present to the class a detailed biblical counseling

outline for a teacher-approved counseling issue.

BC528 Cross-Cultural Counseling (2)

This course is an exploratory study of biblical counseling in diverse cultural settings with a particular emphasis on equipping the Christian who seeks to counsel people of a culture different from his/her own.

BC531 Hermeneutics (3)

This course is an introduction to the science and art of interpretation, with special attention to the application of Scripture to counseling. Various interpretive approaches on key scriptural passages will be examined, especially as they relate to the biblical counselor and his task.

BC538 Counseling & Child Development (2)

Analysis of the physiological, cognitive, spiritual and personality development from birth through childhood. There will also be a discussion of parenting issues and a critique of the self-esteem movement.

BC542 Marriage & Family Counseling (3)

Marriage and family problems are present in the majority of counseling cases. This course will give an overview of general marriage and family counseling issues relating to the content and process of counseling. It will then proceed to specifically deal with some of the major difficulties that troubled marriages and families experience from a biblical perspective. Included in the course are discussions of the biblical basis and purposes of marriage, family stages, in-law problems, developing unity, husband/wife roles and responsibilities, correcting communication problems and how to resolve conflicts that arise.

BC548 Counseling & Youth (2)

This course is designed to help the student to understand the intense and frequent problems of young people. A thoroughly biblical understanding of young people and their problems and a functional approach to counseling youth will be presented.

BC552 Marriage & Family Topics (2)

This course will consider such issues as premarital counseling, divorce counseling, financial counseling, mate abuse, rebuilding a marriage after an adulterous affair, dealing with sexual problems and parent/child relationships. Designing and facilitating a marriage or family improvement project will be a part of the student's responsibility for this course. Each student will develop and present to the class a detailed biblical approach for a teacher approved marriage and/or family problem

BC556 NANC Membership Seminar (1)

All students are encouraged to seek membership in and certification by the National Association of Nouthetic

Counselors (NANC). This seminar will prepare the student to take the Theological and the Counselors Exams as part of their NANC membership process.

BC557 Counseling & Medical Issues (2)

This is a survey of the physiological factors that influence areas in a person's life which are of importance when counseling that person.

BC558, 559 Christian Life Issues I, II (3, 3)

This course is designed to help people understand the following: the true nature of the Christian life from its beginning with regeneration to its completion when we enter heaven; the context in which our lives and experiences as Christians take place; the gospel foundation for all Christian obedience; the deceptive character of sin; the manner and ways we are sinned against, the appropriate and effective ways to respond to being sinned against; the procedure for building a biblical framework for defining and dealing with sin, our own and others'; the biblical function and purpose of the church; and the manner in which some people who call themselves Christians erroneously view the Christian life.

BC581, 582 Counseling Issues I, II (1, 1)

Numerous crucial issues in counseling will be discussed: the role of women in counseling, the church and biblical counseling, drugs and biblical counseling, developing a counseling ministry in a local church, preaching and counseling, legal issues and counseling, training lay people to counsel, counseling in everyday life, avoiding legalism in counseling, God's laws and ordained authority and counseling apologetics.

BC583 Discipling Women (2)

This course provides basic training in developing and maintaining a women's ministry within the local church. Topics include the priority of discipleship, a biblical definition of discipleship and training in the how to's of discipleship.

BC590 Counseling Practicum (2)

This course is designed to consider the practical application of the principles of biblical counseling and the various methodological aspects of the counseling process. The course will include student participation in counseling as a counselor, counselee, and an observer. These activities will form the basis of seminar discussions where counseling will be analyzed from a biblical perspective. The goal of this course is to help the student learn, evaluate and sharpen their practical counseling skills. *Prerequisites: BC501, BC503.*

BC584 Problems Women Face Today (2)

This course is designed to cover several specific counsel-

ing problems common to women. Some of the topics discussed will include: the feminist influence, the role of women in the church, misperceptions regarding submission, not having a gentle and quiet spirit, PMS, vanity, hurt feelings, unbiblical manipulation and idolatrous emotional attachments. Special emphasis will also be given to common questions women ask such as “What about chemical imbalance?” and “Why and how should I come off my psychiatric drugs?”

BC591 Counseling Observation (2)

This course consists of observations and discussions of video tapes of counseling sessions. It is designed to help the student learn practical skills in counseling by observation, evaluation, critique and discussion.

BC592 Counseling Internship (4)

This is a supervised and evaluated internship, consisting of at least two actual counseling sessions per week and a total of 25 hours of counseling. Assistance will be provided for the student in obtaining counseling opportunities.
Prerequisites: BC501, BC503.

BC598 Research Seminar Presentation (1)

This guided independent research requires the student to produce the present a counseling topic in a seminar format. The presentation must deliver biblically researched solutions to a precise counseling problem, taking the form of at 20 to 30 page, fully documented outline.

BC599 Counseling Research Project (2)

This guided independent research develops a biblical understanding of a counseling approach to a specific problem that could be encountered in counseling. The problem areas must be precisely stated in written form, must be pursued under faculty supervision and must be approved by the chairperson of the Biblical Counseling Department. A fully documented research project of 100 pages in length is required for students in the Thesis Track. A fully documented research paper of 20 pages in length is required for students in the Non-Thesis Track.
This course is only open to students first enrolling in the MABC program prior to Summer 2011

BC600 Counseling Research Thesis/Project (3)

This guided independent research requires the student to advance a thesis, presenting the biblical understanding and counseling methodology for a specific problem that could be encountered in counseling, taking the form of a 100 to 120 page, fully documented paper. Thesis topics are approved by the Department Chair and the Thesis Coordinator; research and composition are pursued under an appointed faculty advisor. *Prerequisites: All core courses*

Master of Arts in Biblical Studies

Dr. Thomas A. Halstead, Chairperson

The Master of Arts in Biblical Studies (MABS) is intended to provide Bible training to men and women at the graduate level. The content of the program is biblical-theological in nature and emphasizes both proper interpretation and practical application of Scripture. The classes, homework, and reading assignments can be practically implemented in each student's life and ministry immediately. Each course the student takes is designed to enhance his/her walk with God and ministry. The MABS degree is designed to help people study, use, and apply Scripture more effectively in their own lives and in their churches.

Program Distinctive

The MABS is designed for missionaries, teachers, school administrators, or lay people who are actively involved in ministry. This modular based program enables students to earn a graduate degree in approximately 2-6 summers depending on their own schedule and commitments. This allows each student to pursue in-depth Bible training in biblical studies while continuing in his or her current ministry or occupation.

Program Length

Modular courses are offered the second, third, and fourth weeks of July each year. Up to three weeks of classes can be taken each summer allowing students to complete their on campus classroom work in 2-6 summers (not including independent study classes and thesis). Each week consists of two 2 unit classes. Each of our modular courses are divided into three parts: pre-session assignments, in-session lectures, and post-session assignments.

Full / Part Time Student Status

Any student enrolled in 8 units or more is considered to be "full-time" status for the Master of Arts in Biblical Studies. A student must be enrolled in at least 4 units of graduate level classes to achieve "part-time" status.

Israel Bible Extension

Another unique feature of this program is the opportunity for students to study abroad in Israel and apply their graduate credits through IBEX to

their MABS degree. Details on this opportunity can be obtained by calling TMC IBEX extension.

Independent Study

Independent Study courses must be completed before a student is able to graduate. These courses may be taken any time after the first modular course is completed. Students have 4 months from the time of enrollment in an Independent Study course to complete all assignments under the supervision of a faculty member.

Course Registration

Registration for MABS will be available online in February to each student who has already been accepted into the MABS program. In addition to registering for specific courses, registration allows the student to make housing and meal plan reservations. Housing and meal plans are available for the student, his or her spouse, and children.

Remote Library Access

In order to facilitate research from off-campus locations, the college library provides remote access to many of The Master's College's online databases. This access allows students to search the available databases from any computer off campus that has an Internet connection. Currently The Master's College has over 20 databases available with remote access. Students are welcome to contact the library directly if they need help with their research.

Degree Requirements

The MABS includes 24 core units which are taken on campus usually over two to four years. The core units consist of the following courses:

BTS500	Introduction to Biblical Studies
BTS501	Hermeneutics
BTS511	Creation and Covenant
BTS512	History of the Covenant People
BTS513	Prophecy and Prophets in Context
BTS515	Worship and Wisdom
BTS521	Historical Background of the N.T.
BTS522	Life, Ministry and Teaching of Christ
BTS523	Life, Ministry and Theology of Paul
BTS524	General Epistles and Revelation
BTS571	Contemporary Issues in Theology
BTS572	Seminar in Applied Biblical Studies

In addition to these core classes 15 additional units will be

taken in ministry application courses and elective courses for a total of 39 units required for graduation.

Prerequisite Requirements

It is highly recommended that a student's undergraduate program be strong in a liberal arts emphasis, including courses in literature, history, and philosophy. The Bachelor's degree must be from an accredited college or university (official transcript required). They must have completed their baccalaureate program with a cumulative grade point average (CUM GPA) of 3.0 or above on a 4.0 scale for all undergraduate work. While students will not be required to have completed an undergraduate major in Biblical Studies, they will be required to demonstrate a threshold level of biblical and theological knowledge in order to be admitted to the program. This requirement can be satisfied by either of the following:

- Complete 24 semester units of undergraduate coursework in biblical studies with a GPA of at least 3.0 that includes at least 6 units of New Testament (N.T.), 6 units of Old Testament (O.T.), and 6 units of Christian Theology.
- Complete a three-part comprehensive entrance examination in O.T., N.T., and Christian Theology to certify a level of theological knowledge necessary for graduate study. You must earn at least a 70% on the exam to pass.

Guidelines for 24 Units

1. The 24 semester units of undergraduate coursework in biblical studies with a GPA of at least a 3.0 required as a prerequisite to the MABS program must be from a school accredited by an accreditation service accepted by The Master's College Registrar's Office.
2. There are certain schools which are unaccredited, but are accepted by special agreement by the Registrar. These schools will also be accepted for prerequisite units by the Registrar's Office.
3. Prerequisite units taken at schools that are not accepted by the Registrar's Office will not be accepted. Instead, the student should take the MABS Entrance Exam.

Advanced Standing

Any graduate from TMC's undergraduate Biblical Studies major program who has earned at least 36 units of Bible will be allowed a maximum of six (6) units of advanced standing in the program. Students from other accredited institutions with at least 36 units in Bible may also apply for Advanced Standing. Advanced standing is not guaranteed, but will be decided on an individual basis at the discretion

of the Graduate SIP Director and/or the Chairman of the Bible Department. Students awarded "Advanced Standing" will be waived from (6) units of electives, therefore only requiring 33 units to graduate with a Master of Arts in Biblical Studies.

Transfer Credit Policy

Students transferring credits from The Master's Seminary will be allowed a maximum of twenty (20) credits to transfer for courses with goals and objectives that correspond with the overall goals of the MABS program. A student transferring from another graduate program will be allowed credit for a maximum of six (6) credits for courses that correspond to those offered in the MABS program. Decisions regarding advanced standing and transfer credits will be made by the Director of the MABS program in consultation with the Registrar.

Course Offerings in MABS

CORE COURSES

BTS500 Introduction to Biblical Studies (2)

A graduate seminar focusing on foundational issues in the field of Biblical Studies. Seminar topics include inspiration, origin, authority, canonicity, transmission, and translation. Students will be exposed to the assumptions of critical scholarship related to the Bible and an evangelical response to those assumptions. Issues of special introduction to selected portions of the Old and New Testaments will be treated with particular attention to the conclusions of modern "higher criticism."

BTS501 Hermeneutics (2)

A graduate seminar focusing on hermeneutical theory and practice related to the Biblical text. Attention is given to the philosophical and literary foundations that describe relationship between author, text and reader; the interpretative methodologies that are applied to various Scriptural genres; and the application of interpretative theory to specific passages of Scripture.

BTS511 Creation and Covenant (2)

A graduate seminar focusing on the biblical-theological study of the Pentateuch. Emphasis will be given to the foundational themes of creation and covenant as essential to biblical theology; the exploration of critical issues of authorship and composition; the discussion of interpretive options for crucial passages; and the formative influence of creation on the current public debate on origins and age of the earth.

BTS512 History of the Covenant People (2)

A graduate seminar focusing on the history of Israel from the period of the patriarchs through the Babylonian exile.

emphasis will be given to placing the history of Israel against the backdrop of the ancient Near East, from the perspective that God used the nations surrounding Israel to accomplish His purposes for her and orchestrated world history around her. Further attention will be given to the historical method and historiography concerning ancient Israel. The current public debate on the status and legitimacy of modern Israel will also be considered.

BTS513 Prophecy and Prophets in Context (2)

A graduate seminar focusing on the Old Testament prophetic literature with attention given to historical backgrounds and context; internal message; theological themes; and issues of criticism.

BTS515 Worship and Wisdom (2)

A graduate seminar focusing on the worship and wisdom literature of the Old Testament and its application to the contemporary church and the sanctification of every believer. Issues like the problem of pain, the value of worship and why do the wicked prosper will all be addressed. The student will learn to seek answers to life in the true worship of God and in the wisdom of God provided in these books.

BTS521 Historical Background of the New Testament (2)

A graduate seminar focusing on the history, literature, and culture of the Inter-testamental period through the first century A.D.

BTS522 Life, Ministry, and Theology of Christ (2)

A graduate study of the earthly life and ministry of Jesus Christ, including his role as Messiah and as Son of God. Special attention will be given to the Jewish historical and cultural background of his life, to the implications of his true humanity, and to the modern alternative theories about the facts and meaning of his life.

BTS523 Life, Ministry, and Theology of Paul (2)

A graduate seminar focusing on the writings of Paul. Attention is given to historical and cultural settings; messages, theological themes, and analysis of selected passages.

BTS524 Theology of General Epistles & Revelation (2)

A graduate seminar focusing on the theology of General Epistles and the Revelation. Emphasis will be placed on critical issues relating to authorship, acceptance into the canon, historical settings, messages, theological themes, and interpretive problems. Special emphasis will be placed on the high priesthood of Jesus Christ as in Hebrews and the eschatology of 2 Peter 3 and the Book of Revelation.

BTS571 Contemporary Issues in Theology (2)

A culmination seminar that seeks to integrate biblical studies with Christian faith and ministry. Students will use an evangelical theological method to address contemporary trends and emphases in theology confronting the contemporary Christian church: Students will be exposed to a wide diversity of theological literature and perspectives within and beyond the evangelical spectrum.

BTS572 Seminar in Applied Biblical Studies (2)

A graduate seminar focusing on the application of biblical studies to the life of the believer. Attention will be given to the priority of Christ-likeness; the process by which this occurs in the life of the believer; and the role of discipling towards this objective. The uniqueness of the biblical process of change will be addressed.

MINISTRY APPLICATION COURSES

BTS531 Practicum in Biblical Leadership (2)

A faculty-directed independent study focusing on a biblical theology and philosophy of leadership. Attention will be given to examples of leaders in the Bible and an examination of the concept of spiritual leadership. The student will be expected to articulate a philosophy of leadership and provide evidence of applying that philosophy in a specific facet of their own ministry.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS532 Practicum in Church Administration (2)

A faculty-directed independent study focusing on both the theological and practical aspects of church administration. Theories of church organization will be examined and compared with the teaching of the New Testament. Topics include the practical operation of the church; building qualified lay leadership; development of the pastoral staff; the preservation of unity in the church; and the place and role of church discipline.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS533 Practicum in Discipleship (2)

A faculty-directed independent study focusing on the analysis of discipleship models and the application of scriptural principles in the discipleship process.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS534 Practicum in Biblical Counseling (2)

A faculty-directed independent study focusing on the basic concepts and distinctive features of biblical counseling. Students will discuss the nature of biblical counseling; the role of the counselor; the different models of counseling; the place of counseling in the ministry of the church; and how biblical counseling theory and practice relate to, and

differ from, secular models and theories. This course will involve a personal improvement project in which the student will evaluate their own counseling qualifications, design a plan for improving some area of their life, put that plan into action, and then evaluate their progress. *Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.*

BTS535 Practicum in Youth Ministry (2)

A faculty-directed independent study focusing on the analysis of contemporary youth culture and ministry. Emphasis will be given to finding biblical solutions to the needs and challenges of contemporary youth culture.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS536 Practicum in Children's Education (2)

A faculty-directed independent study focusing on the theory, methodology and practice of biblically-based Christian education to children. Attention will be given to the preparation and teaching of Bible lessons that are age and culture appropriate, the recruitment, training and supervision of volunteer teachers, the development and administration of ministry programs, and the assessment of curricula. The student will be involved in a supervised and evaluated teaching experience as part of the course.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS537 Practicum in Worship (2)

A faculty-directed independent study concerning the principles and practices of worship. Attention will be given to a biblical definition of worship; biblical paradigms of worship; styles of worship; leading in worship; hymnody and hymnology; and current issues in worship.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS538 Practicum in Teaching (2)

A faculty-directed independent study concerning the principles and practices of effective teaching. Emphasis will be placed on teaching technique, the learning process, and basic curricular design.

Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.

BTS539 Practicum in Missions (2)

A faculty-directed independent study concerning the principles and practices of biblically-based mission work. Emphasis will be placed on evaluating mission boards, the mission program of the local church, a survey of the biblical basis of missions, cross-cultural communication, mission strategy, the call and preparation of the missionary, and the role of sending organizations. Some consideration

will also be given to one or more contemporary issues, such as urban ministries, student ministries, and creative access to closed countries. *Prerequisite: program approval by MABS faculty and consent of the chairman of the Bible Department.*

BL502 Elementary Greek II (4)

Designed for beginners in Greek and includes a thorough study of the pronunciation and acquisition of a working vocabulary; exercises in translation from Greek to English as well as from English to Greek. Translation of selected passages of the Greek New Testament.

BL511 Elementary Hebrew I (4)

A study of the grammar of the Hebrew language as well as the translation of selected passages of the Old Testament.

BL512 Elementary Hebrew II (4)

A study of the grammar of the Hebrew language as well as the translation of selected passages of the Old Testament.

BTS551 Seminar on the Epistle to the Romans (3)

An in depth exposition of Romans, with careful attention to the meaning, implication, and application of the text.

BTS552 New Testament Chronology (2)

This is a graduate level class designed to be taught as an independent study under the supervision of a Bible Department faculty member. This class will focus on the chronology of New Testament events and the lives of people (especially Jesus and Paul). Special attention will be given to chronological difficulties. Significant reading and research will be required. Reading reports and research papers will be required.

BTS553 The History of the English Bible and Philosophy Underlying Biblical Translations (2)

This is a graduate level class designed to be taught as an independent study under the supervision of a Bible Department faculty member. This class will focus on the history of the translation of the Bible into the English language from the Early English period to the present. Special emphasis will be given to the reasons, the opposition, and the sacrifices made in order to make the Bible accessible to the English reader. An emphasis also will be placed on the philosophy that underlies various modern translations, that is, literal versus dynamic

equivalence.

BTS554 Apologetics (2)

A survey of the main approaches to apologetics, and examination of evidences for the Christian faith from such fields as science, history, archaeology, and philosophy.

BTS555 Ethics (2)

A survey of the main approaches to ethics, issues in personal ethics, such as moral responsibility, decision making, honesty and conscience; and topics in special ethics such as war, abortion, euthanasia, genetic engineering, and church-state relations.

BTS556 World Religions (2)

A study of major non-Christian religious systems in the world. The claims of each will be compared with the absolute truth and adequacy of biblical faith.

BTS557 Religions of America (2)

A study of the most prominent modern religions native to America, with particular reference to their historical backgrounds and doctrinal positions.

BTS558 Spirituality in the Christian Tradition (2)

A study of the ways in which the spiritual life has been conceived in the life of the Christian Church. Attention will also be given to formulating a philosophy and a methodology of how Biblical Spirituality can best be implemented in one's own Christian life and walk.

BTS559 Reading Biblical Narratives (2)

A faculty-directed independent study in learning how to read, study and teach the narrative portions of the Bible. The following topics will be considered: ways of approaching Scripture, Scripture as story, characteristics of narrative, narrative and reader, point of view, levels of knowledge, time and space, plot, character, style and structure. Course work includes extensive reading and a final analysis of a narrative, which employs all approaches covered.

BTS599 Thesis (4)

This is a guided independent research paper. The special problem or area of investigation must be precisely stated in written form and pursued under faculty supervision and must be approved by the chairman of the Biblical Studies Department. A fully documented research thesis of 100-120 pages in length is required for this course.

IBEX570 Physical Geography of Israel (2)

An examination of the physical geography of the land of Israel with attention to regional structure, geology, and topography with a view to the development of communication lines and settlement.

IBEX598 Cultures & Religions of the Middle East (2)

A field-based exploration of the cultural, religious, and ethnic diversity of the land of Israel. Special attention is given to religious and cultural distinctives of the major ethnic communities and monotheistic religions of the region.

Master of Arts in Education

Dr. Kurt Hild, Chairperson

The Master of Arts in Education (MAE) is intended to be an ongoing program available to students who have completed their undergraduate degree and completed preparation and possess a valid state teaching credential. The MAE provides an opportunity for further developing “a life of lasting contribution as evidenced by a continuing development of professional expertise,” as stated in the institutional mission statement.

Program Sequence

The coursework includes:

Concentration courses are the 18 units by TMC required for a California Preliminary Multiple or Single Subject Credential. These units do not include student teaching, but passing student teaching and receiving a credential are part of the graduation requirements for the master’s degree. (See the Teacher Education section of the catalog for a description of these courses.) Students from other institutions will need transfer units to meet the same requirements for admission. Core competencies from credential preparation will need to be met prior to admission.

Core Studies are the 14 units required for all students after receiving a credential. The courses provide more in-depth examination of topics related to public school students and classrooms. The principles of action research are also examined in preparation for the Capstone Assessment. The core studies courses are

ED 600	Research Design & Analysis in Education ...	2
ED 610	Pre-Adolescents, Adolescents & Schooling..	2
ED 620	Christian Philosophy of Education	2
ED 630	Connecting Cognitive Research to Best Teaching Practices	2
ED 640	Issues in School and Society	2
ED 650	Advanced Curriculum Design	2
ED 660	Differentiated Learning	2

Capstone Assessment is four units required for all students which includes the choice of completing an action research project or a showcase portfolio. Either choice will be completed under the supervision of a panel made up of a full-time faculty member and two other committee members who are qualified to provide guidance and evaluation in the area

of the action research or portfolio. Candidates will complete the course sequences described below:

ED 690 Capstone Assessment Designs (2) plus either project ED 691 (2) Action Research or ED 692 (2) Showcase Portfolio.

Course Format

The MAE consists of 36 units of specific coursework at the 500 and 600 levels. All coursework for the program will be taught at the TMC campus in Santa Clarita, California. The fifth year credential program (18 units toward the master’s degree plus 12 units of student teaching which is not part of the master’s degree) will be taught only during the normal fall/spring semesters and requires residency.

Additional courses (18 units) that are designed to be taken after completion of a credential program will be offered in the college’s Summer Intensive Program (SIP) during July of each year. A total of four units may be taken each week. Each course will be divided into three parts: pre-session assignments, in-session lectures and assignments, and post-session assignments. Careful consideration is given to the advance preparation students need in order to profit from the limited time on campus. Follow-up assignments are designed to assess learning and to demonstrate competence in applying knowledge.

Important Information

- It is possible to get the credential without getting the master’s degree.
- It is **not** possible to get the master’s degree without a credential.
- Total units in master’s program= 36.
- Total units in master’s program plus credential= 48.
- Units from credential programs from other institutions will be evaluated for transfer credit on a case-by-case basis.
- Candidates must complete the graduate semester within 7 summers.
- Units used for the bachelor’s degree may **not** be used for the master’s degree.

Full-Time Status for International Students

The full-time course load for a student in the MAE Summer Intensive program is a minimum of 8 units per semester.

Course Offerings for MAE

CORE COURSES

ED600 Research Design & Analysis in Education (2)

Principles and procedures of research design applied to educational issues; basic statistics with emphasis on teacher-conducted research in the classroom. Provides opportunity to develop skill in interpreting research literature; to become acquainted with sources of research; and to become a critical reader of research reports. Implementation of research will occur in the Field Studies/Action Research project or thesis.

ED610 Pre-Adolescents, Adolescents, & Schooling (2)

Ways to make learning and character development relevant to this age group. Study of the physical, mental, social, emotional, and spiritual development and needs of students ages 10 through 18 and how these relate to their development as effective citizens. Examination of school and community factors that help and hinder the learning process.

ED620 Christian Philosophy of Education (2)

A comparison of the important philosophies of education and their bearing upon educational theory. Analysis of educational problems and issues in education using tools of history and philosophy of education and the implications on educational theory and practice in an institution. Examination and analysis of Christian thinking on philosophies of education. Formulation and/or refinement of a personal philosophy of education.

ED630 Connecting Cognitive Research to Best Teaching Practices (2)

Study of recent research in understanding the structure and function of the brain and its effect on the learning process. Examines brain development, the information processing model, memory, and higher order thinking. Introduces classroom applications and brain compatible teaching strategies.

ED640 Issues in School and Society (2)

Focuses on historical and social analysis of schools and society from a biblical perspective to help teachers select pedagogical methods that harmonize with educational aims. Examines violence, gangs, bullying, and other social problems and how to deal with them as well as issues educators face today.

ED650 Advanced Curriculum and Design (2)

Educational strategies and theories for designing curriculum at all levels of education and in a variety of cultures will be emphasized. Examines how cultural, political and socio-economic factors have influenced curriculum historically. Current trends in education will be analyzed for

their ability to influence curriculum design. Appropriate assessment methodologies will be evaluated.

ED660 Differentiated Learning (2)

Based on current learning research, explores practical solutions to determine how teachers can effectively instruct students of diverse backgrounds, readiness skill levels, learning styles and interest. Examines research on the best strategies for raising student achievement through classroom instruction.

CAPSTONE ASSESSMENT COURSES

ED 690 Capstone Assessment Designs (2)

Preparation, development, evaluation, and presentation of proposals culminating in a graduate action research project related to classroom settings and/or educational institutions or a showcase portfolio demonstrating growth of a fuller scholarly understanding of the domain. Specific requirements for completing the assessments and selection of appropriate supervision/assessing panelists will be provided. This is a required course for all students before completing either of the capstone assessments: ED691 or ED692.

ED691 Action Research (2)

The preparation, development, evaluation, and presentation of an action research project. It is the culminating action research, demonstrating growth of a fuller scholarly understanding of the program competencies, needed for completion of the MAE program. Continuing enrollment will be provided for those not completing a project while enrolled in ED 690. (May be repeated. Maximum 6 units) *Prerequisite: ED 690 (Course fee \$250)*

ED692 Showcase Portfolio (2)

The preparation, development, evaluation, and presentation of a professional portfolio. It is the culminating showcase portfolio, demonstrating growth of a fuller scholarly understanding of the program competencies, needed for completion of the MAE. Continuing enrollment for those not completing while enrolled in Ed 690. (May be repeated. Maximum 6 units) *Prerequisite: ED 690 (Course fee \$250)*

Program-Level Learning Outcomes

This section lists the program-level student learning outcomes that have been established by the faculty and staff for the College's undergraduate general education program, each of the academic majors and emphases, and for the co-curricular/student development area.

I. GENERAL EDUCATION

A. Biblical Studies

1. Demonstrate a working knowledge of each book of the Old and New Testament by:
 - a. Describing its general historical and geographical background.
 - b. Outlining its basic content and argument flow.
 - c. Briefly defining its main theological contributions and critical challenges.
2. Describe the essential teaching of Scripture in each major area of theology and the interrelationship among the areas.

B. Biological & Physical Sciences

1. Explain the scientific method, its use and limitations within each of its various disciplines and its relation to Truth.
2. Demonstrate an understanding of how the glory of God is revealed through an increased understanding of the complexity and beauty of His creation.
3. Compare and contrast the effect of various theocentric and naturalistic worldviews on the development of scientific thought.
4. For at least one scientific discipline:
 - a. Outline the major principles underlying that discipline and the realm in which those principles operate.
 - b. Identify the application of those principles in the day-to-day happenings in the world.
 - c. Identify assumptions and logical arguments involved in the accepted conclusions of the discipline.
 - d. Demonstrate an ability to solve qualitative and quantitative problems in that discipline in both the classroom and laboratory settings.
 - e. Demonstrate the ability to perform the basic operations associated with standard laboratory procedures in that discipline.

C. Computer Use

1. Demonstrate proficiency in computer operating procedures including file manipulation, program installation, network use, virus protection, and data transfer between applications.
2. Demonstrate proficiency using standard office software including a word processor, spreadsheet, and presentation manager.
3. Demonstrate proficiency using the Internet including a Web browser, e-mail, and file transfer.

D. Cross-Cultural Understanding

1. Develop a basic understanding of and appreciation for a culture other than one's own.
2. Knowledgeably bring the dimensions of diversity, especially gender, social class, ethnicity, and culture to the discussion and analysis of current societal issues.
3. Identify principles which assist an individual to adapt effectively to a different culture or a multi-cultural environment.
4. Articulate biblical principles relating to the development of God's church among varying people groups in today's world.

E. Economics

1. Demonstrate the ability to develop a life-long approach to personal financial management, understanding resource allocation as stewardship from God.
2. Understand resource allocation expressed in the laws of supply and demand as they relate to human nature in particular and to the shaping of history in general.
3. Explore the implications of free-market forces as they relate to Classical v. Keynesian theories.

F. History

1. Grasp the general sweep of human history from the Creation to the present, especially those persons, events, trends, nations, and ideologies that have had the greatest impact on our present civilization.
2. Evaluate historical developments in a larger context, especially the most salient political, cultural, geographical, and economic elements of the past that have shaped the present.
3. Integrate a biblical view of man and society into the study of the past.

G. Information Literacy

1. Determine the type, scope, and focus of information needed regarding a scholarly, professional, or practical pursuit.
2. Identify and prioritize possible information sources to meet a defined information need.
3. Develop an effective and efficient information search process.
4. Use bibliographic resources to locate and retrieve information from primary and secondary, published and unpublished sources in a variety of electronic and printed media formats.
5. Evaluate information retrieved from a variety of sources to determine validity, currency, credibility, and relative value to meet the given information need.
6. Use information effectively, ethically, and legally.

H. Listening Skills

1. Demonstrate a mastery of basic English vocabulary.
2. Demonstrate an ability to recall an acceptable proportion of content from a verbal presentation.
3. Recognize and take notes on important points in lectures and discussions.
4. Identify and evaluate basic concepts at the heart of a spoken presentation including purpose, assumptions, evidence, argument, and inference.

I. Logic & Critical Thinking

1. Demonstrate a mastery of the basic principles of logical reasoning and critical thinking.
2. Logically and critically evaluate problem situations by:
 - a. Identifying the assumptions, key issues, and elements of the problem.
 - b. Creating hypotheses and predicting outcomes.
 - c. Determining logical relationships.
 - d. Asking critical questions in order to discover meaning.
 - e. Testing the validity of assumptions and assertions by examining evidence.
 - f. Differentiating between opinion and fact.
 - g. Detecting fallacies in reasoning.
3. Construct a deductive or inductive line of reasoning from premise (hypothesis) and assumption to conclusion.

J. Mathematics & Quantitative Reasoning

1. Use arithmetic operations, basic geometric, and algebraic operations to solve typical 'daily life' problems.
2. Correctly interpret and present data - in numerical, tabular, or graphic format - from typical 'daily life' situations.
3. Use estimation to evaluate whether quantitative data presented in 'daily life' situations is reasonable and/or representative.
4. Evaluate the accuracy, validity, and reliability of statistical information presented in 'daily life' situations.

K. Music & Art

1. Identify and discuss the historical styles and periods of music and art, and the interrelationship with general history, philosophies, culture, church history, and other arts.

L. Philosophy

1. Demonstrate a basic knowledge of major philosophers and their times, the issues they sought to resolve, and their effect on the development of philosophical thought.
2. Evaluate philosophical worldviews in light of the Bible and biblical worldview assumptions.
3. Evaluate how various philosophical

perspectives will shape an individual's response to the great issues of life.

4. Evaluate how various philosophical perspectives will affect individual and societal responses to contemporary moral and ethical issues.

M. Political Studies

1. Understand the basic principles which form the basis of the American governmental system and the context in which it was established.
2. Understand in broad terms the American political process.
3. Understand in broad terms the U.S. Constitution, and the duties, responsibilities, and rights therein.

N. Reading & Literature

1. Evaluate literary texts, both fiction and nonfiction, from a biblical perspective.
2. Read literary texts attentively to:
 - a. Identify the concept or theme(s) inherent in the work.
 - b. Recognize the author's purpose, presuppositions, implications, argument, and use or lack of evidence.
 - c. Recognize how the author and work may have been influenced by historical and contemporary culture.
 - d. See a relationship between the work's content and its form.
3. Demonstrate a grasp of the broad outline of English, American, or World literature, together with an awareness of the historical context in which an author or group of authors wrote.

O. Spoken Communication

1. Prepare and present a range of speeches that:
 - a. Present information, ideas, positions, or opinions in a manner that reflects the virtues of clarity, concision, accuracy, and persuasion.
 - b. Adapt words and rhetorical strategies according to varying situations and audiences.
 - c. Make assumptions clear.
 - d. Use relevant logical arguments and appropriate examples.
 - e. Incorporate various aspects of nonverbal communication, including intonation, pause, gesture, and body language.
 - f. Present creative and original thoughts and ideas, extending beyond summarization and repetition of readily available published information.
2. Engage effectively in discussion as both speaker and listener through interpreting, analyzing, and summarizing.

P. Written Communication

1. Prepare and present essays and other types of written documents that demonstrate the writer's ability to write clearly and appropriately

- for a variety of purposes and audiences.
2. Employ a writing process that involves collecting information and formulating ideas, determining their relationships, and producing a draft that arranges coherent paragraphs in a purposeful order.
 3. Give evidence of ability to revise, edit, and proofread a written draft in order to produce work that is ready for its readers, including but not limited to skill in appropriate word usage, the conventions of Standard Written English, and consistently accurate spelling.

II. MAJOR EMPHASES

BIBLICAL STUDIES

Biblical Studies Core

1. Demonstrate a working knowledge of either Greek or Hebrew.
2. Demonstrate the correct application of hermeneutical principles to develop an interpretation of a biblical text.

Biblical Counseling

1. Biblically critique various secular and Christian approaches to counseling.
2. Articulate a comprehensive logical, biblically-supported argument for the authority and sufficiency of the Bible and the necessity of the gospel in counseling non-organic and interpersonal problems.
3. Analyze counseling problems using a biblical conceptual framework.
4. Develop a counseling strategy applying a broad range of biblical passages to respond to common counseling problems.
5. Demonstrate question asking skills within a counseling context to discern the counselee's true motivations.
6. Effectively communicate the principles of biblical edification and hope in a counseling situation.

Bible Exposition

1. Discuss the significant historical, geographical, cultural, theological background, themes, and interpretive problems of each Bible book.
2. Demonstrate a working knowledge of available written and electronic Bible study tools.
3. Produce undergraduate college level written research in biblical-related topic areas.
4. Effectively communicate biblical truths in individual conversations and group teaching settings.

Biblical Languages

1. Translate both the Hebrew and Greek text with the use of standard aids.
2. Determine the structure of biblical passages in the original languages.
3. Demonstrate an understanding of the

phonology of Hebrew.

4. Morphologically analyze any form in a Greek or Hebrew text.
5. Syntactically analyze the phrases, clauses and sentences in a Greek or Hebrew text.
6. Demonstrate mastery of basic Greek and Hebrew vocabulary.
7. For Greek or Hebrew biblical passages, discuss the applicable interpretative and hermeneutical principles, inter-textual allusions, critical issues and theological contributions.

Intercultural Studies

1. Demonstrate the ability to develop comprehensive ethnic profile of a country.
2. Articulate the biblical arguments against racial prejudice.
3. Demonstrate a basic knowledge of at least one non-native language.
4. Construct a biblical basis for the participation of the church in Christian missions.
5. Demonstrate the ability to apply the principles for effective church planting to specific cultural environments.
6. Describe the foundational beliefs of major world religions.
7. Demonstrate the ability to analyze cultural norms and customs in order to properly contextualize biblical principles within that cultural setting.
8. Demonstrate the ability to adapt to life in another culture.

TESOL

1. State a theoretically sound philosophy of language acquisition and instruction.
2. Identify, compare, and critique various language-teaching approaches, methods, and classroom resources.
3. Demonstrate the ability to facilitate cultural and learner differences in the language classroom.
4. Demonstrate the ability to analyze the native language(s) of the target class and identify areas of acquisition difficulty.
5. Evaluate historical and current educational practices and preferences in a target country.
6. Research, design, and implement ESL/EFL programs and classes.
7. Conduct an effective self-assessment of spiritual, cross-cultural, and teaching effectiveness and growth.
8. Articulate a sound biblical philosophy of cross-cultural ministry in a professional realm.

Christian Education

1. Clearly articulate a biblical philosophy of ministry as it relates to the purpose of the Church.
2. Describe the educational cycle within a local church educational ministry.

3. Describe the concept of vocation as it relates to Christian education.
4. Describe the interrelationships between the various church ministries (Christian education, youth ministry, biblical counseling, missions, etc.).

Theology & Apologetics

1. Explain the role of systematic theology in relation to other biblical disciplines (e.g., languages, exposition, preaching, counseling).
2. Identify the significant individuals who have shaped the development of historical theology, and describe the contributions of each.
3. Articulate basic Christian doctrines of both Old and New Testaments, and provide clear biblical support for each.
4. Describe the key issues involved in the major theological controversies that have occurred in the Christian community from Pentecost to present.
5. Describe, compare, and contrast major theological systems.
6. Describe the major options in apologetic methodology.
7. Articulate arguments for the existence of God.
8. Articulate the major evidences used to support Christianity.
9. Describe the foundational beliefs of major world religions and major cults.

Youth Ministries

1. Clearly articulate a biblical philosophy of ministry as it relates to the purpose of the Church.
2. Describe the educational cycle within a local church educational ministry.
3. Describe the concept of vocation as it relates to Christian education.
4. Describe the interrelationships between the various church ministries (Christian education, youth ministry, biblical counseling, missions, etc.).

BIOLOGICAL SCIENCES

Biological Sciences Core

1. Demonstrate a working knowledge of the biological taxonomic kingdom and phyla divisions, and classification of organisms within that system.
2. Demonstrate an in-depth knowledge of the key features and current issues related to the various major theories of biological origins.
3. Demonstrate a working knowledge of the key current issues in environmental biology and ecology.
4. Analyze molecular structure and chemical reactivity relationships within a chemical and biological environment.
5. Demonstrate a working knowledge of cellular structures and processes within cells.

6. Perform and interpret analyses of the various modes of Mendelian inheritance.
7. Demonstrate a working knowledge of those basic principles of physics, statistics, and differential and integral calculus necessary to the study and practice of research in the biological sciences.
8. Effectively prepare and give oral presentations from primary research literature in the biological sciences.
9. Explain in accurate detail the molecular basis of inheritance; including DNA replication, transcription, translation and the regulation of these processes.

Natural History/Environmental Biology

1. Demonstrate a working knowledge of vertebrate natural history, systematics, and comparative anatomy, and their applications to biological origins.
2. Effectively conduct selected field research techniques in plant and animal ecology.
3. Demonstrate a working knowledge of the inter-relationship among species, population dynamics, and the study of human impacts on eco-systems as it relates to stewardship ecology.

Pre-Medicine/Pre-Dentistry

1. Explain in detail the mechanisms involved in the replication and regulation of expression of genetic information for both prokaryotes, eukaryotes, and viruses.
2. Describe the theoretical basis underlying and perform basic laboratory procedures used in molecular biology, biochemistry, microbiology and biotechnology.
3. Compare and contrast the initial pathways of development found in organisms from invertebrates to mammals.
4. Describe the underlying thermodynamic principles that govern biochemical pathways. Describe how biochemical pathways are regulated and integrated to maintain homeostasis.
5. Demonstrate a working knowledge of the functions of each organ system and their interrelationships in the whole organism to maintain physiological homeostasis.

Secondary Teacher Education in Life Science

1. Demonstrate a working knowledge of vertebrate and invertebrate natural history, systematics, and comparative anatomy, and their applications to biological origins.
2. Effectively conduct selected field research techniques in plant and animal ecology.
3. Demonstrate a working knowledge of the inter-relationship among species, population dynamics, and the study of human impacts on eco-systems as it relates to stewardship ecology.

Molecular, Cellular & Dev. Bio

1. Explain in detail the mechanisms involved in the replication and regulation of expression of genetic information for both prokaryotes, eukaryotes, and viruses.
2. Describe the theoretical basis underlying and perform basic laboratory procedures used in molecular biology, biochemistry, microbiology and biotechnology.
3. Compare and contrast the initial pathways of development found in organisms from invertebrates to mammals.
4. Describe the underlying thermodynamic principles that govern biochemical pathways. Describe how biochemical pathways are regulated and integrated to maintain homeostasis.
5. Demonstrate a working knowledge of the functions of each organ system and their interrelationships in the whole organism to maintain physiological homeostasis.

BUSINESS

Business Administration Core

1. Demonstrate a strong working knowledge of accounting.
2. Demonstrate a strong working knowledge of economics.
3. Demonstrate a strong working knowledge of the management field.
4. Demonstrate a strong working knowledge of selected information system applications.
5. Demonstrate a strong working knowledge of finance.
6. Demonstrate a strong working knowledge of international commerce.
7. Demonstrate a strong working knowledge of marketing.
8. Demonstrate a strong working knowledge of the quantitative analysis techniques applied within common business situations.
9. Demonstrate a thorough working knowledge of business law including: partnerships, contracts, personnel,
10. Demonstrate the ability to interpret business-related qualitative and quantitative analyses, and to explain them to others in both written and oral form.
11. Demonstrate the ability to work effectively in teams.
12. For given business ethics situations, identify applicable biblical imperatives.
13. Describe the key principles for marketing personal services in a professional context.

Accounting

1. Given necessary financial data for a business situation, demonstrate an in-depth working knowledge of the accounting cycle including development of accurate financial reports.

2. Demonstrate a working knowledge of the generally accepted accounting procedure(s) (GAAP).
3. Describe auditing standards, reports, and procedures necessary for performing an audit.
4. Demonstrate a basic working knowledge of taxation principles.
5. Demonstrate a working knowledge of cost accounting principles within a business situation.
6. Demonstrate ability to develop and use electronic spreadsheets in completing common accounting-related tasks.

Christian Ministries Administration

1. Demonstrate a working knowledge of key principles governing financial management in not-for-profit, ministry environments.
2. Articulate a biblical philosophy of church structure.
3. Articulate a practical understanding for Christian ministry administration.
4. Demonstrate a basic working knowledge of the laws which affect personnel issues in ministry.

Finance

1. Demonstrate a working knowledge of the role of banking in the financial community.
2. Demonstrate a basic working knowledge of vehicles and strategies which relate to investments in the stock and bond markets.
3. Demonstrate a basic working knowledge in either decision science or intermediate accounting.
4. Demonstrate a working knowledge of cost accounting principles within a business situation.

Pre-Law

1. Demonstrate a basic working knowledge of the philosophical underpinnings of the U.S. legal system.
2. Demonstrate a basic working knowledge of the laws which affect personnel issues in a business organization.
3. Demonstrate a basic working knowledge of the laws affecting confessional organizations.

Management

1. Given a business situation, identify and develop appropriate quantitative tools for operational management.
2. Demonstrate a basic working knowledge of the laws which affect personnel issues in a business organization.
3. Demonstrate a basic working knowledge in at least one of the following management-related areas:
 - a. The role of financial intermediation in society.
 - b. Vehicles and strategies which relate to

- investments in the stock and bond markets.
- c. Cost accounting.

M.I.S.

1. Describe the software development cycle, its phases, and the purpose and activities of each.
2. Demonstrate a working knowledge of computer programming using a modern language, including being able to:
 - a. Accurately use and interpret syntax and semantics.
 - b. Design, write, debug, and test correct programs.
 - c. Correctly include and use common data structures.
3. Display a working knowledge of database principles and technologies by being able to:
 - a. Describe the relational model.
 - b. Correctly define and use data normalization techniques.
 - c. Accurately use and interpret SQL database language syntax and semantics. Install, configure, and use a standard DBMS (e.g. Microsoft SQL Server, Oracle, DB2, etc.).
4. Demonstrate a basic working knowledge in selected of the following areas:
 - a. Web development tools such as HTML, Javascript, CSS, ASP, PERL, etc., to design and create complex web sites.
 - b. The major hardware components of computers, their purposes, and their relationships to other components. The principles underlying modern operating systems. Modern network technologies. Appropriate quantitative tools for operational management.

Public Relations

1. Describe how communication affects mass markets.
2. Demonstrate a basic working knowledge of public relations theory.
3. Demonstrate basic public relations skills within an organizational setting.
4. Demonstrate the ability to make effective written and oral presentations using both logical and persuasive reasoning.

COMMUNICATION

Electronic Media

1. Demonstrate a basic knowledge of media history including epitomes of past genius, breakthroughs, classics, cult, realism, formalism, and pop genre.
2. Demonstrate a working knowledge of media theory including design, color, juxtaposition, montage, symbolism, signifying orders and genres.
3. Demonstrate basic mastery of electronic media pre-production techniques including

conceptualizing, scripting, storyboarding, pitching, critique, general shoot preparation, location scouting, basic set design and casting.

4. Demonstrate basic mastery with electronic media production skills including producing, directing, lighting, shooting and basic sound recording.
5. Demonstrate basic mastery of electronic media post-production techniques including video editing, sound editing, basic ADR, effects, and motion graphics.
6. Demonstrate the ability to respond to moral and ethical situations in the electronic media environment from a biblical basis.

Print Media

1. Identify and diagram the structure of a text.
2. Trace the line of argument within a text and critique its effectiveness.
3. Identify and critique the worldview perspectives within a written text.
4. Effectively incorporate a biblical worldview in writing as appropriate for the situation.
5. Write effectively in all forms and genres, including poetry, short stories, essays, autobiography, travel, journalism, screenwriting, and novels.

Speech Communication

1. Engage in discussion as both speaker and listener through interpreting, analyzing, and summarizing; contribute to discussions in a way that is readily understood by listeners; present an opinion persuasively; analyze the shape and goals of a discourse.
2. Exemplify in communicative settings the highest ethical and moral standards.
3. Demonstrate the ability to correctly analyze and interpret a spoken discourse.
4. Determine appropriate language and usage in various communicative situations (considering the peculiarities of language, dialect, and culture).
5. Demonstrate a working knowledge of one of the following various theories of rhetoric: Neo-Aristotelian, Generic, Fantasy-Theme, Feminist, Ideological, Metaphoric, Narrative, and Dramatic.
6. Prepare and effectively present various types of oral discourse: discussions, reports, speeches, and debates.

COMPUTER & INFORMATION SCIENCES

Computer & Info. Sciences Core

1. Describe the software development cycle, its phases, and the purposes and activities of each.
2. Demonstrate a working knowledge of computer programming, including being able to:
 - a. Accurately use and interpret syntax semantics

- b. Design, write, debug, and test correct programs.
 - c. Correctly include and use common data structures.
3. Discuss the major hardware components of computers, their purposes, and their relationships to other components. In particular, students should be able to:
 - a. Demonstrate a working knowledge of PC components,
 - b. Demonstrate an ability to troubleshoot and repair common PC hardware failures,
 - c. Demonstrate an ability to upgrade and install new components in a PC.
 4. Demonstrate an understanding of the principles underlying modern operating systems by being able to:
 - a. Correctly discuss synchronization, parallel processing, resource management, deadlock prevention, memory management, virtual memory, etc..
 - b. Install and configure standard PC operating systems.
 5. Demonstrate an understanding of modern network technologies by being able to:
 - a. Define and discuss their underlying principles, such as the 7-layer network model and its components.
 - b. Install and configure industry standard network components including servers, network operating systems, and network hardware components.
 6. Describe current Web development tools and use them to design and create complex web sites.

Computer Science

1. Discuss the structure and design of computer circuitry, including ALU, CPU control, datapath, cache, memory, registers, busses, interrupts, etc.
2. Display knowledge of widely used algorithms by being able to:
 - a. Analyze and classify algorithms and their underlying data structures.
 - b. Define and use common computer science algorithms and related data structures for efficiently searching, sorting, and merging data, and processing stacks, queues, trees, graphs, etc.
3. Demonstrate knowledge of computer programming languages by being able to:
 - a. Accurately discuss the history and development of computer programming languages.
 - b. Correctly define and use terminology, issues, and tools related to programming languages and their design, such as:
 - i. Parameter passing methods, strongly and weakly typed languages, etc.
 - ii. Bachus-Naur Form, FSA, PDA, Turing

Machines, etc.

iii. Compiler construction theory.

4. Show an overall grasp of the field of Computer Science by being able to:
 - a. Integrate topics and subjects within the field.
 - b. Interpret and use current academic research.
 - c. Speak and write effectively about ethical and moral issues related to the field.

Information Systems

1. Display an understanding of basic principles of accounting and business management theory.
2. Demonstrate an ability to use industry standard applications such as spreadsheets, databases, presentation tools, etc. to solve business problems.
3. Describe and use systems analysis and design techniques, and explain where and how they fit into the system development life cycle.
4. Demonstrate a working knowledge of the protocols and systems necessary to support a web site, as well as an ability to install and configure standard web site system software (e.g., Microsoft IIS, Apache Server, etc.).
5. Display a working knowledge of database principles and technologies by being able to:
 - a. Describe the relational model.
 - b. Correctly define and use data normalization techniques.
 - c. Accurately use and interpret SQL database language syntax and semantics.
 - d. Install, configure, and use a standard DBMS (e.g. Microsoft SQL Server, Oracle, DB2, etc.).
6. Show an overall grasp of the field of Computer Science by being able to:
 - a. Integrate topics and subjects within the field.
 - b. Interpret and use current academic research.
 - c. Speak and write effectively about ethical and moral issues related to the field.

ENGLISH

English Core

1. Read texts closely and explain the value of close reading in the study of literature and rhetoric.
2. Explicate texts written in a variety of genres, historical periods, styles, and modes.

- Evaluate Western political philosophies in light of a Christian worldview.
- Analyze the major political philosophical works to identify the major theoretical principles being presented and identify applications of the principles within practical situations.

HOME ECONOMICS - FAMILY & CONSUMER SCIENCES

Home Economics Core

- Use modern scientific methods and resources to enhance the quality of life through the development of a knowledge and skill base in: nutrition, food science and preparation, clothing construction, and interior or clothing design principle application.
- Demonstrate the ability to conduct research to identify the needs of individuals and families.
- Demonstrate proficiency in use of software relating to Nutrition, Interior Design, Clothing, Textiles, and Financial Management.
- Demonstrate ability to make effective group presentations relating to the issues 21st century individuals and families face to ensure productive and harmonious lifestyles.
- Articulate biblical principles that characterize the professional posture of the Christian Home Economist.

KINESIOLOGY & PHYSICAL EDUCATION

Kinesiology & Physical Education Core

- Identify and describe the significant events and individuals associated with the development of physical education from ancient times to the present.
- Perform a kinesiological evaluation of skilled and unskilled physical movement activities.
- Perform a physiological evaluation of skilled and unskilled physical movement activities.
- Demonstrate a basic working knowledge of the significant psychological and sociological sport-related issues and their societal effects.
- Demonstrate a working knowledge of the basic statistical tools necessary to conduct physiological, psychomotor, cognitive evaluations, and sociological analyses.
- Design, implement, analyze, and manage an effective physical education program in

teaching, administrative, and coaching settings.

- Demonstrate a working knowledge in the care and treatment of athletic injuries and safety factors in the prevention of injuries.

Kinesiology & Physical Education General

- Demonstrate a mastery of the basic skills associated with required sports/activity areas
- Effectively teach the basic physical skills, rules, and strategies of traditional sports/activity areas
- Demonstrate a working knowledge of the physical development levels from infancy to adulthood and the implications in regard to physical education.
- Demonstrate an in-depth working knowledge of conditioning components as related to life-long fitness activities, physical training, competitive sports, and nutritional factors.

Pre-Physical Therapy

- Recognize and evaluate athletic injuries including emergency care and treatment of traumatic injuries.
- Implement treatment, rehabilitation, and reconditioning programs for athletic injuries.

MATHEMATICS

Mathematics Core

- Effectively prepare and give oral presentations from research literature in mathematics.
- Demonstrate mastery of the Calculus.
- Demonstrate mastery of Elementary Linear Algebra.
- Demonstrate mastery of Elementary Differential Equations.

Applied Mathematics

- Demonstrate a working knowledge of probability theory.
- Use probability and statistical inferences to draw conclusions.
- Demonstrate a basic working knowledge of the concepts of numerical analysis through the use of computers.
- Demonstrate a working knowledge of mathematical applications in a variety of applied fields.
- Demonstrate mastery of the various methods of combinatorics.

Mathematics Education

- Demonstrate principles for effectively teaching mathematics-related topics to students.
- Demonstrate a working knowledge of current issues in mathematics education.
- Demonstrate a working knowledge of fundamental algebraic structures (e.g., groups, rings, and fields).
- Describe the theoretical and axiomatic structure of mathematics.
- Demonstrate a working knowledge of number

- theory.
6. Demonstrate a basic working knowledge of the key persons and events in the history of mathematics.
 7. Demonstrate a basic working knowledge of the nature and applications of discrete structures.
 8. Demonstrate a basic mastery of the principles of Euclidean and non-Euclidean geometries.

Pure Mathematics

1. Demonstrate a working knowledge of fundamental algebraic structures (e.g, groups, rings, and fields).
2. Demonstrate mastery of the rigorous development and theory of calculus.
3. Describe the theoretical and axiomatic structure of mathematics.
4. Demonstrate a working knowledge of number theory.
5. Demonstrate a basic working knowledge of the key persons and events in the history of mathematics.
6. Demonstrate a basic working knowledge of the properties of complex numbers and complex-valued functions.

MUSIC (BACHELOR of ARTS)

Music Core

1. Demonstrate a familiarity with the “grammar” of music, including notation, chord progressions, part-writing, and melody harmonization.
2. Demonstrate a thorough working knowledge of the major composers, significant works, styles, and forms of the six eras of music history.

6. Demonstrate proficient skill in singing, as well as in playing each of the band and orchestra instruments.

TEACHER EDUCATION
Teacher Education Core

1. Develop a biblical world view as it relates to self, students, subjects, learning, effective teaching and evaluation.
2. Discover and develop unique God-given abilities.
3. Understand the K-8 curriculum including:
 - a. conceptual foundations of disciplines,
 - b. how knowledge is created and organized in the disciplines,
 - c. significant ideas in the disciplines,
 - d. values in the disciplines, and
 - e. connections among subject matter disciplines.
4. Apply academic concepts and principles to specific situations, common problems and current issues to specifically include
 - a. analyzing situations,
 - b. synthesizing information from multiple sources,
 - c. making decisions on rational bases,
 - d. communicating skillfully, and
 - e. appreciating diverse perspectives.
5. Link and apply the content of college coursework to personal experiences in K-8 classrooms including:
 - a. exemplary teaching practices,
 - b. innovative out-of-class projects and assignments, and
 - c. various models of assessment.
6. Develop respect for human similarities and differences including:
 - a. an awareness of their own perspectives pertaining to human diversity,
 - b. an openness to new perspectives regarding important variations among people, and
 - c. a critical understanding of the nature and forms of human discrimination and ways to overcome them.
7. Utilize current and emerging technologies including:
 - a. increasing personal subject matter knowledge and understanding,
 - b. using multiple applications,
 - c. analyzing, comparing and evaluating technologies as effective tools of study and learning in the seven major subject areas of study. ethical and social issues related to technology
8. Become a life-long reflective educator including:
 - a. examining and test ideas,
 - b. reflecting on teaching practice develop a deeper understanding of students,
 - c. developing a deeper understanding of learning, and
