

# THE MASTER'S UNIVERSITY

## STUDENT VOTER REGISTRATION

Students at the Master's University are afforded the opportunity to register to vote either at the local DMV or United States Post Office, both within 5 miles of the school. On occasion, during presidential election years, voter registration representatives may request to come on campus to register students who would like to vote as California residents.

The Campus Ministries department arranges with all approved campus visitors a booth set up in a high traffic area on the campus, so they can reach out to students.

Voter registrants can call the Campus Ministries department to request approval for a booth at 661-362-2834. The Master's University does not allow voter registrants on campus who receive compensation for voter registration.
